Screw that celebrity wedding, I didn't watch any of that Sheet.I suppose you probally didn't either.I don't care anything at all about royalty.I read somewhere a few days ago about 70 percent of Brits in UK don't give a damn about that Sheet.

Yep, doggy and I dodged the bullet regarding the tornados.Thanks for asking.The Old Guys are on the PBS channel.Clive Swift looks just like Humpty Dumpty, not meaning any disrespect to Clive Swift.

Right off the bat, no seal, dead giveaway!

They used the color safety paper to have an excuse for "layering",
however, the way the obama forgery is layered proves it a fraud.

An earlier video I posed has the author explaining why ...

Roy - Victor Goonetilleke in Sri Lanka informs me that AFRTS 12759U in BIOT is obviously on the air at 0138z today, May 1, 2011, and likely has been for a few days at least - so my reception of them during the 0100 - 0200 hours the last few days has been real :-) Reception Report time! Yahhooo! :-) Also notes that the remote Perseus receiver in Oregon has them today at SIO 333, which is MUCH better than here in San Francisco Bay Area - but what the heck! :-)

73 on the house!

I can only suppose that those making such claims of not knowing they
have engaged in sex simply started out having sex with the
families/neighbors pets, and carried on such perverted behaviors into
their adult life.

Since no animal was involved in the clinton/lewinsky sex relations in
the oval office (at least which can be proven to be present), they do
believe that no sex had taken place.

However, ignorance is no excuse for the law ...

Actually, it's pretty implausible that they would make an amateurish
Photoshop version of the birth certificate rather than simply
create a forged document. Seriously, all this fuss about the
"original birth certificate". Do we honestly believe the
most powerful man on Earth couldn't forge any document he
wanted? The physical birth certificate has *never* been as
convincing as the hospital records, the archived birth announcements,
and the testimony of the (Republican) governor of Hawaii and
the (Republican) head of Hawaiian records (things which
no white man has ever been asked to produce).

I wish the birthers would just come out and admit that nothing -
including a time machine - would ever convince them. Why
did it take Obama so long to release it? I think we can see
why now. He knew it wouldn't accomplish anything...
****
-
I'm not a birther, but if this document is not legitimate....Obama's ass
should be in deep trouble. And, a copy of the original would not have
layers.

The thread is about the veracity of Clinton's remark vis-a-vis monica
lewinsky and the sexual activity between them, in this case a blow job,
not about a law suit involving alleged sexual harassment. Funny how you
would tar and feather someone like Clarence Thomas who allegedly made a
remark about pubic hair and give a man who cheated on his wife in the
Oval Office a pass. And before you go off on another hypocritical jag
there are those on both the right and left who have sinned as it were
and tried to hide it from the voters and the rest of the public. After
all the a just flawed human beings not paragons of vitue.
BTW I find it funny how how you and other get foul mouthed and abusive
when one of your heros is shown to have feet of clay.

Most business men in this area use the temp agencies as a employment
pool. If a temp employee is seen to be seen as a desirable employee,
proper indications are given that temp employee to apply to the company
for full time employment ... if not, he/her is allowed to go on end of
contract and a new temp brought in ...

The Trump thingy was a political ploy to insure Obama gets a second
term.Trumps television popularity has been used to sway the public
opinion into believing he and his team of investigaors have accepted
the phoney second release as the real deal.This was the plan to
discredit the majority of public opinion of his illegitimate claim to
POTUS.

If his father was not a citizen of the USA at the time of birth,he is
an illegitimate POTUS.Since his father was still married to a wife in
kenya he could not get married,legally in the USA. If you look closely
you can see this second release is even more phoney than the first,and
since our brilliant Trump and his investigative team has not declared
it a farce,only proves they were not looking for the truth at all,
just on a political agenda to keep their National Socalist illuminati
mouth piece in office.Or Trump has been fired by the illuminati and
threatened a cut in pay$$$

I guess most didn't hear, what has always been asked for is a long form birth certificate of the original and the hospital records.

They have produced a COLB (Certification of Live Birth) and an edited .pdf file purporting to be a scan of the orignial ... however, it is obvious that it does not bear an official seal, and has been tampered with and overlaid on some scan of "safety paper."

Perhaps all this was just to hone the skills and knowledge of how to forge a proper document which would go unquestioned/undetected, who knows why such insanity would all take place ... but, it wouldn't surprise me if "OBAMA BIRTH CERTIFICATE -- TAKE THREE!" isn't coming up ... most realize that the actions of all this is pretty criminal in appearance ...

Jerome Corsi claims to have the paper trail on the coverup and documentation which proves ~2 million+ spent by obama in hiding his past records contained in public documents. I am anxious to give this a serious read.

The crazyness surrounding the whole thing is simply unbelievable and began with a presidential candidate promising transparency and has ended up with executive orders issued by him to keep his entire past a secret ... that only takes a rational mind to realize that something is bad wrong!

Regards,
JS

I am thinking of scanning and photoshopping my birth certificate and using it to claim I am of royal blood and sue the queen of england, claiming I am the son she gave up for adoption years ago ... however, I will have to find a way from ever allowing a DNA test, or I will be SOL!

If I end up having to give 'em a .pdf for some gawd unknown reason, I'll just tell 'em it is layered because it was constructed on the "cake model!"

> Nice catch! Racal? Uh oh, do you have a new toy in the shack?

Yes, it's fun to play with the Racal -- a real classic receiver, but
still a venue for some audio and AGC modifications. Here's a
recording of a good fidelity AM amateur station made in its widest
bandwidth position:

http://liberty.3950.net/WA3VJB%207290%2020k%20bw%2020110320%200317PM%20ET.mp3

Someday I hope to get some transmitting abilities too -- but that
may take a while.

With my best,

Kevin, WB4AIO.

Again we have a strange and mentally disturbed Leftwinger proclaiming
that all is good, even though all the facts point the other way.

Sorry Kryp...it aint over yet.

Deal with it.

If it works in your favor..all will be good.
If it is proven to be fraud...you and yours will be committing suicide
by the millions. <VBG> and each and every law he signed..gets overturned
and ground into the dirt.

So grab on to the safety bars..its gonna be an interesting ride.

Gunner

Actually, it's pretty implausible that they would make an amateurish
Photoshop version of the birth certificate rather than simply
create a forged document. Seriously, all this fuss about the
"original birth certificate". Do we honestly believe the
most powerful man on Earth couldn't forge any document he
wanted? The physical birth certificate has *never* been as
convincing as the hospital records, the archived birth announcements,
and the testimony of the (Republican) governor of Hawaii and
the (Republican) head of Hawaiian records (things which
no white man has ever been asked to produce).

I wish the birthers would just come out and admit that nothing -
including a time machine - would ever convince them. Why
did it take Obama so long to release it? I think we can see
why now. He knew it wouldn't accomplish anything...
****
-
I'm not a birther, but if this document is not legitimate....Obama's ass
should be in deep trouble. And, a copy of the original would not have
layers.

Try a 6500 Kelvin DAYLIGHT (not cool white, not warm white), it is a
blue white light which makes the ~2700 Kelvin fluorescent look like old
yellowed pages from a book ...

I found out by using these on fish tanks, increased plant growth, more
vivid colors in the fish, etc. Always insist on DAYLIGHT fluorescent!

Try it, you'll like it!

I think it obvious, if he had one, we would have seen it by now ...

What is ever more distressing is that it takes a LOT of criminals in
government supporting him for him to be able to stay in office.

Long ago, the FBI should have approached him and told him, "Sir, you are
going to have to come up with a REAL BIRTH CERTIFICATE, or we are going
to have to ask you to leave."

Regards,
JS

That is legally incorrect. The citizenship status of either parent is completely immaterial to his natural born citizenship, This is long settled law and is not even remotely open to dispute.

> Since his father was still married to a wife in
> kenya he could not get married,legally in the USA.

That of course has nothing to do with anything and in fact would mean that Obama would be a natural born citizenship even if he had been born in Kenya. If Ann Dunham were not legally married at the time, Obama could have been born anywhere BUT in the US and still be a natural born citizen since the 5-year minimum residency requirement after age 14 (Dunham was only 18 at the time) would not longer be applicable.

You just kicked your OWN ass, WrongTurnJoe!!

His father's citizenship is completely immaterial when his birth is on
US soil. So is his mother's. Birth on US soil means you're eligible to
be president unless your parents are foreign diplomats on assignment.

Handy Shortwave Chart
Bill McFadden
billmc@agora.rdrop.com

Band allocations and time zone conversions for the USA. Includes broadcast
bands used outside the USA. For multi-use bands, primary usage is shown.
Some stations operate outside official bands. Information is from Oct 2008
FCC rules and Sep 2009 NTIA manual, see Chapter 4 of:
http://www.ntia.doc.gov/osmhome/redbook/redbook.html

Frequencies are in kHz. Usual spacing in shortwave broadcast bands is
5 kHz. Frequencies above 10000 kHz tend to propagate better during the day;
frequencies below 10000 kHz tend to propagate better at night.

Please e-mail suggestions and corrections to billmc@agora.rdrop.com.

Phone line as SW antenna
Bill McFadden
billmc@agora.rdrop.com

Changes preceded by "|".

WARNINGS AND DISCLAIMERS

Connecting unapproved devices to phone lines may be illegal in your area.
Telephone lines present a potential shock hazard. Do not use this antenna
for transmitting. Use at your own risk.

INTRODUCTION

This article describes how to use a phone line as a shortwave receiving
antenna. Performance will vary depending on the kind of phone line you
have. Overhead lines usually make okay antennas, while underground lines
| usually don't. Phone lines carrying DSL service may be unsuitable because
| DSL operates over a wide spectrum. A phone line antenna will generally
pick up more power line noise than a dedicated antenna, so don't expect to
| use it for DX work. Nevertheless, I found that it outperformed the
| telescopic whip antennas built into many portables.

A reader sent in this suggestion: If you're concerned about connecting
the phone line directly to the receiver, try wrapping the phone cord
several times around the receiver's telescopic whip antenna instead.
Performance may not be as good as a direct connection, but it will
probably be better than the whip antenna by itself.

Someone else wrote asking about lightning protection. I haven't thought
much about it because thunderstorms are rare in my area. Most phone lines
have lightning arrestors on them where they enter the house, but the
lightning arrestors may pass enough energy during a lightning strike
damage a receiver. My suggestion is to disconnect the antenna when not in
use if you experience frequent thunderstorms.

HOW TO DO IT

The simplest connection is a single capacitor between the phone line and
receiver. The capacitor eliminates all phone line voltages, including
| ringing, so that they will not harm the receiver. The capacitor should
| be rated 250 volts or higher.

```
Phone line RF connector
red .01 uF center cond. / \
or o--------||-----------------------------|-o | To receiver
green \ /
50 ohm coax |
ground |
or o-----------------------------------------+
N.C. shield
```

N.C. = no connect. I originally connected the phone line ground (yellow wire) to this terminal, but reception was better without it (if you do this, play it safe and put a .01 uF capacitor in series). If another ground is available, you can connect it to this terminal.

If you are picking up local AM or FM radio stations on the shortwave bands, it is likely that your receiver is overloaded. Inexpensive and portable receivers usually lack the filtering needed to eliminate this interference, but you can make your own filters. Filters can also be
| purchased from shortwave dealers (see below for recommendations).

A high-pass filter can be used to remove signals below the shortwave bands. It rejects interference from local AM stations and presents a high impedance to the phone line at audio frequencies so that the phone line remains balanced.

A low-pass filter can be used to remove signals above the shortwave bands. It rejects interference from FM and TV stations, as well as VHF 2-way radio transmitters. If you use both filters, connect the output of the first filter to the input of the second (don't forget to connect their ground terminals together). It doesn't matter which filter is connected first.

These filters also work well with random wire antennas. Just connect the antenna in place of the phone line.

The filter(s) should be connected to the phone line in this manner:

```
Phone line RF connector
red -------- center cond. / \
or o----| |-------------------------|-o | To receiver
green | | \ /
| FILTER | 50 ohm coax |
ground | | |
or o----| |----------------------------+
N.C. -------- shield
```

```
| RECOMMENDED FILTERS
|
| If you don't want to make your own filters, the following have good
| performance, are well-built and affordable:
|
| Model 400 BCB interference filter (3.5 MHz highpass)
| http://www.iceradioproducts.com/filtersrf.html#bcb
|
```

| Model 420 HF lowpass filter (30 MHz lowpass)
| http://www.iceradioproducts.com/filtersrf.html#3
| (scroll down a bit to see the model 420)
|
| If you have a random-wire antenna, the following unit will provide
| impedance matching and lightning protection (connect antenna to 450-ohm
| terminal):
|
| Model 182A beverage matching unit
| http://www.iceradioproducts.com/reconly.html#Beverage Matching

FILTER PLANS

The original credit for the high-pass and low-pass filters goes to Paul Blumstein and John Shalamskas, respectively. Edited versions of their articles are included here:

Date: 09 Jan 91 00:54:08 GMT
From: paulb@harley.TTI.COM (Paul Blumstein)
Subject: BC Band Hi-Pass Filter

The following ascii-schematic diagram is a high pass filter that will filter out Broadcast Band (MW) stations. I found it a great boon to my shortwave listening since local MW stations overload my ATS-803A front end & appear in SW, especially with a long antenna.

If you remember my antenna saga, I went from 50 feet to 150 feet & had overload problems causing me to cut back to 50 feet. (Even at 50 feet, I still have some MW interference). I took the advice of Gary Coffman and looked up filters in the ARRL Handbook. With the filter in place, I intend to try to increase my antenna length again.

Anywho, here is the filter, for interested parties.

```
--------||---+----||-----+----||-----------
} }
{ {
} }
-------------+-----------+-----------------
```

The outer capacitors are 1500 pf ceramic disks.
The inner capacitor is 820 pf ceramic disk.
The squiggly things are coils (two total). Each one is 2.7 uh.
(a close value will do).

Date: 12 Jan 91 00:44:25 GMT
From: bill@videovax.tv.tek.com (William K. McFadden)
Subject: Re: BC Band Hi-Pass Filter

I built the filter that Paul Blumstein posted recently and measured it on a gain-phase analyzer. Here are its characteristics:

100 kHz -120dB
500 kHz -68dB

1000 kHz -38dB
1600 kHz -15dB
2100 kHz -3dB

The source and load impedances were 50 ohms. Because the filter has five elements, the attenuation is 30dB per octave. The measurements confirmed this.

This filter seems to be a good compromise between interference attenuation and passband response. There is very little attenuation in the 120m band and above. It could use a little more attenuation at the upper end of MW, which could be done with more stages or a higher cutoff frequency. Alternatively, you could build two of these filters and put them in series. (Since two 1500pF capacitors in series are really 750pF, you could eliminate one cap.)

Just for fun, I put 470 ohms in series with the input to see how the filter performed with an antenna mismatch. The response was:

100 kHz -105dB
500 kHz -60dB
1000 kHz -35dB
1600 kHz -15dB
2300 kHz -3dB

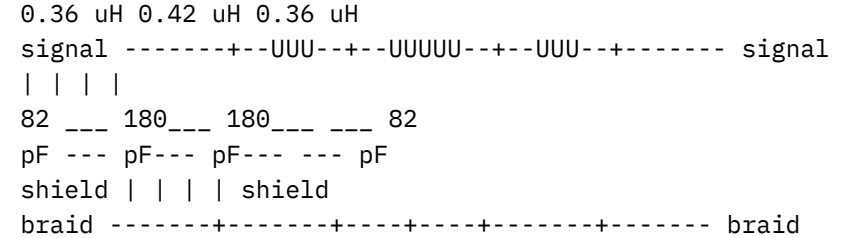
These figures are normalized to the passband response of -15dB, which is due to the impedance mismatch between the source and load and would have been there without the filter. Hence, the filter works almost as well in spite of the mismatch, which is good news to those who use long-wire antennas.

Date: 22 Apr 92 08:59:33 GMT
From: johns@uhunix.uhcc.Hawaii.Edu (John Shalamskas)
Subject: Construction of filters for SW reception

Several people have asked for construction details of the filters I built for my DX-440.

The high-pass filter helped some, but in my location the VHF/UHF broadcasters are also causing problems. So, I dug out the ARRL handbook and chose a 7-element Chebyshev low-pass design that is -3 dB at 35 MHz, -20 dB at 43 MHz, and -50 dB at 64 MHz (all calculated; it works well in practice!)

LOW-PASS FILTER (Rejects FM, TV, etc.)



|
chassis ground

I had to do a little more improvising at this point. I used .33 uH
instead of .36, and .66 uH instead of .42, but it works fine.

The 5-lug terminal strips were perfect for these circuits, since there
are 4 lugs plus a grounded lug. All "ground" connections go to the lug
that is mounted to the chassis, and the other 4 lugs are used for each
of the connections on the signal line. One terminal strip is used per
filter. Since both filters were necessary to clean up the hash, I am
going to put them both into one box when I get the time.

The proper way to connect them is in series, i.e.

signal in ------- filter 1 -------- filter 2 -------- signal out

There is no difference between ends. They are "bilateral" which means
you can't possibly hook them up backwards. (In the above schematics,
left and right ends are interchangeable.)

COIL WINDING

You can make the coils yourself using this formula:

L = 0.2 * B^2 * N^2 / (3B + 9A + 10C)

L is the inductance, in uH
A is the length of the coil, in inches
B is the mean diameter of the coil, in inches
C is the diameter of the wire, in inches
N is the number of turns

For small wire, you can assume C = 0.

PARTS SOURCE

Parts for the filters can be obtained from the following source:
http://www.digi-key.com/

Your getting hair lipped Limprod!

Born in Kenya means not Natural born on US soil.Naturalization
citizenship can not be used for POTUS.
He was born a bastard child in Kenya or so he says!
I say MKed Stanley Ann was artificially insimulated with Malcome X
sperm and was delivered at a NASA Mind Control facility on US soil.

None the less if there is no marriage Certifricate still means he was
fatherless,if he was naturalized in Indonesia VOIDS any previous
natural born citizenship.So there again he is said to be a dual
citizen thus not eligible to be POTUS.

You cant wish this out into the cornfield,it is in the 13th and 14th
amendment of our joke of a Constitution.

BpnJ,

Listened just about every hour at the top of the hour
for -5 to +5 and have heard only 'Audio Artifacts' and
"Mumbles' since yesterday.

"Good Clear Audio"* : Recognizable Words and whole
Sentences {Content}; Language; Speaker's Sex:M/F;
Voice-v-Music

* Good Enough for Radio Program Listening

"Identifiable Audio" : Recognizable Words and Language

"Mumbles" : Language like sounds and Word Fragments

'Audio Artifacts' : Sounds like there might be Audio
on-frequency; and when you Tune +5k & -5k there
are 'no' like sounds; just the background band noise
at the time.
.
But, I have heard more 'Mumbles' and Audio Artifacts'
on 12,759 kHz USB; then on 4319 kHz USB.
.
.

And now we have an Aussie who is mentally ill chipping in to the
conversation. Bloody fucking wonderful.

Chuckle...well..good folks, even the blokes who are boozers. I used to
love fucking their women while they had their noses deep in a pint down
at the pub.

Shrug...if you were born between 1971 and 73...I could have been your
da.

But I actually doubt it. My git havent been mentally ill.

Lets see what happens in 2012. Perhaps the Obamassiah may be running for
office, or he will be in jail.

I rather doubt he will win, given that his popularity is down around
30%...but...miracles do happen.

<VBG>

Gunner

JS,

Rumors Are : That Alex Jones may be on 50 to 100
more Radio Stations by the end of the Year; and that
Alex Jones will be in the 25 Major Media Markets or
more for the 2012 Election Cycle.

New AM Late-Nite Radio Cycle : 3-Hours of C2C-AM;
followed by 3-Hours of Info-Wars; with a repeat of
C2C-AM...

Plus a new feature "The Alex 'Info' Minute" several
times throughout the day on AM Radio Stations
where "Info-Wars" is being Aired.
-wrt- The Rush Minute and the Huckabee Report etc...

The Rising Sun Has The Face of Alex Jones On It !

Denial..is not a river in Egypt.

Hey guys..what the fuck..did the DNC handout laptops to everyone in a
mental hospital in response to the news about the Obamassiah?

All the nut cases are here and they are all in a deep shrill panic about
their Obamassiah! Poor babies....they may lose their mentor..their
king, their godhead..he might wind up in prison for high crimes and
misdomeaners against the United States of America.

Look at them..twitching and choking..turning red in the face...fingers
spasming...hate and fear in their eyes.....

Crom but I love it when I see that many leftwingers on the raw edge of
panic and rage. Hey..summers coming! Maybe they will rise up and burn
down something! Maybe their homes and apartments! Yah! Thats the
thing! Burn down your house and your apartment and get back at the
Man!!

Laugh laugh laugh

Philips Unveils Energy-Efficient Incandescent Light Bulb
http://www.reuters.com/article/2011/04/29/idUS273367407320110429
The new Bulbs use Halogen Elements and Save 28%
on Electricity over the older Tungsten Filament based
Incandescent Bulbs.
http://en.wikipedia.org/wiki/Incandescent_light_bulb

IIRC : The Halogen Elements should last long by 33%
to 50% then the same Tungsten Element for the same
Light Output {Lumens}

NOTE : That the USA has over 4.4 Billion Medium [E27]
Screw-Based 110VAC Light Sockets
.
I could buy a Million of them for a $1 a Piece and
Re-package them as Say 'No' To Obama "Anti-CFL"
Bulbs and Sell them on Pay-Tree-Ott Websites for $5
to $10 a Piece and Buy Carbon Credits with the Profits

1 - Dave -wrote-new-subject-line-
Right to work for less

And Dave You Also Have The Right NOT To Work At All !

Nothing in the US Constitution about "Labor Trade Unions"

Nothing in the US Constitution about "Unions {Closed} Shops"

The US Constitution It's About Individual Rights
* The Right To Work in Your Own 'Pursuit of Happiness'
{Not The Collective Pursuit of Happiness}
* * Including The Right To Join A Union
* * Including The Equal Right NOT To Join A Union
.
.
2 - Dave -wrote-
You must have money to burn. As far as not trusting methane, that's
like
not trusting sand. Methane is ubiquitous. Just about every living
thing
on earth gives up methane eventually.

Dave you be careful around all that ubiquitous Methane
when you light-up your Medical-Marijuana Stuff.

Dave is ubiquitous Methane another by-product of
your Meth Lab ?
.
.
3 - Dave -wrote-

There are entire planets made of methane!

Dave your 'Head' is Not a "Planet"

...but... I may explain why you are light headed ;;-}}
.
4 - Dave -wrote-
That's because you believe your TV.

Dave is that any better than 'You" Talking to
"Your-Selves" in a Mirror ?

A BASIC START AT REAL VERIFICATION :
A basic Forensic Records Check of the Ten Records
'before' File 151 Record # 61-10641 and Ten Records
'after' would show both consistencies {Validating} -or-
inconsistencies {Invalidating} Record # 61-10641
http://groups.google.com/group/alt.news-media/msg/db634d5e33b6af05
.
IN-DEPTH TRUE VERIFICATION :
An extensive Forensic Records Check of the 100
Records 'before' File 151 Record # 61-10641 and
100 Records 'after' would show either more
consistencies {Validating} -or- inconsistencies
{Invalidating} Record # 61-10641
1st - Pull, Review and Inspect Every Odd Numbered
Record Down from # 61-10641 for 50 Records; followed
by Every Fifth Record Down from there for 50 Records.
1st - Pull, Review and Inspect Every Even Numbered
Record Up from # 61-10641 for 50 Records; followed
by Every Fifth Record Up from there for 50 Records.
REVIEW + INSPECT + VERIFY = FACTS

Again, you claim he spent millions and yet the best he could come up
with is a cheap five buck fraud. Ask yourself, in one of your more lucid
moments, if this makes any sense at all.

My comments on Corsi:

1) Corsi knows a fool and his money are soon parted.

2) Corsi knows the birther kooktards are fools.

Ergo, Corsi is cashing in.

> The crazyness surrounding the whole thing is simply unbelievable...

The only "crazyness" is the birther kooktards...and it IS unbelievable
they can be that gullible (or racist).

Marijuana is Ilegal in Mississippi.Only a week, or less than a week ago, somebody in Mississippi was Busted for growing Marijuana.Things like that happen once in a while.You do NOT want to have any Marijuana or other Ilegal drugs/dope on yourself, or even be transporting that stuff in Mississippi.Chances are Better that you may think that you WILL get Caught! I see local TV news about that every little once in a while.

Halogen describes the gas around the filament, which remains tungsten alloy

Alex Jones is the bomb!

He is a white texas terrorist who is attacking the illegal public servants and government of the USA, secret "mooselom" agents like ohblahblah, government perversion, child theft racketeering, theft of the publics' pensions, theft and taxes through inflation, the false debts being placed on Americans, etc., etc., etc., etc., etc., etc. ...

A real life Batman without the cape! A real live nephew of my Uncle Sam, and rumored to have been born on the Forth of July, and leader of the free world world and free men/women everywhere!

... a patriot, and gawd above professional politicians everywhere!

Regards,
JS

Peaceably assemble?

It is a fundamental right of Americans to freely associate and band
together to exercise power. Look in the picture frames either side of
the Speaker of the House. Those symbols represent the strength of people
working together.

Arnold didn't care if you smoked it in California ...

Legalizing medical marijuana in California has seemed to take some of
the criminal activity away which was centered around marijuana and move
it to other states where it is still illegal ... now we need to do this
with other drugs and get rid of the drug criminals altogether and remove
the heavy monetary incentives to crime, murder, etc.

While "decent" is subjective, "real" isn't. We've had fake
presidents for decades?

The oddest thing about your post though is the comparison of Ron Paul
with JFK. How did you pick him?

Ron Paul has one attribute I do like. In his attempt to destroy the
government, he doesn't exempt the military.

Destroy the government, Ron Paul? I think not; rather, he endorses a
return to the smallest government possible -- as the forefathers intended!

Small governments are in the best interests of those governed.

Destroy most of the government. How much of that is good and how
much is bad is a different discussion.

>Small governments are in the best interests of those governed.

Except when it isn't. When you need a government service, and there
aren't enough people to provide it adequately, do you think the same
thing?

People should do things for themselves.

At one time, we had the only non-criminal government in the world, now
all governments are simply criminal.

The return to smaller government we discuss is simply the removal of
worthless feeders at the troughs of public monies ... i.e. the removal
of the criminals.

I personally love the CFL bulbs. In the long run I've saved a lot of
money with them, spared myself the irritation of having to replace
bulbs all the time, and I get zero radio interference from them.

OK...out of curiosity.....
How do you explain a copy of the original, posted on the White House
website, being a pdf file with layers? Was it generated as a pdf file 50
years ago?

What unsubstantiated claims are those? The ones only you heard about
from the voices in your head?

>

Afraid of? Secrets? The only thing I'm slightly scared about is that you
whackjobs are running around loose. Who knows what about anyone you'll
dream up next? You kooks might go into "tower and rifle" mode.

WTF is wrong with you? It's a PDF, so what? I guess to feed into your insanity, they should have posted it as a .jpg, or even better, a .tiff. Maybe that would satisfy whatever nonsense you've dreampt up.

Or they can just sit back now, and let you continue to show how far gone you are.

Sounds like a plan to me.

It's amazing the dancing some of them will go through to avoid admitting
what they are, birthers. And even less likely is that they will admit
why they are birthers in the first place. It's pretty obvious to most
sane people...

You are invited to attempt to corral me. Anytime. Anywhere. Bring your own
body bag.

Fifth Law of Leftist Debate
The more you present a leftist with factual evidence that is counter to his
preconceived world view and the more difficult it becomes for him to refute
it without losing face the chance of him denigrating the intelligence of
the poster or accusing you of having some sort of mental illness approaches
infinity.

Boomerang corollary.
Said leftist will display his own lack of intelligence or mental defects in
his responses accusing you of same and never get the irony of it.

Seventh Law of Leftist Debate
Leftists often ascribe to others the most debased motives for their actions
when in fact they are only reflecting their own inner reality.

--
Herman Cain for President! http://hermancain.com/
If you don't support him you are a Racist!!

He beat Cancer. He'll beat Obama (who is just like cancer)

Remember Desert One, Carter 0? Ain't it sad to wish that Obama had as much ambition but being glad he doesn't knowing he doesn't have THAT much competence?

That's a job for the professional nutcatchers and the police. You could
have something contagious, some brain wasting disease. But more likely,
you're just another internet tough guy puffing away.

There is nothing factual in birtherism. Only rumors, confusion,
fantasies, and delusions. And of course, bigotry, the basis of nearly
all of it.

>
> Boomerang corollary.
> Said leftist will display his own lack of intelligence or mental defects in
> his responses accusing you of same and never get the irony of it.

There's no irony here, birthers are insane. Most people know you are
loons.

>
> Seventh Law of Leftist Debate
> Leftists often ascribe to others the most debased motives for their actions

Keep dreaming about Obama not being "natural born". I suppose it's less
harmful than some other fantasies you might be having about him.

Is that 7811 also DG?

I rarely get "decent" signals here. I have to fight and struggle
every inch of the way for DX.

Bruce

Larrod,
The Numbers and Percentages Change with Party
Affiliation and Identification {Lean-Toward-Ness}

Left = Liberals & Democrats : Obama Continues
To Get High Marks from 'most' like in 2008.

Middle-of-the-Road = Independents* : Obama Now
Has Lost ~20% to ~30% of those who Liked "BO"
in 2008.

Right = Conservatives & Republicans : Obama Continues
To Get Low Marks from "All" like in 2008.

NOTE : Don't Worry about the Voters from the Party IDs

* The so-called [No Party] "Swing-Voters" are moving
away from Obama for many reasons :

** Hey Give Obama a 'Chance' -oops- Did and Don't Like
Obama -obama-is-as-bad-or-badder-than-bush-&-clinton-

** Peace Voters -oops- Obama is a War Monger Like Bush
-obama-is-as-bad-as-bush- -obama-is-bush-is-obama-

That's what happens when it's scanned. Happens all the time. You seem
flummoxed by the simplest of things.
****
-
Fine...explain it to me. A document is scanned, and it ends up with several
individual layers.
Doesn't work that way on my scanner. It ends up all in one layer. How does
the scanner know to separate signatures, forms, background into separate
layers?

BpnJ,

Run Two Receivers one on the Target 12,759/4319 kHz
and the other on the Parallel Verifier 7811 kHz to see

if the Words and Sounds appear to 'parallel' each other.
Usually that's good enough to say : That's It ! :o)
http://myafn.dodmedia.osd.mil/ShortWave.aspx
-note-the-error-78110- should be '7811'

For AFN-DG 12,759/4319 kHz you might use
AFN-Guam on 5765 kHz as the Parallel Verifier.
http://myafn.dodmedia.osd.mil/ShortWave.aspx

As for me each Hourly Check for AFN-DG
has resulted in 'zilch' ~ RHF
.
-fwiw- Sometimes I do hear what appears to be
a CW Marker Beacon? on 4319 kHz. You may
want to Listen for that...
.
Still wondering when AFN Pearl Harbor, Hawaii
is going to return to service . . .
http://myafn.dodmedia.osd.mil/ShortWave.asp

Yeah, anyone younger than me probably does not remember safe streets, park benches and drinking fountains everywhere, walking safely in the dark on your way home, NON-criminal cops, etc.

Of course, the inner cities and areas where undesirable lived were always better kept out of, unless looking for trouble, but believe it or not, things used to be much, much safer!

Now that government has stooped to the level of criminally molesting your average citizens, it is much worse.

The worst part is the separation of the text from the actual black and
white form, then the separation of various text fields from others adds
MUCH insult to injury, etc. ... that crappy "safety paper" it is all
pasted onto just adds another level of obfuscation ...

Someone asked for a copy of a legal document just wouldn't give such a
crappy fake unless complete stupid or for some, as yet, unfathomable reason!

We've always had criminals. And we've always had some crooks in
governments. Just as everybody else has always had both. I
personally haven't noticed any problem in doing any of the above, but
I've only been doing so for six decades.

Statistics will be available if your fears are more than fantasy, if
it isn't you being afraid instead of the streets being more dangerous.

>Of course, the inner cities and areas where undesirable lived were
>always better kept out of, unless looking for trouble, but believe it or

I've lived in and out of inner cities. Show the statistics you are
afraid about.

>Now that government has stooped to the level of criminally molesting
>your average citizens, it is much worse.

The government gained some power to do so because of people who were
terrified by our enemies, if you're talking about Homeland Security.
People who are afraid demand that we all are afraid of people who seem
different. People who are afraid are willing to give up liberties.

Ah yet another phase of the citizen issue. This next phase will surely
be drawn out and maybe even put before the Supreme court. However,
don't expect the US Dept. of Justice to do anything about it.

And on the issue goes, over the hills and through the gardens of the
Tele Babies.

I catch your drift, Sergeant ;-) When I can, I will give that a try.
I do often (and easily) hear that beacon on 4319, AM and LSB, so
luckily it does not interfere with USB. It's not DG, is it?

At this point, however, I have no doubt whatsoever that I heard DG on
12759. At this noisebucket location, though, I may never hear them
better, assuming I ever hear them again.

Why in the name of sanity would you place trust in the "analysis" of
the Obama BC when the author repeatedly says "I don't know"? From
your cite we read:

1. All the letters in that portion are vectorized graphics except for
the R which looks pixelated. I don’t know why.

2. Secondly, there is a white faded ghost around all the text and
black lines of this document, again I don’t know why.

3. All the letters in that portion are vectorized graphics except for
the R which looks pixelated. I don’t know why.

4. Secondly, there is a white faded ghost around all the text and
black lines of this document, again I don’t know why.

5. It reveals a layer of white ghosting beneath it. I do not
understand this or know the purpose of it.

But....on the other hand, so many of your previous posts make
reference to Jones' PrisonPlanet and InfoWars. So in a left handed
way, you are consistent: You'll believe ANYTHING in print.

But don't ignore the bottom line of the link:

"If that’s true, why was this fake put online? Once again, more
questions than answers."

The author of this baloney has branded the document a fake, but as I
stated in my first post, the author's analysis is filled with
ADMISSIONS OF HIS IGNORANCE concerning his assessment of the BC.

Conclusion: He is full of Dookie.

No. The whitehouse released it. Why would anyone download or bother
with something on a CNN webpage? That is stupid!

obama already has enough of these things floating around without
creating more obfuscation and more fraudulent copies!

Regards,
JS

well how are you going to prove it is fake, donald trump with all his
money couldn't disprove the validity of the document. why dont you go
to the bureau of vital statistics or whatever it is called in hawaii
and see for yourself if the document is there.

Too bad he had to die to take our minds off the birth certificate.
Heavy price to pay.

OK, I'm happy too, crackpipes for everyone!

ALL RIGHT!

It is all over, will they start bringing troops home tomorrow? Can we
stop bombing people in Libya?

Did osama have a copy of obamas' birth certificate on him?

Are we going to repay the iraqis' for the oil we stole?

Gawd, in addition to the birth certificate, there is going to be even
more questions to stay focused on!

Only in Missy Sippy!

They can raffle off Osama Bin Laden now, he has been dead for years and
years.

Bush deliberately ignored the PDB from August 2001 that warned about
bin Laden's plans to attack the US.

Bush held back at Tora Bora, letting bin Laden get away.

Bush showed that he loved Saudi Arabians, as he kissed their Crown
Prince and strolled with him while holding hands.

Despite all this, is there any doubt that, if Bush had gotten bin
Laden, we would have been treated to another gigantic "Mission
Accomplished" banner?

Actually it doesn't mean that at all, you stupid oaf.

He could have been born in Kenya and still be a natural born citizen.
Legal FACT that you are too stupid to grok.

> Naturalization
> citizenship can not be used for POTUS.

So you're saying that would invalidate McCain, whose "citizenship at
birth" was extended to him by act of Congress when he was two years
old?

I don't know. Maybe they are right, maybe this is a big deal.

If the police state ends tomorrow, if gas prices come crashing down tomorrow, if unemployment ends, if business comes home from overseas, if there is dramatic upswing in the economy, if businesses stop failing, if foreclosures end, etc. we will all have to admit it is a big deal.

If not, no big deal ... we just keep on keepin' on, we will know when it is time to admit this is a big deal ...

Personally, I never did think the problem was bearded men hiding in caves in a foreign country ... I am waiting to be proven wrong ...

GESUS!!

You're still a birther loon?

Who'd a thunk it?

Everyone.

I asserted that the author admitted his own ignorance of the so-called
discrepancies. That was not a "stupid statement". I quoted the
author himself. Read my first post again.

You, who so freely quote Alex Jones as some kind of guru. And you
call ME a moron?

PUH-LEEEZE !

STILL waiting for you to tell us why you claim Obama "spent millions" to cover up his past, but can only afford "a shoddy fraud".

Huh? "If it wasn't for Bush, bin Laden would still be alive..."

So are you saying Bush, who couldn't get bin Laden for *SEVEN* years and
has been out of office for 2 1/2 years gets credit for killing bin Laden
yesterday?

Are you sure you don't want to change your name from Tall King to Joe
King? (because you surely must be joking)

Sure you are not giving the Obamassiah credit for that!

Afterall he promised to pull all the troops out of Iraq and Afghanistan
within 6 months of his election to president!

So again..he lied.

Well, Boy Barry can't be out there all the time stating that EVERYTHING is Bush's fault and that he inherited all the problems and then suddenly claim total credit for something that Bush set in motion many years ago.

Obama is a putz and probably needs help wiping his own ass.

But don't ignore the bottom line of the link:

"If that's true, why was this fake put online? Once again, more
questions than answers."

The author of this baloney has branded the document a fake, but as I
stated in my first post, the author's analysis is filled with
ADMISSIONS OF HIS IGNORANCE concerning his assessment of the BC.

Conclusion: He is full of Dookie.

RO

========== Reply below ==========

Then what about the other people that have used Adobe Illustrator to find
the 4 layers of a BC in what should have been a simple scan?

I don't know about "millions" but I know he spent at least one million and
he even hired the attorneys to work for him that were working against him.

Barry is cunning but he has idiots working for him that made it too easy to
find out that the BC was an Adobe Illustrator creation.

well how are you going to prove it is fake, donald trump with all his
money couldn't disprove the validity of the document. why dont you go
to the bureau of vital statistics or whatever it is called in hawaii
and see for yourself if the document is there.

========== Reply below ==========

Donald Trump spoke way to fast. He shouldn't have said anything about the
BC especially before anybody had a chance to really look at it.

http://www.telegraph.co.uk/news/uknews/7625031/Ray-Grayston-one-of-last-British-Dambusters-dies.html

1:22PM BST 23 Apr 2010

Flying Officer Ray Grayston, 92, passed away at his home in Woodhall Spa, Lincs,.

He was a former member of the famed 617 Squadron, which flew from RAF Scampton near Lincoln during the Second World War.

He was the flight engineer of pilot Les Knight's Lancaster bomber which successfully breached the Eder Dam.

The raids, immortalised in the 1955 film The Dambusters, were led by Wing Commander Guy Gibson and used the so-called "bouncing bombs" designed by Barnes Wallis.

Put the OCR setting on.

Happens all the time. You're merely ignorant.

219. Re: Proof Obama's certificate ain't valid! But Someone Forgot to Turn Off the OCR, So It Is Valid

The Dambusters.I have seen that movie a few times before on the TCM channel.Maybe the movie will be on TCM again sooner or later.It is a Very Good movie.

Last night the History channel ran a program about weird weapons.Most of those weird weapons didn't pan out the way they wanted them to.

I have read a few books before about secret World War Two Weapons.

Obama has done "nothing" of value and now he says he killed an old dying retired terrorist that he should have already had in GITMO and you think he deserves the job he has failed in, for 4 more years?

Bush got Saddam and I wouldn't have voted for Bush and didn't vote for Bush II "McCain" because Saddam was killed for his crimes.

Liar. He did fail to keep his pledge to get out of Iraq. However, he
also promised to return the focus and the fight to Afghanistan and to
get bin Laden. Looks like he made the right judgement and executed it
successfully.

Well, I wouldn't jump to conclusions. The Patriot Act is one sore pain
in the arse. With bin laden dead, if the repeal the patriot act, that
is one good thing. Then we can get rid of this damn police state.

However, I think we will notice no difference at all ... for all it will
mean to us there could have been a million bin ladens ...

Regards,
JS

Using OCR (Optical Character Recognition) would only be used if you were converting a picture (true scan) of a document into a text file so you can edit it!

That is an absolute giveaway that the document has been tampered with. Add to that, that the idiots used a computer graphics font and the document is obviously assembled out of two or more documents and the case for a fraud is absolute.

At first, the desperation of such a fraud surprised me ... then I realized this is just a trademark of this administration ...

Two of my friends are Negros. However, they are highly intelligent,
work in the same field as myself and have characters' beyond reproach!
They happen to have british accents and were schooled in bush schools as
youngsters, before university ...

As Dr. King had recommended, you gauge people by their character, not by
their color ... these two pass that requirement with flying colors.

They were still unable to get it correct, we asked for a real one.

The have given us a fraudulent one, again. Editing the document in OCR
is a crime, when you attempt to pass it off as real -- but, what is one
more crime in the history of this administration?

Yeah, bizarre, huh?

I think we will now find out that he never was any sort of problem. I don't think his death will change a single thing, not the patriot act, not the economy, not the jobs, not unemployment, not inflation, not the banksters, not wall street, not the theft of natural resources in other countries, not the torture of Bradley Manning ... NOT A DAMN THING!

Mike, I am thankful that he puts all his efforts into blabbing
endlessly but harmlessly rather than acting on his impulses.
Otherwise, we'd probably have another terrorist on our hands.

Bruce

Yes, it almost looks like there might be one honest person who was
involved, and made sure evidence was left to disclose the fraud.

But, even a careful examination of a flattened version would have proved
it a fraud.

But, the Optical Character Recognition (OCR) couldn't get any better.
Unless you are editing the scanned document there is absolutely no
reason for its' use. A reminder if the thermite in the dust of the WTC
controlled demolitions!

So, this will end unemployment, banster/wall-street theft, the patriot act, the torture of Bradley Manning, the exporting of jobs to foreign countries, inflation, theft of other nations natural resources and gold, the patriot act, etc., etc.

If so, GOOD!

If not, no bid deal ...

or better yet:
http://www.whitehouse.gov/the-press-office/2011/04/27/remarks-president

because that site shows the following quote from Barack Obusted:

We do not have time for this kind of silliness. We've got better stuff to
do. I've got better stuff to do. We've got big problems to solve. And I'm
confident we can solve them, but we're going to have to focus on them -- not
on this.

He is talking about a document created by Adobe Illustrator and claims: "We
do not have time for this kind of silliness" when he was the one that issued
a silly long form made to look like his Birth Certificate that was created
by Adobe Illustrator? Too funny.

Yeah, pretty funny, he is actually claiming that we have no time for
Constitutional law and meeting its' requirements.

We have no time to spend apprehending criminals.

We have no time to recognize false documents, etc., etc.

Truth is, we have no time for the moron named barack obama AKA barry
soetoro!

The reward doesn't apply. This was a military operation.

The SEALs don't get to collect a reward. This was their job.

The worst part is the separation of the text from the actual black and
white form, then the separation of various text fields from others adds
MUCH insult to injury, etc. ... that crappy "safety paper" it is all
pasted onto just adds another level of obfuscation ...

Someone asked for a copy of a legal document just wouldn't give such a
crappy fake unless complete stupid or for some, as yet, unfathomable reason!

The question is did they burn Bin Laden's copy of the Qu`ran that says
it's good to KILL Americans anywhere that Muslims can?

Would it maybe have been better to bury Bin Laden by tossing him and
some Pigs in a wood chipper and then feeding that to some other pigs?

Naturally we would need to fed the pigs the BinLaden burger with some
ex-lax so that the burial will be complete within 24 hours.

Yes but did anybody really catch ben laden or is it just another bit of propaganda, which we get so much of?

The fact that it was "breaking news" and stopped regular TV programming for 1-1/2 hours on all commercial
channels shows it was propaganda.
Because what bearing does bin laden's death have on anything, or even on reality?

He wasn't responsible for 911 - he said so himself.
The hijackers all used stolen id's.
The twin towers were brought down by controlled demolition.
Iraq never had WMD.

So we are supposed to take osama's death seriouisly because ....?
For all intents and purposes he never was captured or killed and there never was a body.

All we have here is a cover story with "story" being the operative word.

I am of german ancestry (among others in the heinz 57 mix), you can call me "german", with no offense taken. I also have english, irish, indian, etc. ancestors in my background. I freely admit it and discuss my ancestry with others, at appropriate times, when the subject comes up ...

You can call me any and all of the races/genetics I am composed of, no offense taken -- I can hardly change it ... if negros want to be ashamed of their heritage, that is their problem ... NOT MINE.

Are you proposing I suddenly be struck so dumb that I can't recognize negros? Yeah, I guess you would like that ...

ROFLOL

Anyone angered to taking offense at their race are ashamed of their race! -- barack obama AKA barry soetoro SHOULD HAVE SAID THAT!

[First of all, the birth certificate that the White House released lists Obama's birth as August 4, 1961. It also lists Barack Hussein Obama as his father. No big deal, right? At the time of Obama's birth, it also shows that his father is aged 25 years old, and that Obama's father was born in " Kenya , East Africa ". This wouldn't seem like anything of concern, except the fact that Kenya did not even exist until 1963, two whole years after Obama's birth, and 27 years after his father's birth. How could have Obama's father have been born in a country that did not yet exist? Up and until Kenya was formed in 1963, it was known as the "British East Africa Protectorate". But, this is not the only thing that I found that just does not jive.

The other item that I looked into was the hospital that Obama was born in. On the birth certificate released by the White House, the listed place of birth is "Kapi'olani Maternity & Gynecological Hospital". This cannot be, because the hospital(s) in question in 1961 were called "KauiKeolani Children's Hospital" and "Kapi'olani Maternity Home", respectively. The name did not change to Kapi'olani Maternity & Gynecological Hospital until 1978, when these two hospitals merged. How can this particular name of the hospital be on a birth certificate dated 1961 if this name had not yet been applied to it until 1978?]

Well, Boy Barry can't be out there all the time stating that EVERYTHING is
Bush's fault and that he inherited all the problems and then suddenly claim
total credit for something that Bush set in motion many years ago.

Obama is a putz and probably needs help wiping his own ass.

292. For those who wish to QSL IRRS - Italy - Slovakia:

Newsgroup: rec.radio.shortwave
Date: 2011-05-02 18:45:32 UTC
From: bpnjensen <bpnjensen@yahoo.com>
Message-ID: <89b14059-8565-477e-9632-758f104c40ab@i39g2000prd.googlegroups.com>
Source record: 228219

I wrote a reception report e-mail to IRRS Italy for their 31 meter band broadcast via Slovakia. Here is a "pre-emptive" response.

Dear Bruce Jensen:

Thank You for your email. We do acknowledge hereby your reception report, and we may forward it to the programmers that you mention for verification. They may reply to you with a QSL or verification letter. If this is not acceptable, please let us now by return email within the next 24 hours.

Due to budget constraints, we are unable to reply to all QSL requests or send information, stickers, pennants, schedules or gadgets by regular mail. However we do confirm by QSL when:

1) we run special broadcasts that are announced over our mailing list of on the air, and you request a QSL by sending us your full mailing address.

2) we receive detailed comments on the content of our programming (good or bad, not just on the technical side). This is extremely useful to our program producers and, help us all in improving the quality and content of our broadcasts.

We will most likely reply only by email, when:

1) the reception report is from areas outside the intended target of the program producer;

3) the information contained in the reception report is not corresponding to the station log;

3) the reception report contains only technical data, and no comments or suggestion on the content that you have heard. IRRS-Shortwave, NEXUS-IBA, EGR, IPAR and NEXUS-IBA member stations greatly appreciate comments (whether good or bad) on the *content* that you hear on our stations. We have access to several monitoring stations around the world that provide real time data on the audio delivered on our target, and for this reason old-time technical reception reports, DX reports or QSL request are not very useful to our technical staff. Mere technical reception reports are not very interesting to those who support our organization, use our media channels and keep our station alive.

What we all wish to receive and correspond about with you are comments and suggestions on the CONTENT of each program!

We do however take special efforts in answering to your questions and confirming your reports by email when you write to reports@nexus.org with comments or suggestions on our programming and content, and not just technical reception conditions in your area.

Please notice that many stations have stopped issuing QSL cards completely, in an effort to contain costs and continue to provide current services on Shortwave. QSL management is very expensive to deal with for our limited budget as well, and we are not currently staffed to reply to any and all letters and emails that we receive every day.

Please check our web site at http://www.nexus.org/ for more information on our broadcasts and our association. Our latest schedules are available at:

http:/www.nexus.org/NEXUS-IBA/Schedules/

Our broadcasts can also be received 24/24 and 7/7 over the Internet at:

http://mp3.nexus.org/

You may also subscribe to our low-noise mailing list to receive information on schedules or test broadcasts at:

http://mailserv.nexus.org/mailman/listinfo/irrs-listeners

If you wish contribute to NEXUS-IBA projects please visit us at: http://www.nexus.org/FundRaising/

I am sorry if this is causing any inconvenience, but I hope you will continueto listen to our programs on Shortwave and on the Internet.

Best regards,

Ron Norton

I followed up with a response, and here is what I heard back just now:

"Dear Bruce,

we sent the previous email as a verification, where stated:

"We do acknowledge hereby your reception report ..."

As for the TX, the site is always confidential due to our internal
policies,

it can change from time to time, and we cannot confirm its location.

Thanks for your understanding, and take care,

73s,

Alfredo"

Every race on this planet has been enslaved, at one time or another.
Indeed, england had "indentured servitude." Some on the first boats
over here where in indentured servitude -- this was the equivalent of
slavery and many of those were white.

Everyone who owned slaves are dead ... get over it ... krist, I think
all the slaves are dead too ... nothing left to talk about except
ancient history there ...

You first have to take the file in and translate the text into a text
file with OCR software.

There are graphics editors which would even allow the editing on a pixel
by pixel method(s.) However, although harder to catch the forgery,
experts would have no problem ... but, the state of the art gets better
and better ...

Now, there is an example that most anybody can agree of the president
being competent, doing his job well to accomplish one particular task.
The whole process wasn't an easy one. The president's part of that
process was critical to its success.

We can and do disagree about policy, but we have now seen an example
of high competence. Rush Limbaugh praised the president highly for
half of an article. Good for him.

I thought it was obvious, I was speaking of slavery in America ...

Of course, other nations may still have to work this out. Indeed,
indentured servitude is still legal in some parts of Africa, isn't it?

Thats exacly what I'm saying a constitutional ammendment would have to
cover such naturalization and it has not been done thus far!

http://www.apfn.org/apfn/13th.htm

The Original 13th Article of Amendment

What was , by law, to be included in the re-publication (a special
edition) of the Virginia Civil Code? The Virginia legislature had
already agreed that all "Acts" were to go into effect on the same day
- the day that the "Act" to re-publish the Civil Code was enacted.
Therefore, the 13th Amendment's official date of ratification would be
the date of re-publication of the Virginia Civil Code: March 12, 1819.

For Your Info -- We have just placed a new domain on the web --
We believe if it is brought before the public, significant changes can
be made...

The Original Thirteenth Article of Amendment To
The Constitution For The United States

The Original 13th Amendment
This Article of Amendment, ratified in 1819 and which just
"disappeared" in 1876, added an enforceable strict penalty, i.e.,
inability to hold office and loss of citizenship, for violations of
the already existing constitutional prohibition in Article 1, Section
9, Clause 8 on titles of nobility and other conflicts of citizenship
interest, such as accepting emoluments of any kind for services or
favors rendered or to be rendered, and is particularly applicable
today in the 21st Century as government is increasingly FOR SALE to
the highest bidder, as foreign and multinational corporations and
individuals compete to line the pockets of politicians and political
parties to accommodate and purchase protection or privilege, i.e.
honors, for their special interests.

==========

13AMDMT.ZIP 24272 11-12-93 Original 13th Amendment would have outlawed
Bar membership (atty's) and other Titles of
Nobility. May have actually been ratified.

The History and Ratification of the Original 13th amendment
http://www.original13thamendment.com/

==========

SECTION II CONSTRUCTIVE FRAUD

In January, 1810, Senator Reed proposed the "Title of
Nobility" Amendment (History of Congress, Proceedings of the
Senate, p. 529-530). On April 27, 1810, the Senate voted to pass
this 13th Amendment by a vote of 26 to 1; the House resolved in
the affirmative 87 to 3; and the resolve was sent to the States
for ratification: By Dec. 10, 1812, twelve of the required
thirteen States had ratified as follows: Maryland, Dec. 25,
1810; Kentucky, Jan. 31, 1811; Ohio, Jan. 31, 1811; Delaware, Feb.
2, 1811; Pennsylvania, Feb. 6, 1811; New Jersey, Feb. 13, 1811;
Vermont, Oct. 24, 1811; Tennessee, Nov. 21, 1811; Georgia, Dec.
13, 1811; North Carolina, Dec. 23, 1811; Massachusetts, Feb. 27,
1812;New Hampshire, Dec. 10, 1812. Before a thirteenth State could
ratify, the War of 1812 broke out and interupted this very rapid
move for ratification.

No record has been found that the State of Connecticut ever acted
to either accept or reject this original 13th Amendment. Yet, it
was published in three separate editions of "The Public Statute
Laws of the State of Connecticut" as a part of the U.S.
Constitution in 1821, 1824 and 1835. Then, without record or
explanation, it mysteriously disappeared from subsequent editions
prior to the Civil War between the states. However, printing by a
legislature is prima facie evidence of ratification, and it has
been found to have been printed as part of the Constitution in
this and many other states until around the Civil War period -
when it mysteriously disappeared from subsequent printings. It
was found to have been printed by the legislature of this State in
the following: 1821 - The Public Statute Laws of the State of
Connecticut, as revised and enacted by the General Assembly in
May, 1821 pg. 19 1824 - The Public Statute Laws of the State of
Connecticut, as revised and enacted by the General Assembly in
May, 1824 pg.18-19 1835 - The Public Statute Laws of the State of
Connecticut, compiled in obedience to a resolve of the General
Assembly passed May, 1835, to which is prefixed the Declaration of
Independence & Constitution of the United States and the State of
Connecticut, published by the authority of the State of
Connecticut. The Marginal note in all three publications reads:
"Citizenship forfeited by the acceptance, from a foreign power, of
any title of nobility, office or emolument of any kind, &c." The
prima facie evidence of ratification of this Amendment is
overwhelming. Since the creditors of this bankruptcy are foreign

powers and this "unacountable committee of lawyers'" spoken of by
Robert H. Bork have accepted and retained the "office of trustee"
for these creditors and foreign powers, their Citizenship has
been forfeited by this acceptance.

The Missing 13th Amendment
"TITLES OF NOBILITY" AND "HONOR"
http://www.w3f.com/patriots/13/13th-01.html

The Original Thirteenth Amendment:
Titles of Nobility and Honour,
An Essay
The Original 13th Amendment Chapter 1

Below is proof of the de facto government's actions. Below is the
original thirteenth amendment as it appears in a manual printed in
1840 for American citizens- -

MEANING of the 13th AMENDMENT

The "missing" 13th Amendment to the Constitution of the United States
reads
as follows:

"If any citizen of the United States shall accept, claim, receive,
or retain any title of nobility or honour, or shall without the
consent of Congress, accept and retain any present, pension,
office, or emolument of any kind whatever, from any emperor, king,

prince, or foreign power, such person shall cease to be a citizen
of the United States, and shall be incapable of holding any office
of trust or profit under them, or either of them."

At the first reading, the meaning of this 13th Amendment (also called
the
"title of nobility" Amendment) seems obscure, unimportant. The
references to
"nobility", "honour", "emperor", "king", and "prince" lead us to
dismiss
this amendment as a petty post-revolution act of spite directed
against the
British monarchy. But in our modern world of Lady Di and Prince
Charles,
anti-royalist sentiments seem so archaic and quaint, that the
Amendment can
be ignored. Not so. Consider some evidence of its historical
significance:

* First, "titles of nobility" were prohibited in both Article VI of
the
Articles of Confederation (1777) and in Article I, Sections 9 and 10
of
the Constitution of the United States (1787);
* Second, although already prohibited by the Constitution, an
additional
"title of nobility" amendment was proposed in 1789, again in 1810, and
according to Dodge, finally ratified in 1819.

Clearly, the founding fathers saw such a serious threat in "titles of
nobility" and "honors" that anyone receiving them would forfeit their
citizenship. Since the government prohibited "titles of nobility"
several
times over four decades, and went through the amending process (even
though
"titles of nobility" were already prohibited by the Constitution),
it's
obvious that the Amendment carried much more significance for our
founding
fathers than is readily apparent today.

Analysis of the Real 13th Amendment
This amendment was meant to keep citizens of the United States from accepting titles of nobility from foreign powers. The best example of this would be honorary "knighthoods" given by the rulers of England to people around the world who have performed a service for humanity.
http://web.archive.org/web/20021120054855/http://www.vaix.net/~captainnemo/plan/

==========

Esquire

A title applied by attorneys to themselves, to officers of the court, to members of the bar, and others of ill repute. No one in the United States is entitled to it by law, and therefore, it confers, no distinction in law.

In England, it is a title next above that of a gentleman, and below a knight. Camden records four kinds of esquires, particularly regarded by the heralds:

1. The eldest sons of knights and their eldest sons, in perpetual succession.

2. The eldest sons of the younger sons of peers, and their eldest sons in like perpetual succession.

3. Esquires created by the king's letters patent, or other investiture, and their eldest sons.

4. Esquires by virtue of their office, as justices of the peace, and others who bear any office of trust under the crown.

NOBILITY. An order of men in several countries to whom privileges are granted at the expense of the rest of the people.

The constitution of the United States provides that no state shall " grant any title of nobility; and no person can become a citizen of the United States until he has renounced all titles of nobility." The Federalist, No. 84; 2 Story, Laws U. S. 851.

There is not in the constitution today any general prohibition against any citizen whomsoever, whether in public or private life, accepting any foreign title of nobility. An amendment of the constitution in this respect has been recommended by congress, but it has not been ratified by a sufficient number of states to make it a part of the constitution. Rawle on the Const. 120; Story, Const. _1346.

The Court, in "Horst v. Moses", 48 Alabama 129, 142 (1872) gave the following description of a title of nobility:

To confer a title of nobility, is to nominate to an order of persons to whom privileges are granted at the expense of the rest of the people. It is not necessarily hereditary, and the objection to it arises more from the privileges supposed to be attached than to the otherwise empty title or order. These components are forbidden

separately in the terms "privilege", "honor", and "emoluments", as they are collectively in the term "title of nobility". The prohibition is not affected by any consideration paid or rendered for the grant. The prohibition of titles of nobility estops the claim of eminent domain through fictions of law. Eminent domain is the legal euphemism for expropriation, and unreasonable seizure given sanction by the targets of this amendment.

Here is the original 13th amendment to the United States Constitution that was ratified in 1819. Then attorneys caused it to disappear in order to establish their claim of superiority with Titles of Nobility over the people. The total ramifications of this earlier 13th Amendment being unlawfully removed are very serious.

Article 13, ratified in 1819, reads as follows:

If any citizen of the United States shall accept, claim, receive or retain and title of nobility or honour, or shall, without the consent of Congress, accept and retain any present, pension, office or emolument of any kind whatever, from any emperor, king, prince or foreign power, such person shall cease to be a citizen of the United States, and shall be incapable of holding any office of trust or profit under them, or either of them.
The following states and/or territories have published the Titles of Nobility 13th Amendment in their official publications as a ratified amendment to the Constitution of the United States in the following years:

Colorado ------- 1861, 1862, 1864, 1865, 1866, 1967, 1868
Connecticut --- 1821, 1824, 1835, 1839
Dakota ---------- 1862, 1863, 1867
Florida ---------- 1823, 1825, 1838
Georgia --------- 1819, 1822, 1837, 1846
Illinois ------------ 1823, 1825, 1827, 1833, 1839, dis. 1845
Indiana ----------- 1824, 1831, 1838
Iowa --------------- 1839, 1842, 1843
Kansas ----------- 1855, 1861, 1862, 1868
Kentucky -------- 1822
Louisiana -------- 1825, 1838/1838 [two separate publications]
Maine ------------- 1825, 1831
Massachusetts -1823

Mississippi ------ 1823, 1824, 1839
Missouri ---------- 1825, 1835, 1840, 1841, 1845*
Nebraska --------- 1855, 1856, 1857, 1858, 1859, 1860, 1861, 1862, 1873
North Carolina - 1819, 1828
Northwestern Territories --- 1833
Ohio -------------- 1819, 1824, 1831, 1833, 1835, 1848
Pennsylvania --- 1818, 1824, 1831
Rhode Island ---- 1822

Virginia ---------- 1819 (ratification by 13th State)
Wyoming -------- 1869, 1876

Totals: 24 States in 78 separate official government publications.
OUTLAWS LEGAL SERVICE

Secrets of the Federal Reserve and the London Connection
http://www.apfn.org/apfn/reserve.htm

In 1829, the following note appears on p. 23, Vol. 1 of the New York Revised Statutes: "In the edition of the Laws of the U.S. before referred to, there is an amendment printed as article 13, prohibiting citizens from accepting titles of nobility or honor, or presents, offices, &c. from foreign nations. But, by a message of the president of the United States of the 4th of February, 1818, in answer to a resolution of the house of representatives, it appears that this amendment had been ratified only by 12 states, and therefore had not been adopted. See Vol. IV of the printed papers of the 1st session of the 15th congress, No. 76." In 1854, a similar note appeared in the Oregon Statutes. Both notes refer to the Laws of the United States, 1st vol. p. 73 (or 74).
http://w3f.com/patriots/13/13th-13.html

==========

THE CAMBRIAN PESHER
In the library basement, in the Special Documents Department of our local university, you will find the Statutes at Large for the State of Kansas for many of the years since its statehood, just prior to the Civil War. In the back of these volumes you will find the official text of the U.S. Constitution under which the State is governed. In that text you will find the 13th Amendment to the Constitution. Here is how the text reads:
"If any citizen of the United States shall accept, claim, receive or retain any title of nobility or honor, or shall, without the consent of Congress, accept and retain any present, pension, office or emolument of any kind whatever, from any emperor, king, prince, or foreign power, such person shall cease to be a citizen of the United States, and shall be incapable of holding any office of trust or profit under them, or either of them."
Researchers have found the above "original" 13th Amendment in the old law books of all the States which were admitted prior to the Civil War. And a debate currently rages over the significance of this Amendment. (I obtained a notarized copy of the above, just in case said volumes "disappeared" from the library shelves, an anomaly known to occur when documents are found which embarrass the current government.)

John McCain is a very special case. He certainly qualifies under the spirit of the Constitution if not the exact letter ...:

The Panama Canal Zone was a US Territory:
"United States territory is any extent of region under the jurisdiction of the federal government of the United States,[1] including all waters[2] (around islands or continental tracts). The United States has traditionally proclaimed the sovereign rights for exploring, exploiting, conserving, and managing its territory.[3] This extent of territory is all the area belonging to, and under the dominion of, the United States federal government (which includes tracts lying at a distance from the country) for administrative and other purposes.[1] The United States total territory includes a subset of political divisions."

McCains birth and early childhood, plus a fraction of family background:
"John Sidney McCain III was born on August 29, 1936, at Coco Solo Naval Air Station in the Panama Canal Zone, the second of three children born to naval officer John S. McCain Jr. and his wife, Roberta. At the time of his birth, the McCain family was stationed in the Panama Canal Zone, under American control.

Both McCain's father and paternal grandfather, John Sidney McCain, Sr., were four-star admirals and his father rose to command all the U.S. naval forces in the Pacific.

McCain spent his childhood and adolescent years moving between naval bases in America and abroad. He attended Episcopal high School, a private preparatory boarding school in Alexandria, Virginia, graduating in 1954.

Following in the footsteps of his father and grandfather, McCain graduated (fifth from the bottom of his class) from the Naval Academy at Annapolis in 1958. He also graduated from flight school in 1960.

With the outbreak of the Vietnam War, McCain volunteered for combat duty and began flying carrier-based attack planes on low-altitude bombing runs against the North Vietnamese. He escaped serious injury on July 29, 1967, when his A-4 Skyhawk plane was accidentally shot by a missile on board the USS Forestal, causing explosions and fires that killed 134.

On October 26, 1967, during his 23rd air mission, McCain's plane was shot down during a bombing run over the North Vietnamese capital of Hanoi. He broke both arms and one leg during the ensuing crash. McCain was moved to Hoa Loa prison, nicknamed the "Hanoi Hilton," on December

9, 1969."

Any comparison between McCain and obama is the equivalent of comparing swine shit to roses ...

You mean McCain is the swine shit? Funny that the Senate had to pass
a resolution in April 2008 confirming McCain was a citizen. If he
already was one, why would they have to confirm it? I smell swine
shit spelled M-c-C-a-i-n .

Brother, if you find anyone guilty of slavery, since it was abolished in the early 1800's, you need to take the slave owner to court immediately!

Well, if they are alive ... but frankly, I think you are shit-for-brains and everyone is dead now ...

Post evidence if you have it!

As has been demonstrated, OCR was positively used, it is the only way it
can be downloaded and the text removed as a layer:

http://www.youtube.com/watch?v=3g30VCl_cgk

There are many, many people who have videos available which demonstrate
this, and more ...

I am citing Alex Jones demonstrating the fraud. It is because YOU KNOW
obama would sue him and silence him -- if he was slandering or falsely
representing that a crime has been committed!

Regards,
JS

Not much terribly new, but at least there is hope, yes? From Roseanna Kulupi, Radio Tech:

***

Hi Mr Jensen,
Greetings to you from Papua New Guinea!!
Thank you so much for your email and my sincere apologies for the late reply.
It’s good to know we have listeners tuning in from the other side of the world. Thank you for attaching the letter that you sent in March...

QSL cards which the station has designed are being printed at the moment. We will try to send you one as soon as we receive them from the printing company.

It’s just been a year since the Radio Station commenced broadcasting in Shortwave but already we’ve had a good number of listeners from different parts of the world who have written to report reception of Radio Fly.

Initially we were broadcasting on just two FM frequencies 103.8FM and 95.3FM until about a year ago when the Short Wave Site established.

Yes, 3915KHz has been out for a while due to a faulty transmitter. The transmitter has been serviced and is on its way back to site so we are hoping to get 3915 back on air in the next week or two. I will let you know when we have 3915 back on air so that you can compare frequencies when you can.

Thank you once again for your email and hope to receive more emails from you.

Kind Regards,

Roseanne Kulupi
Radio Fly Technician

Gummer...isn't it time for your shift at McDonalds?

And hey...this time when you clean the toilets do them after the
fryers...not before.

And don't forget your cute little pointed hat!!!

If he had a legal birth certifricate he would not have to use bogus
Social Security Numbers .

Social Security Numbers are issued by Our Solvern Great Britain and a
British Subject cant get one.Only citizns of the United States are
held responsible for their bankruptcy debt to Great Briain.

False and false, It came from a routine interrogation in a European
prison facility.

> Thank You Prez Obama for Keeping Gitmo Open
> and Starting Military Tribunals for Detainees

It did not come from Gitmo.

> Thank You Prez Obama for Torture Water-Broading Detainees

That was AWOL, and not one single water boarding turned up any useful
information. FACT.

Well, he's in Melbourne, where the Aviation Weather Bureau is. That's
- what? - 600 miles south of Brisbane? He has confirmed that it's his
department's data that feeds the VOLMET signal, so that has to count
for something :-)

False. It came from Khalid Sheikh Mohammed in 2004, in Guantanamo.

I was going by what someone else said now here is a cut and paste See
if you a debunk this.

IF Obama had been born outside the US, he would not be a citizen at
all,
unless he naturalized later. The citizenship law in effect at the
time
(Immigration and Nationality Act of 1952) specified that a child born
abroad was a citizen if all of the following were true:

1. The person's parents were married at the time of birth
2. One of the person's parents was a U.S. citizen when the person was
born
3. The citizen parent lived at least ten years in the United States
before the child's birth;
4. A minimum of 5 of these 10 years in the United States were after
the citizen parent's 14th birthday.

IF he had been born abroad, Obama would not have been a citizen at
birth: his mother had not live five years in the USA after her 14th

birthday, and his father was not a US citizen.

Barry Little,because he had no US birth certificate and was reguarded as a British Subject, could not even aquire a legal Social Security Number and had to use bogus numbers to find work.

Our Solvern Great Britain would not issue him a social Security Number because only citizens of the United States were accountable for our bankruptcy debt to Great Britain.

"What she and fellow investigator Neil Sankey unearthed was a nugget
that could have ended the career of a George Bush or a Sarah Palin:
Barack Obama had been using a Social Security number issued in
Connecticut between 1977 and 1979, a state in which he never lived or
even visited at that time in his life."

"All I can say," says Daniels of 042-68-4425, "is that it's phony and
[Obama] has been using it, with it first appearing on his Selective
Service document in 1980."

Daniels sent me a copy of the hand-written application of the individual
who held the number immediately before Obama's, 042-68-4424. The
applicant, Thomas Wood, died at age 19, which is why his information is
available.

Wood's Social Security number was issued sometime between March and May
of 1977. Obama would turn 16 in August of that year. Wood lived on
Glenview Drive in Newington, Conn., the state from which all "042s"
applied. Obama lived in Hawaii.

True to form, the left-leaning media set out to undermine the Social
Security controversy and ridicule the investigators. Revealing, however,
is the weakness of the response.

"Numbers are assigned based on the return address on the request
envelope, not residency," crowed Jason Linkins in the Huffington Post as
though he had said something meaningful. Linkins suggested two possible
explanations, both preposterous.

One is that Obama applied for his SSN as a little boy in Indonesia for no known reason, and the application just happened to be processed in Connecticut for no known reason either.

For the second, Linkins cited the argument of Carole Glibert, in the Yahoo-related "Associated Content." Said Gilbert, presumably with a straight face, "In fact, Barack Obama's dad attended college in Connecticut and in 1977, Obama was college aged; is it beyond reason to consider that he might have checked out his father's alma mater?"

Last time I checked, Harvard was in Massachusetts. The closest town to Harvard in Connecticut is about 90 minutes away, and there is no record that Obama Sr. lived there, let alone that Obama visited his imaginary alma mater and just happened to apply for a Social Security card while visiting.

Daniels also sent me a copy of Obama's Selective Service data. Obama appears to have registered on Sept. 4, 1980, a month after his 19th birthday. The form lists the telling last four digits of his "042" number, "4425."

This is the first use of the "042" number that Daniels could find. She is just not sure it is legitimate. Some have credibly argued that the Selective Service information was forged and backdated once Obama became a presidential candidate.

"They were stupid to use the CT number on the [Selective Service] card," Daniels adds, "because now there is no way for [Obama] to back out of that number."

Other than the 1980 Selective Service registration, the first time Daniels could find Obama using the "042" number was in 1986 in Chicago.

- - The INTEL {Info} that Lead to Osama bin-Laden came from
- - Gitmo and the Detainee was Water-Broaded to get it.

- False and false, It came from a routine interrogation
- in a European prison facility.

Larnrod : Naturally you 'approve' of that process.
-torture-by-proxy-rendition-torture-by-proxy-

So Then 'Rendition'* "BY" the US Federal Government
{The Obama-Regime} to Off-US-Soil {Foreign} Prisons
is A-OK : Where There Are No US Legal Rights Constrains
{Out Right Physical Torture Is Commonly Used}

Extraordinary Rendition -aka- "Torture by Proxy"
http://en.wikipedia.org/wiki/Extraordinary_rendition_by_the_United_States
.
- - Thank You Prez Obama for Keeping Gitmo Open
- - and Starting Military Tribunals for Detainees

- It did not come from Gitmo.

Oops at least one of the 'Sources' was "KSM"*
a GitMo Detainee -another-inconvenient-truth-

* Khalid Sheikh Mohammed
http://en.wikipedia.org/wiki/Khalid_Sheikh_Mohammed
.
- - Thank You Prez Obama for Torture Water-Broading Detainees

- That was AWOL, and not one single water boarding
- turned up any useful information. FACT.

"KSM"* was Water-Boraded many many many times
and gave-up a whole lot of useful 'intel' some of which
lead to Osama bin-Laden. -another-inconvenient-truth-
http://en.wikipedia.org/wiki/Khalid_Sheikh_Mohammed

Larnrod : Stop Being a Member of 'The Cult of The Obama'
...and... Come Into The Light of The Truth
and The Way - Amen ~ RHF

first they come with a photoshopped BC... and than we get a
photoshopped dead OBL...

http://youtu.be/qmd7vNNkwyM

Bin Laden is a fabricated myth, now morons will kill off each others,
stay off this crap pal...

Let the war on morons begins, hide your teen boys, tie them up in a
secret room downstairs if necessary, but never let this new brewing
world war take them away from you, they'll thank you later while they
come to visit you with your grandkids.

397. Space Weather from the guvmint

Newsgroup: rec.radio.shortwave
Date: 2011-05-03 12:55:10 UTC
From: dave <dave@dave.dave>
Message-ID: <4dbffae4$0$12458$bd467cd0@news.dslextreme.com>
Source record: 228374

Prepared jointly by the U.S. Dept. of Commerce, NOAA,
Space Weather Prediction Center and the U.S. Air Force.
Updated 2011 May 02 2200 UTC

Joint USAF/NOAA Report of Solar and Geophysical Activity
SDF Number 122 Issued at 2200Z on 02 May 2011

IA. Analysis of Solar Active Regions and Activity from 01/2100Z
to 02/2100Z: Solar activity was low. A filament disappeared from
S20E33 around 14Z. A concurrent CME was visible leaving off the east
limb based on the NASA SOHO LASCO C2 coronagraph, though it does not
initially appear that it will be geoeffective.

IB. Solar Activity Forecast: Solar activity is expected to be very
low to low for the next 3 days (3-5 May).

IIA. Geophysical Activity Summary 01/2100Z to 02/2100Z:
The geomagnetic field ranged from unsettled to minor storm conditions
due to coronal hole (CH) high-speed stream effects (HSS). Solar
winds speeds were sustained above 640 km/s during the period. The
greater than 2 MeV electron flux at geosynchronous orbit reached
high levels during the period.

IIB. Geophysical Activity Forecast: The geomagnetic field is
expected to be unsettled to active on day 1 (3 May) as CH HSS
effects wane. Mostly quiet conditions are forecasted for days 2 and
3 (4-5 May).

III. Event Probabilities 03 May-05 May
Class M 01/01/01
Class X 01/01/01
Proton 01/01/01
PCAF green

IV. Penticton 10.7 cm Flux
Observed 02 May 110
Predicted 03 May-05 May 110/110/110
90 Day Mean 02 May 108

V. Geomagnetic A Indices
Observed Afr/Ap 01 May 013/019
Estimated Afr/Ap 02 May 010/018
Predicted Afr/Ap 03 May-05 May 008/012-005/008-005/005

VI. Geomagnetic Activity Probabilities 03 May-05 May
A. Middle Latitudes
Active 40/20/20

Minor storm 05/01/01
Major-severe storm 01/01/01
B. High Latitudes
Active 60/30/20
Minor storm 20/01/01
Major-severe storm 05/01/01

She was in town and praised the Seals (everybody agrees here), and
praised President Bush, but didn't mention President Obama for getting
bin Laden.

Osama bin Bogeyman?

This will be a control tool which is used on children worldwide ... as this newsgroup demonstrates so well!

The debunkers were all too scared to go to bed last night, fearing the OBM was under their beds!

Guess they just hadn't gotten around to debunking the osama myth of 9/11, world domination from caves, etc. yet ...

Yeah, makes perfect sense!

If a document is missing a lot of pertinent data and bears the words,
"Certification of Live Birth", why should anyone question that a REAL
birth certificate exists with the documentation certifies?

That becomes in vogue and keeps up and rationality will catch on!

I am pretty sure that he missed the six month deadline, but I would
attribute it to domestic politcal opposition rather than to a lack of
will on his part. Similarly, the inability to remove the prisoners
from Guantanemo was not because he did not try, but because his
political gadflies deliberately put obstacles in his way without
providing any constructive alternatives. When he tries to keep his
promises, but cannot only because of political obstructionsism by the
Publicans, it is illogical to call those "lies".

Didn't Liberals want to put Bush on trial for war crimes and Bush didn't fly into a neutral country and assasinate the leader of the the other guys?

Oh wait..... Bush and Obama both did that.

Well Obama didn't "water-boad" torture the guys, no Obama just summarily executed them on the spot. The same as he is doing with missiles from drones, only this time he wanted a spoon full of DNA.

If Bush had executed all the bad guys like Obama has been doing, we wouldn't have ever got Usama Bin Ladin.

Obama taking bows for what was the success of those that came before him is typical of Obama, Obama whines about an economic mess and now he uses "I" when someone leaves him with a military winner that he has realized rather than messing it up like he has done with Afghanistan.

Biggest mistake of obama is he didn't dump osamas' body in Fort Marcy
Park next to the spot they found Vince Foster!

klinton knew better, the body has to be examined so you know he is dead!

Barack the Magic Negro lives in D.C.
The L.A. Times, they called him that
ï¿½Cause heï¿½s not authentic like me.
Yeah, the guy from the L.A. paper
Said he makes guilty whites feel good
Theyï¿½ll vote for him, and not for me
ï¿½Cause heï¿½s not from the hood.

See, real black men, like Snoop Dog,
Or me, or Farrakhan
Have talked the talk, and walked the walk.
Not come in late and won!

Oh, Barack the Magic Negro, lives in D.C.
The L.A. Times, they called him that
ï¿½Cause heï¿½s black, but not authentically.
Oh, Barack the Magic Negro, lives in D.C.
The L.A. Times, they called him that
ï¿½Cause heï¿½s black, but not authentically.

Some say Barackï¿½s ï¿½articulateï¿½
And bright and new and ï¿½clean.ï¿½
The media sure loves this guy,
A white interloperï¿½s dream!
But, when you vote for president,
Watch out, and donï¿½t be fooled!
Donï¿½t vote the Magic Negro in ï¿½
ï¿½Cause ï¿½

ï¿½Cause I wonï¿½t have nothing after all these years of sacrifice
And I wonï¿½t get justice. This is about justice. This isnï¿½t about me, itï¿½s about justice.
Itï¿½s about buffet. I donï¿½t have no buffet and there wonï¿½t be any church contributions,
And thereï¿½ll be no cash in the collection plate.
There ainï¿½t gonna be no cash money, no walkinï¿½ around money, no phoning money.
Now, Barack going to come in here and ....

OCR (Optical Character Recognition) is a tool (or process) whereby text is recovered from a bit mapped image. OCR doesn't do anything to the source image. It simply tries to identify all the text in the image. The intent is to automate text capture from an image file by avoiding the error prone procedure of having a human look read the image and type the text.

As it was....

And Sarah Palin might would have gone in and taken and dropped Bin Laden
in the ocean "dead or alive" and never made it public and it would be
like Jimmy Hoffa, we'd all know he's not here anymore..... no day no
date to celebrate and no grave to worship at and no claim that she had
killed Bin Laden for political gain, and no pissed off Pakistanis.

But all we can be sure of is that Obama wanted credit for killing Bin Laden.

Yes, that is what I own weapons for. "They" invade the US and start attempting to assassinate legal public servants and I'll shoot their arses off, let alone molesting my family, me, my friends, my institutions, etc.

Quaddfi needs to arm his citizens!

You need to trust your citizens..... the fewer people that a government can trust with guns, the more it shows the government isn't trusted by the people.

So any government/political party attempting to take guns, is admitting that they're not of the same mind as the majority of the citizens.

Yes, exactly!

When the government starts doing clandestine activities which are not in its' citizens best interests, the public servants, knowing the crimes are being done, begin to fear the citizens finding out and taking action.

It can be summed up as, "The fear which a government has for its' citizens is directly proportional to the amount and size of the crimes and illegal actions a government is burdening upon the citizens!"

Since the government is calling ex-service men and women "potential terrorists", the hidden crimes of the public servants in government must be tremendous ... their fear alone makes the necessity of investigations quite apparent!

She's still kicking Liberals asses like she has done from day one that
she stepped into the light... where and what title she has, seems to
make no difference. You seem a bit shallow and stuck in micro vision
rather than macro vision.

Don't most distros have live cds? Download your favorite flavor:

http://distrowatch.com/

A live cd of ubuntu is probably best for most newbies:

https://help.ubuntu.com/community/LiveCD

Looks like he's right in the heart of Disaster Acres!

I am not sure if I trust this map, however. One good earthquake can
throw that light green left coastal area into the red zone really fast.

Actually, Obama got permission from the Pakistani government and made
sure to keep a video record of the attack to show that bin Laden had a
chance to surrender to authorities. Legally, he had his buttocks
covered.

OCR (Optical Character Recognition) is a tool (or process) whereby text is recovered from a bit mapped image. OCR doesn't do anything to the source image. It simply tries to identify all the text in the image. The intent is to automate text capture from an image file by avoiding the error prone procedure of having a human look read the image and type the text.

OH so you've seen the video and the agreements?

Pakistan sounds a little pissed and they had no clue about the story you have promoted.

Obama being covered is about like Bush being covered, Obama will be as guilty as Bush and Obama will also be before the world court. Obama and Eric Holder were trying to prosecute the CIA and SEAL's and BUSH administration, and now Obama is part of those doing the killing and spying and defying the "world" laws.

No, they weren't included in the loop.

Obama, Bush, the SEALS and the CIA are covered.
The U.S. is being thanked by the world.

As it was....

And Sarah Palin might would have gone in and grabbed and dropped Bin Laden in the ocean "dead or alive" and never made it public and it would be like Jimmy Hoffa, we'd all know he's not here anymore..... no day no date to celebrate and no grave to worship at and no claim that she had killed Bin Laden for political gain, and no pissed off Pakistanis.

On the way out Sarah might have even called in an drone strike and turned Bin Ladenville into a pile of rubble so there would be nothing left and hit the broken helicopter with a few drone missiles for good measure..... Call it a helicopter crash and never mention it again.

But all we can be sure of is that Obama wanted credit and brownie points for killing Bin Laden.

There is much ado about nothing, give them all credit, give one of them credit, give none of them of them credit ... big deal.

On a scale of 1 to 10 this is simply a non-event. It won't change the price of gas; it won't end any wars; it won't help the economy; it won't cut unemployment; it won't bring home jobs from overseas and china; it won't stop the banksters and wall street; it won't bring the public servants responsible for 9/11 to justice; etc., etc., etc.

Wake me up when something really happens ...

Regards,
JS

"The U.S. government now has the problem of proving that bin Laden is dead without a body to present. Even if the actual photographs of his corpse are released, there will be those on Middle East websites and elsewhere who can point to the fakes to claim media manipulation. So while rational people are celebrating his demise, others may already be gathering material for the inevitable "Osama bin Laden Lives" conspiracy."

http://online.wsj.com/article/SB10001424052748703834804576301040504985266.html

Truth is, it just doesn't matter that we are being lied to.

The real issues are the wars, gas prices, unemployment, homelessness, low wages, no benefits for many, home and business foreclosures, inflation, no or insufficient medical benefits, medical costs, deteriorating roads and infrastructures, controlled demolitions and involvement of our public servants in 9/11, obama having no birth certificate, etc., etc., etc.

A dead osama changes nothing of what are the real problems ...

Regards,
JS

And that, dearie, is what would make him a US natural born citizen
EVEN IF his mom had him in kenya, which it's been proven she did not.
If she was no legally married, then the location DOES NOT MATTER!!!

Born Abroad to an American Mother Out of Wedlock:

The mother must have been a U.S. citizen at the time of birth. The mother must have had a physical residency inside the United States prior to the child's birth. The time of residency must have been for one continuous year.

That's completely wrong. The McCarran Walter Act, aka the Immigration
and Naturalization Act of 1952, specified in Title III, Ch. 1, Sec. 301(a):

The following shall be citizens and nationals of the United State at birth:

(7) a person born outside the geographical limits of the United States
and its outlying possessions of parents one of whom is an alien,
and the other a citizen of the United States who, prior to the
birth
of such person, was physically present in the United States or its
outlying possessions for a period or periods totaling not less than
ten years, at least five of which were after attaining the age
of fourteen years

The marital status of the parents is irrelevant.

If Obama had been born in Kenya, he would not have been born a citizen:
his American citizen mother had not live five years in the USA or an
outlying possession for five years after reaching the age of 14, because
she was only 18 at the time of Hussein's birth.

>
>
> ---
>
> ---
>
> Born Abroad to an American Mother Out of Wedlock:

Irrelevant. The applicable law in 1961 was not concerned with the
marital status of the parents.

>
> The mother must have been a U.S. citizen at the time of birth.

Just to clarify: at the time of birth of the baby born abroad.

> The mother
> must have had a physical residency inside the United States prior to the
> child's birth. The time of residency must have been for one continuous
> year.

That was not the law in 1961.

There are two different stories given here, and I don't know who is
telling the truth.

One picture that makes sense is that the U.S. covered its legal
buttocks by getting an agreement in a vague way sometime in the past,
with the Pakistani government expecting to be involved in the details
whenever the U.S. found bin Ladin.

Except the U.S. already knew where bin Ladin was, and the U.S. having
no intention of letting Pakistan knowing its plans.

Politically the Pakistani government can say what it wants - it's not
going to court.

It did not and would not have happened on Bush's watch. At best, he
would have flinched like he did at Tora Bora. Bush even stopped
talking big ("Dead or alive!") and started to minimize the
desirability of getting bin Laden (aka "sour grapes", see Aesop).
Bust he never would stop doing his regal strut and never stop kissing
bearded men in dresses.

Keep in mind that Al Qaeda would just as soon wipe Pakistan off
the map as the US. Putting Pakistan in a hard position. So, they may
say many things to prevent retaliatory action on their own soil,
while surreptitiously assisting the US in ridding them of this

menace, from the shadows.

It's politics. You can believe everything, but trust nothing.

We can never be sure now. The fake videos and all however, it really doesn't matter, this is going to have zero effect on your life, or anyone elses ...

As always, there are real problems, and there are non-problems. A real problem is getting obama to show a real birth certificate, 9/11 inside job, etc.

I believe what Dr.Paul Craig Roberts said.Check it out at
http://www.libertypost.org

There used to be a woman who I used to see at the Goodwill store that used to be on Palmyra Street in Jackson.She used to live in a house on Oakmont Street, where Oakmont Steet Ts into Robinson Road, that is about one mile East, behind doggy's couch.It got to where she had to use a blood dialysis machine twice each day.She didn't live much longer after that.
Osama Bin Laden has been dead for at least a decade.

Bush must have asked himself, "Will the people realize, once bin laden
is caught/dead, that it makes zero/zilch difference in their lives and
become angry?"

I think he thought, "Yes." And, moved to stop that negative action(s.)

"But even the usually compliant corporate media is now asking to see the
video footage of the raid in Abbottabad, Pakistan, and images of bin
Ladenï¿½s body in order to still ï¿½conspiracy theories,ï¿½ that is to say the
incredulity of an increasing number of people who are sick and tired of
government lies."

Yes, I'm sure they don't have more important things to do than to
listen to an English-challenged nutjob try to explain to them the
rudiments of Photoshop.

I'm sure you'd have the exact same reaction to antiwar people trying
to bring up a case against Bush's Iraq invasion, right?

You're such an idiot and just plain too lazy to dig up the real facts,
but hey, since you won't believe me, take it from FOX News and Scott
Brown himself, which should make you happy and looking stupider than
you already look.

"In an interview with Fox News in Boston on Wednesday, Sen. Scott
Brown (R-Mass.) disclosed that he'd seen the much-discussed photograph
of bin Laden's face. The key moment comes at 0:44:"

You should be grateful that you live under a government that allows
nuts like you to openly and publicly post bullshit about that very
government without getting your pathetic little butt
waterboarded.....just because it would fell good doing it. :-)

You gawd-dam-nutjob!

If you try to insinuate there is any difference between nixon, regan, klinkton, bush sr, bush jr, obama, etc. you are worse a moron than you have displayed, so far.

All puppets on strings are the same, just different faces ...

Shove it up yer' arse and stop filling the news groups with moronic text, we already have all those positions filled ...

Regards,
JS

That is a meaningless question. A better question would be, is there
ever a time when government worked in the peoples' best interests?

The answer to that is yes, right up to the time of the coup,
assassination of Kennedy and the beginning of the take over of the
peoples' rights, powers, freedom, liberties, etc.

I mean, we expect our government to lie for us, not against us ...

Sheesh! There you go again, trying to have it both ways.

First, you whine about "lack of medical benefits" and then you whine
about 'Obamacare' that gives medical benefits.

The powerful have mostly always been able to avoid that. Scapegoats
have always been available.

Yes, but simply because crime has went on before is no excuse to allow
it to go on further. A good number of these public servants need behind
bars, we simply need to keep working towards those goals ...

No. But, you do.

A building doesn't fall through itself. You can't find another example
of such a fine example of controlled demolitions.

Any other method resulting in a collapse would have large sections
falling to one side or another, even multiple sides ...

If you can't realize that, take a few physics and engineering classes
and the realization of what kind of idiots spout such tripe as yours
will suddenly force an epiphany on you!

As, right now, when you speak to those educated in the sciences and
engineering you sound like a complete buffoon! Go post your fantasy
crap in a physics NG and have them explain it to you ...

Must be, as a greatly intensified gravitational field, such as you would find on a planet with much more mass than earth, would make such "earth free falls speeds" rather common place non-controlled-demolition collapses, on her planet.

Let's see. An object will move based on the forces acting upon it. Simple
physics.

In any building the largest force typically acting upon it is gravity.
Gravity acts downwards.

So why exactly shouldn't it's primary direct of movement be downwards as a
result of the largest force acting upon it?

> You can't find another example of such a fine example of controlled
> demolitions.

I can find any number of them. However, what is interesting about them, is
the rather distinctive audio signature which is missing from the events of
9/11.

> Any other method resulting in a collapse would have large sections falling
> to one side or another, even multiple sides ...

Catastrophic structural failure.

You do know what that is, right?

> If you can't realize that, take a few physics and engineering classes and
> the realization of what kind of idiots spout such tripe as yours will
> suddenly force an epiphany on you!

Well given I have, and the engineering classes were structural engineering, and by trade I am involved in steel fabrication. I have a pretty solid grounding in steel structures, their design, fabrication, erection and failure modes.

So once again, I ask if it wasn't controlled demolition then what direction were the buildings suppose to collapse in?

What makes downwards an unreasonable direction of structural failure?

> collapses, on her planet.

Actually most reasonably dense objects will fall at near free fall speeds,
and a catastrophic structural failure will tend to result in a collapse at
near free fall speeds.

See, it's sort of like building a house of cards with a heavy weight on top.
When that house of cards collapses that weight is going to reach the table
at near free fall speeds.

Now you say, that's not realistic a skyscraper isn't a house of cards.
However, structurally it is. It is designed and built JUST strong enough to
allow for any expected loads and a small bit extra for unexpected loads. As
such it is very much a house of cards once a large enough collapse occurs
because the allowable live (ie dynamic) load is a fraction of the dead (ie
static) load and as such will simply crush the structure like a house of
cards. So once you get large loads in motion.....they tend to remain in
motion. Inertia is a killer. I think some 15-20 stories in motion would
tend to qualify as a extremely massive live load which is not going to be
offered any significant resistance by the remaining structure.

That's why you can snap a chain rated at 10,000 pounds pulling a 2,000 pound
car out of a ditch, and that failure doesn't occur gradually either.

So, no, there is nothing about the direction or rate of collapse which is
contrary to physics or what could reasonably be expected given a
catastrophic failure. Indeed shortly after 9/11 a structural engineering
trade journal did a complete analysis of the collapse, failure modes, etc.
and oddly enough despite the bulk of their readership being structural
engineers and so on, there was no massive outcry from the readership that
this was contrary to physics, structural design, normal failure modes, or
anything other than an expected result of the known damage done.

However, as I tell those who claim they have the "truth", I'm willing to
look at your evidence. So pick your best piece of proof that proves the

collapse was another other than ordinary, back it up with all known facts, along with a complete analysis that proves it couldn't have occurred naturally and I'll look it over and see if it holds up. If you can't do this with a single detail that conclusively proves your claims, then there is no need to bother with the rest of it, since if your best piece of 'proof' can't hold up, then neither can the rest.

The balls in your court. Pick your best piece of evidence and make your case. No one else has been able to do so despite claiming to know all but it, but maybe you will be the first to make a conclusive case on some detail.

Sorry, I fail to see anything in the video that indicates a normal natural catastrophic structural failure did not occur. By his own numbers there is some resistance, and that resistance is consistent within the realm of a catastrophic structural collapse of this magnitude. When enough of the building obtains a velocity, it will simply crush the structure under the shear force of inertia and the counter resistance will be minor. As such, there is nothing in the video that contradicts physics nor what one would expect to observe given a catastrophic structural failure.

If this is your best evidence, then you don't have much of a case.

Yea, and I'm a real structural engineer, which BTW counts for a hell of a lot more than doesn't an architect. See, and architect makes pretty buildings....a structural engineer figures out how to actually build that pretty design.

> For example, here is a partial list of some:
>
> http://www2.ae911truth.org/signpetition.php

Logical fallacy, appeal to numbers.

Sorry, but just because others believe it, doesn't make it true.

Now, I'm offering you a chance to make your case. Pick your best specific piece of evidence and prove your case for it. If you can't....then there is no point in proceeding because if you can't prove you have a case with your best piece of evidence, then your case is doomed to fail no matter how much crap you try to drag out.

Now, I will admit you brought this out before I indicated you should use your best evidence with a specific issue, so I'm willing to consider the possibility this wasn't your best evidence. However, if you can't make your case with your next one, then you will have failed to prove there is any basis in fact at all for your case.

Sorry, you were asked to present your best evidence. You posted a link presumably to the best evidence that exists. I found claims about what it appeared to be and a lot of unsupported assertions. If this is the best that exists....then there is hardly any reason to look around because everything else can only be worse.

>
> It would take a learned person days, perhaps weeks to review them and
> follow up, with other links, to gain an education.

Sorry, that's why I asked you to present your best evidence. Presumably you have done all this and can point out a specific detail that proves you have a case.

Instead you couldn't do so. Now if you've spent days or even weeks on just this site (and presumably months looking at others) then you should know where to find the best single example of proof.

You failed. So why should I waste my time looking around for something better when YOU couldn't find it?

> The uneducated need only moments, of course ... how to you think they got
> their fine educations?

Takes me only a moment to look at the lack of any conclusive proof in your BEST evidence, and decide you don't have a case.

Maybe you should have picked a better piece of evidence, but then that's what you were asked to do. If appearances and unsupported assertions is the BEST evidence you can produce, then why should I waste more time with it, or you?

So to sum it up.

You were asked to present your best evidence.
Your best evidence consisted of claims about appearances and unsupported assertions
Your best evidence fails to get off the pad as there is no proof of anything presented.

Conclusion, if your best is this bad, then there is no need to bother with your conspiracy theories.

Sorry, I've looked before and see no reason to do YOUR homework for you.
It's up to you to present any proof to prove your case. So far your best
proof has been assertions of appearances and unsupported assertions.

There are levees around Sacramento. Sacramento is 80 miles inland. The
levee system here is the reason farmers and fish can't coexist. It needs
some infrastructure upgrade activity,

Let me know when the whitehouse release the official death certificate
for osama ... not that I don't trust 'em, just would like to eyeball it ...

The courts did take away their copy of Adobe Illustrator to keep them
from committing any more felonies, didn't they???

I did. I asked you to prove your case with your best evidence.....you were
the one that failed to do so.

You were the one that asserted credentials were somehow relevant to the
facts presented.

You were the one that made claims you couldn't back up.

>it can only go downhill from there as your arguments and proof get more and
>more preposterous!

Well, I've seen your type come, and I've seen them go, and NONE could make
any reasonable effort to prove their case on a specific item. They either
threw out a website (like you did) and expect me to research the whole site
and all the claims in the hopes there was something that supported your
claims. IOW, doing your homework. Or they would produce a massive multitude
of items in the hope that the shear volume would somehow carry their claims.
Yet when one item was picked out and proven to be false, incomplete,
inconsistent, or otherwise failed to prove the claims made about it, their
only response was to simply point to something else and claim that I hadn't
disproven everything. As if their ability to make their case depended upon

others showing the flaws in their case rather than producing a solid case from the start.

> Say hi to ScottS, Shagster, Arthur, Mark Ferran, NEU-FONZE and David B.
> Benson when you see them. I am sure they will now take up your argument
> with you!

Damn, got your ass kicked by that many people and you still haven't figured out how to present a better case.

Makes it sound like any attitude you got at the start was perfectly justified given you have a history of making claims you can't support.

>... plonked in this thread too ...

So run away since you can't be bothered to prove that even a single point of yours is actually true and contradicts the official findings.

IOW, you can't support your case even in one detail.

Nope, simply how it works. You make claims, it's up to you to prove them.

You were given the chance to do so, and you told me I should do your work
for you.

Sorry, but that's not how it works. It's not up to me to prove your claims
are true....that's your job.

As I said, the links on the one website, alone, should have kept a REAL engineer busy a month ... especially taking into consideration that a REAL engineer would have written the architects, engineers and scientists, gotten samples and confirmed what he was able ... you my fraudulent little "engineer" are a FRAUD!

... GLOBAL SERVER PLONK ENACTED! WARNING WILL ROBINSON! ...

ROFLOL!!!

Good reasoning, attempt to kill the enemy through appeasement ... obama could bow to 'em too!

Piss on the bastards, we are here to kill them. Someone do something, so they will do something, so we can identify them, so we can KILL 'EM! <grin>

One hell-of-a-way to run a war!

No, show me that people had more rights, freedom, & liberties while
Kennedy was alive than while Johnson was alive. Other than the
draft.

Sorry, the damn pompous arse is enough to piss a man off ...

Our president is a very bad joke ... for the first time in my life I know what it is to be embarrassed of your public servants and the image the stooges are setting forth for the world to see, of America.

He puts us at great danger. The world may begin to see the Americans as bull trannys and think to take advantage of weak worthless slobs ...

brings an ever increasing to having good weapons ...

Regards,
JS

Johnson was only the beginning of the graft, greed, corruption and
criminals ... we should be so lucky as to go back to that time!

Having been forewarned of these events, perhaps we could have gotten rid
of some of these worthless public servants along the way ...

> engineer busy a month

Perhaps, but since you gave me no valid reason to spend my time going through them, then it doesn't matter how many links there are. You were asked to present your best evidence. You, who supposedly have already gone through these links as well as other websites chose to pick as your best evidence a link to one page that simply talked about appearances and made unsupported assertions. If that is your best evidence then when you supposedly have already looked all through this website and others, why should I waste my time looking for something that is quite likely not there? If it were you would have presented it as your best evidence.

See, you have to give me a reason to look at the other links. You didn't.

Nor am I under any obligation to go looking around for the evidence to support your claims. That's your job.

... especially taking into consideration that a
> REAL engineer would have written the architects, engineers and scientists,
> gotten samples and confirmed what he was able ... you my fraudulent little
> "engineer" are a FRAUD!

I have, long before you ever showed up here. I've done my research, I've found nothing that seriously challenges the official findings. You asserted there is evidence out there that does. I offered to look at an example of your best evidence. If failed miserably to establish any errors in the official findings.
Hell, it failed to even attempt to prove it's own assertions.

Now, given this why should anyone, even an engineer waste their personal time looking for something they couldn't find before and which you can't even show when requested to do so?

I've been unable to find any conclusive evidence that any of the collapses involved controlled demolition, and no one has ever been able to present even a single conclusive piece of evidence to support it, or to even seriously challenge the findings of the official report.

So when someone like you comes forward claiming it was controlled demolition, then I expect to see them produce facts of that when asked to do so. Conclusive facts. Irrefutable facts. Clear evidence that directly contradicts natural occurrence.

Once again, you showed those who believe in this conspiracy theory can not. Either you have no such evidence, or more likely, it was never there to begin with.

> ... GLOBAL SERVER PLONK ENACTED! WARNING WILL ROBINSON! ...

Yea, keep running away. Show everyone how you can sit down and PROVE your claims with actual facts, proof or even solid evidence, instead of running away from the one person willing to give your presentation of these things any consideration.

Pick a single specific issue that directly contradicts the official findings, natural causes and/or proves controlled demolition and you will have my full attention.

Run away and you're just another idiot with a conspiracy theory and the inability to even check his own claims against the facts.

I remember the good old Vietnam War. Every night Walter Cronkite
showing me lines of enemy combatants, DEAD!

And, he would furnish a body count!

You just knew you were getting something for your tax dollars back then
... nowadays it is like obama birth certificate and the body of osama
... they just tell you about 'em!

Somehow, I see where an element of deception can enter. Indeed, that
practice makes lies very likely ...

I'd damn well hope so!

If this war ain't about killin' as many of those suckers as we can, then
we best end it now ...

I damn well don't want a stage set up with enemies on it so obama can
come an "bow 'em to death!"

obama is too busy supporting things like this:

http://www.massresistance.org/docs/issues/fistgate/index.html

or ... having little get togethers at homosexual bath houses with his buds:

http://fellowshipofminds.wordpress.com/2010/05/27/washington-insider-obama-member-of-chicago-gay-mans-club/

The "Puke Factor" used to be a lot lower in those days, yanno'?

its all a big lie, a house of cards that will come crashing down when
you take out a card one at a time

..crash...

Why didnt they take him(OBL) alive and waterboard... he is the
motherload of intel worth if we may believe the propaganda.

Can they answer that ? Why execute the man who potentially has secrets
to shut down terrorist cells across the world?

the whole thing is total Bushnell...

Just watch a video of the towers falling at freefall speed and ask
yourself the question... does any of it ring true, or make any sense?

They collect taxes from citizens of the United States called income
tax this is British tarriffs on the United States Citizens that live

and work on Great Britains United States of America, the bankruptcy cinched it.You wont find this taught in schools or no one would pay income tax ever again. Read these articles.

http://www.apfn.org/apfn/secretoath.htm

http://www.barefootsworld.net/usfraud.html

http://www.natural-person.ca/pdf/Great_Britain_owns_USA.PDF

Here's you a great lesson in history by Myron Fagan up untill the last few minutes when starts pushing Mormanism(the jesuit practice of incest and pedphilia).

I think the news, again, is attempting to pump up a "no story" into
something ... no one gives a chit what he says.

If he told us water was wet, most would run to a faucet and stick their
hand in a stream of water to check it out, having first suspected him of
lying ...

These guys just don't get it. They are the boy who called wolf WAY TOO
MANY TIMES!

Texas teacher on leave over bin Laden comment

FRIENDSWOOD, Texas (AP) -- A Southeast Texas school has put a teacher on leave pending an investigation into an allegation that he asked an American-born Muslim student if she was grieving because her "uncle" had died, referring to Osama bin Laden, a school district spokeswoman said Wednesday.

The teacher, whom officials of the Clear Creek school district did not identify, is accused of offending the American-born female student Monday during a ninth-grade algebra class at Clear Brook High School in Friendswood, located 23 miles southeast of Houston.

District spokeswoman Elaina Polsen told KTRK-TV of Houston the teacher was placed on leave after another student reported the taunt to her mother.

"The student did the right thing and immediately notified an adult regarding the teacher's comments. The principal at Clear Brook High School notified the child's parents and has been in communication with the family," Polsen said.

Polsen said the comment doesn't reflect school or district staff attitudes.

Islamic Society of Greater Houston President Aziz Siddiqui told KTRK that the group is satisfied with the district's response.

"A lot of people are ignorant in the world, and so you just have to ignore them," he said.

Those who believe it already believe it. Those who don't wouldn't be convinced by photographs anyway. They'd say the photographs were photoshopped, not of Bin Laden, of a Bin Laden who's not actually dead, created by aliens, etc. ad nauseam. No purpose would be served by releasing them.

Sylvia.

Bin Laden being killed this past weekend is proof that he did not die
in 2001. Ipso facto, Johnny KQQK.

Umm, kooker, why oh why would we want to "shut" Johnny KQQK down? Are you stupid? We're here day in and day out egging him on as he reaches new heights of comedic stupidity!! A kook THIS crazy just cannot be found every day!!

You need to understand this: Our encouraging him to post his craziness, and yours, is the OPPOSITE of shutting anyone down. Are you truly this stupid? We WANT you to amuse us. Now roll over!!

Johnny KQQK does not know what plonking actually means. he just types the word "plonk" because he's seen his many betters do that. He thinks it's a magical incantation, just like his cartoon magic "controlled demolition" delusions.

Obama is more concerned any photgraphs would become symbols to mobs like
Al Quaeda. It's a sensible move to not release them.

I wonder how they got that appeal up to the 9th circuit so fast. Of course they did pick the proper court for it, the 9th circuit is known for its outlandish rulings. If you can't win there, you are really lame.

Harry K

Well yeah!

Weak minded idiots exist which need no proof what-so-ever!

If you think that surprises us it does not. Most people need proof to
believe what they hear.

Some people have no skills, no formal schooling and you can show them
photoshop documents and the poor slobs will believe what you tell them
about the documents/pictures/videos ... but normal people, with decent
IQ and schooling don't make those horrendous mistakes.

This is why you don't let morons get in positions where they can bring
about harm on themselves or others ... DUH!

Only fools destroy evidence ... but then, that is exactly what we are talking about, a world run by fools.

All this is not going to create a job, end joblessness, improve the economy, stop the printing of play money, etc.

Even morons, at some time or another, realize they are standing too close to a fire ... it just takes some to smell burning hair first ...

What is worse, is when you are dealing (adding, agreeing, etc.) in
dollars, and you produce them to the government to cover a debt ...
reality hits home!

With a whiner like you, it wouldn't "make a case" even with a body.

1) You would say it was a double.

2) You would say a DNA expert brought into the case was on the take.

3) If UBL's own mother (or any living relative) swore it was his body, you would say they were a paid actor.

Please stop whining about pictures or bodies. It's abundantly clear to all of us that neither would convince you.

Why don't you just man up, say you don't like Obama no matter what he does, right or wrong, and be done with it.

>>>FRIENDSWOOD, Texas (AP) -- A Southeast Texas school has put a teacher
>>>on leave pending an investigation into an allegation that he asked an
>>>American-born Muslim student if she was grieving because her "uncle"
>>>had died, referring to Osama bin Laden, a school district spokeswoman
>>>said Wednesday.
>>>
>>>The teacher, whom officials of the Clear Creek school district did not
>>>identify, is accused of offending the American-born female student
>>>Monday during a ninth-grade algebra class at Clear Brook High School in
>>>Friendswood, located 23 miles southeast of Houston.
>>>
>>>District spokeswoman Elaina Polsen told KTRK-TV of Houston the teacher
>>>was placed on leave after another student reported the taunt to her
>>>mother.
>>>
>>>"The student did the right thing and immediately notified an adult
>>>regarding the teacher's comments. The principal at Clear Brook High
>>>School notified the child's parents and has been in communication with
>>>the family," Polsen said.
>>>
>>>Polsen said the comment doesn't reflect school or district staff
>>>attitudes.
>>>
>>>Islamic Society of Greater Houston President Aziz Siddiqui told KTRK
>>>that the group is satisfied with the district's response.
>>>
>>>"A lot of people are ignorant in the world, and so you just have to
>>>ignore them," he said.

AUSTRIA: ORF - Radio Osterreich International, Wien / Moosbrunn, 9820, f/d illegible signed confirmation letter w/pic “Garden of Mirabell Palace, Salzburg” by airmail in 12 days (via Slovenia) for report in English & recording by e-mail (Jensen-CA)

This particular TX was during a time of technical difficulty, and all they did was play their interval signal over and over for an hour straight. Made ID easy anyway ;-)

> case without a body ...

With a whiner like you, it wouldn't "make a case" even with a body.

1) You would say it was a double.

2) You would say a DNA expert brought into the case was on the take.

3) If UBL's own mother (or any living relative) swore it was his body,
you would say they were a paid actor.

Please stop whining about pictures or bodies. It's abundantly clear to
all of us that neither would convince you.

Why don't you just man up, say you don't like Obama no matter what he
does, right or wrong, and be done with it.

Aside from all that, murders are proved to the satisfaction of unanimous
juries all that time without a body. Long gone are the days of "no body, no
crime." Forensics and DNA matching are amazing things.

You lie.

Nobody there had been found guilty of anything in any court.

Your ilk doesn't insist on real justice.

The real perps were 'incompetent' all the way to their
offshore accounts.

The claim of "incompetence" is ludicrous.

"...incompetence cannot explain the suppression of efforts to prevent the attacks."

After all these years I have setup a block list.

I'm afraid that there's very little here to read anymore other than a whole lot of really strange kOOkery, disinformation, childish name calling and arguments that even a five year old wouldn't get into...

It's one thing to disagree with someone's politics, it's quite another to vilify the person.

Aside from that, the truth is not the exclusive purvue of either the right or the left, but is, instead, to be found somewhere in the middle as a combination of the two extremes. One extreme cannot exist without the other.

If I sat the jury, my first question would be, "What happened to the body?"

If the answer comes back, "I dumped it in the ocean." It would sound a lot like what I would expect a criminal to say.

Why some think a president is as trustworthy as "God" is a complete mystery to me; And, especially since so many have been caught lying. I have a sense that they are no different than trusting anyone else -- perhaps worse!

In our nation, under our Constitution all men are created equal and entitled to equal protection (and punishments!) under the law ...

I would view my neighbor in a highly suspicious manner if he told me, "The ocean ate the proof which could have come under the scrutiny of independent third parties. You will just have to trust me and my gang on this."

Regards,
JS

OCR (Optical Character Recognition) is a tool (or process) whereby text is recovered from a bit mapped image. OCR doesn't do anything to the source image. It simply tries to identify all the text in the image. The intent is to automate text capture from an image file by avoiding the error prone procedure of having a human look read the image and type the text.

You win. You have all the means and evidence necessary to prove the
birth certificate to be fake. Take it to court right away, bring down
the President, you've got the power to do it, failing to do so is you
being irresponsible as a citizen of a democratic country and showing
utter disdain for the Constitution.

But you won't do it, will you? Why not? Because you don't even
believe in your own crap enough to do it, so you'll do it the idiot
coward's way instead: kick sand around on usenet. All sand does when
it's kicked around is end up back where you kicked it from.

Well, don't know if ANY modern vehicle (other than the soon-to-be-history Crown Victoria) can last in this environment . With the price of ONE taxi medallions around $650K at the present time , they are being used around the clock . Literally . Since Chevrolet stopped making full-size cars, like Caprice , they tried using 15 other makes/models . The result : they don't hold up . Period . Rear wheel drive full size cars are simply more durable , to say the least . . .

>>> And that, dearie, is what would make him a US natural born citizen
>>> EVEN IF his mom had him in kenya, which it's been proven she did not.
>>> If she was no legally married, then the location DOES NOT MATTER!!!
>>
>> That's completely wrong. The McCarran Walter Act, aka the Immigration
>> and Naturalization Act of 1952, specified in Title III, Ch. 1, Sec. 301(a):
>>
>> The following shall be citizens and nationals of the United State at birth:
>>
>> (7) a person born outside the geographical limits of the United States
>> and its outlying possessions of parents one of whom is an alien,
>> and the other a citizen of the United States who, prior to the birth
>> of such person, was physically present in the United States or its
>> outlying possessions for a period or periods totaling not less than
>> ten years, at least five of which were after attaining the age
>> of fourteen years
>>
>> The marital status of the parents is irrelevant.
>
> That is incorrect.

No - it is correct.

> The above applied only to married parents.

That's false, of course, but moot: Stanley Ann Dunham was indubitably
married to Barack Hussein Obama, Sr. Once again, you lose and have shit
on your face.

Just for fun, and to rub your nose in the shit even more:

CHILDREN BORN OUT OF WEDLOCK:

Sec. 309. (a) The provisions of paragraphs (3), (4), (5) and (7) of section 301 (a), and of paragraph (2) of section 308, of this title shall apply as of the date of birth to a child born out of wedlock on or after the effective date of this Act, if the paternity of such child is established while such child is under the age of twenty-one years by legitimation.

http://library.uwb.edu/guides/USimmigration/66%20stat%20163.pdf

So, of course, we see that the relevant law cited above, covering birth abroad to parents of whom only one is a U.S. citizen, would have applied to Hussein's birth had he been born abroad, whether or not his parents were married, and so he would not have been born a U.S. citizen had he been born abroad because his citizen-parent - his mother - did not meet the residency requirement. Your bullshit is refuted, and you have still more shit on your face. This happens frequently to snarky, absurdly arrogant young males like you.

Burr wrote:
> After all these years I have setup a block list.

It's needed. About two years a go I switched from mutt (the son of ELM, a UNIX email program I've been using since 1991) to a gmail account and Apple's Mail.app for my mailing lists, etc.

Two lists I am on total more than 80% of the direct to trash rules with one of them needing more than half. However, I want to be on both lists and without them the would be unbearable.

As for USENET aka NetNews around 2002 I switched from tin to slrn because slrn has kill files. I just wish it had a way of spellchecking my postings before I make them.

Remember the days when if you had an email connection, you were expected to forward email for anyone who was not as well conneted as you, and if you had a news feed, pass it on?

Geoff.

As is so often the case.........your postings reveal a lot more about
you than you seem to realize.

And they reveal a person who has so little going for them that they
take what pitiful scraps of satisfaction they can find in running down
people they know are vastly better people than they are. A person who
pretends to be adequate by trying to "knock down" the people they know
are what they can never be....successful....because they are
incorrigible losers destined to snatch failure from success at every
turn.

So have a worthless life jerk.....you know you will.

Yes, with the tremendously interesting subjects being discussed on SW, the wide range of topics, and SW being so cutting edge, you just can't understand why NGs and the world at large isn't abuzz with discussions!

Shortwave

M-F 11:00am - 1:00pm on 12.160MHz
M-F 9:00pm - 12:00am on 4.840MHz
Tuesday-Saturday 12:00am - 3:00am on 3.215MHz
All central times

If you don't have personal Internet access or a shortwave radio, you can always catch the show by tuning into one of the AM/FM affiliate stations in your area.

The Alex Jones Show is a nationally syndicated news/talk show based out of Austin, TX. The show is syndicated by the Genesis Communication Network on over 60 AM and FM radio stations across the United States, as well as having a large internet based audience.

All Alex's pertinent interviews are posted in the audio section of his website, Prison Planet.com.

Regards,
JS

ROFLOL

I am certainly glad you got that off your chest. I guess I got a
through dressing down!

Principals and value before personalities ... remember that! Next time

5898 kHz "La Chica" Spanish Numbers Station [V02] @ 0834 UTC
and Ending with 3 'Good-Night's ! @ 08:42 UTC on 6 Mayo 2011
-interesting- The Carrier was 'Off' in 30 Seconds; not the usual
5~10 minutes...
.
Yes "La Chica" is back again and saying those Marvelous
and Mysterious 5-Number Sets in Spanish :
Cero Un Dos Tres Cuatro Cinco Seis Siete Ocho Nueve
[0 - 1 - 2 - 3 - 4 - 5 - 6 - 7 - 8 - 9] -but- No "10" 'Diez'
http://www.enchantedlearning.com/languages/spanish/Numbers.shtml
.
-and- Cause... It's "La Chica" closing as always with
Three (3) "Good-Nights" around XX40 UTC of the Hour.
.
-but- Again "La Chica"s 'englanish' made it sound
more like the Words 'Too-Nite' -don't-we-wish-;;-}}-
.
Also "LaChica" Spanish Numbers Station [VO2]
can be heard on 5883 kHz during 0700~0745 UTC
-la-chica- -la-chica- -la-chica- -la-chica- -la-chica-
.
A Shout-Out to La Chica's producers in Cuba about
Re-Branding Spanish Numbers Station "VO2" to "La Chica" ! :o)

Late August 2001: Mystery Arab Rap Group Records CD about Terrorism
Edit event

A mysterious Arab rap band records a CD, which includes songs apparently about upcoming terrorist attacks. The group, called the Arab Assassins, records its songs at the GHC Recording Studio in Sarasota, Florida. According to the Sarasota Herald-Tribune, their lyrics ï¿½range from generic references to Palestinian beliefs to verses that could be considered by some as a warning of what unfolded in New York City and Washington, DCï¿½ on 9/11. These refer to subjects such as bombings, New York, and fundamentalist Islamic martyrs. Lyrics include, ï¿½I know Iï¿½m going to die,ï¿½ ï¿½Iï¿½m next on Godï¿½s list,ï¿½ ï¿½Partners torn, transformed to martyrs,ï¿½ ï¿½to turn wives into widows,ï¿½ and ï¿½the US will remember this.ï¿½ After 9/11, the recording studioï¿½s owner Chris Musgrave will comment, ï¿½There are some weird coincidences here.ï¿½ The rap group is made up of three brothers who claim to be from Brooklyn. Yet officials with the Recording Industry Association of America later say they have never heard of the Arab Assassins, and none of the large Internet music sites offer any recordings by them. After recording several songs at the studio, the Arab Assassins take six copies of their CD, and then leave a telephone number that is listed as disconnected. The day after 9/11, the local FBI will seize a copy of the CD from the studio, but offer no comments to the press on the band. [Associated Press, 9/13/2001; Sarasota Herald-Tribune, 9/13/2001]

That doesn't "prove" anything, boy. The correct response is to point
out that it is rhetorically invalid and impermissible to demand that
someone (you) prove that someone else's (his) assertion isn't true. He
must prove that his assertion is true.

Yep, it is hard to beat the full size Ford cars for Taxis, they are
Great looking cars too.
About twenty something years ago I went to a Durham auction on I-55
South Frontage Road.A guy who was there and his wife (or girlfriend,
whatever) bought an old Checker car.That car wasen't painted like a
Checker Taxi would be painted, it was a solid black color Checker car,
but it might have been a Taxi at some point in time.They paid $700.00
for that old Checker car.When the auction was over, I saw them zooming
North in that old Checker car on I-55.I wouldn't doubt that old Checker
car is still running just fine right now.Those Checker cars were built
like a Tank.
http://www.devilfinder.com/find.php?q=Checker+Cars

Checker built at least one Jeep vehicle for the U.S.Military to evaluate
for World War Two.

The aircraft didn't cause the fall. The plane hit the building, the
buildings stood. The fuel was splashed about, burnt off in ~15 mins.
and the buildings stood. Once the fuel was burnt off, all you were left
with was a "normal" high-rise fire.

Right.. and NOTHING in the building was flamable and the sprinklers were
in perfect working order.
You retard.

I wonder who placed the demolitions in the building so precise and so
undercover, that the THOUSANDS of people that work there 24/7, never saw
anything going on. Any idear, you retard?

Burnt off in 15 minutes!

Normal high-rise fires containing all that NEVER melt iron nor leave
nano thermite residue.

"Take, as an example, this question of how the explosives were planted.
How could the security apparatus of the World Trade Center Complex,
which was presumably highly sophisticated after the 1993 bombing, allow
or not notice the laying of the explosives that supposedly felled the
buildings? Well, upon investigating this security apparatus at the WTC,
we quickly stumble into the fact that Marvin Bush, George W.'s younger
brother, was a principal in a company called Securacom (now Stratesec),
the very company in charge of security at the WTC in 2001. Again, it is
important to note that the author is not making this up. "Marvin P.
Bush, the president's younger brother, was a principal in a company
called Securacom that provided security for the World Trade Center,
United Airlines, and Dulles International Airport." And not to be
outdone by this fact, we also learn that "from 1999 to January of 2002
(Marvin and George W.'s cousin) Wirt Walker III was the company's CEO."

http://www.911hardfacts.com/report_09.htm

Again, get used to using Google, there are other "building
upgrades/updating/maintenance" which would have allowed the planting of
incendiaries.

Well, I am with you, I frequently laugh at anything FEMA/NIST says, also ...

However, I do believe they are right on, at least, this single point:

"It is highly unlikely that jet fuel was present to generate such explosions especially on lower floors, and long after the planes hit the buildings. Dr. Shyam Sunder, Lead Investigator for NIST stated: "The jet fuel probably burned out in less than 10 minutes.ï¿½ (Field, 2005) On the other hand, pre-positioned explosives provide a plausible and simple explanation for the observations, satisfying Occamï¿½s razor (Jones, 2005). Thus, it cannot be said that ï¿½no evidenceï¿½ can be found for the use of explosives. This serious matter needs to be treated as a plausible scientific hypothesis and thoroughly investigated."

Fire up google and see how many disagree with Dr. Shyam Sunder!

Regards,
JS

You are insane, and a retard.
You conspiracy retards are amusing at least.

SB PROP @ ARL $ARLP018
ARLP018 Propagation de K7RA

ZCZC AP18
QST de W1AW
Propagation Forecast Bulletin 18 ARLP018
From Tad Cook, K7RA
Seattle, WA May 6, 2011
To all radio amateurs

SB PROP ARL ARLP018
ARLP018 Propagation de K7RA

Currently seven sunspot groups are visible. The average daily sunspot number is down more than seven points over the past reporting week (April 28 to May 4) when compared to the previous seven days. Average daily solar flux was off nearly five points compared to the earlier period.

Sunspot group 1201 first exhibited spots on Thursday, May 5, although it was first numbered as a plage without spots back on April 28. A plage is a bright area on the Sun where sunspots may appear. Group 1207 was also new on Thursday. You can see a daily summary of sunspot groups, including their total area, at http://www.swpc.noaa.gov/ftpmenu/forecasts/SRS.html.

A solar wind stream from a coronal hole induced a high latitude geomagnetic storm at the end of April. Middle-latitude geomagnetic K indices measured at Fredericksburg, Virginia went as high as 4, and the April 30 to May 2 middle-latitude A index was 17, 13 and 14. The planetary K index hit 5 on April 30, and the planetary A index over the same 3-day period was 24, 19, and 20. High latitude areas were more sharply affected, and Alaska's college K index rose as high as 7, and the same 3-day period saw the college A index at 43, 56 and 37.

A bulletin received at 5:19 PM local time on Friday, April 29 (0019 UTC April 30) from IPS Radio and Space Services in Australia told of the impending geomagnetic disturbance. It read, "INCREASED GEOMAGNETIC ACTIVITY EXPECTED DUE TO CORONAL HOLE HIGH SPEED WIND STREAM FOR 30 APRIL 2011." You can subscribe to these alerts at http://www.ips.gov.au/mailman/listinfo/ips-geo-warning.

The latest prediction shows more geomagnetic activity coming May 9-10, when the predicted planetary A index is 18, then 15. The USAF/NOAA prediction shows a planetary A index of 7 on May 6-8, 18

and 15 on May 9-10, 7 on May 11-12, and 5 on May 13-16, rising again to 15 on May 17, then 5 on May 18-25, and 12, 22, 18, 18 and 15 on May 26-30. The same prediction shows solar flux at 105 on May 6-8, 100 on May 9-13, and 115 on May 14-21.

Geophysical Institute Prague predicts quiet conditions on May 6-7, quiet to unsettled May 8, unsettled to active May 9, unsettled May 10 and quiet again on May 11-12.

Now that we are in the first week of May, it is time to look at the 3-month moving average of sunspot numbers. The latest value is another increase, from 30.1 at the end of January to 35.3 at the end of February, 55.7 at the end of March, and 72.3 at the end of April. The monthly average of daily sunspot numbers for April was 80.8, about the same as March, which was 81.1.

We calculate this average by summing all of the daily sunspot numbers for three calendar months, then dividing by the number of days. Every month we incorporate a new month of data and drop off one old month. The three-month moving averages of daily sunspot numbers ending on April 2010 through April 2011 were 22.3, 18.5, 16.4, 20.4, 23.2, 28.9, 33, 35.6, 31, 30.1, 35.3, 55.7 and 72.3.

There has been very little change in the predicted smoothed sunspot numbers from NOAA/SESC in the past month. Compare page 14 on the beginning of April table at http://www.swpc.noaa.gov/weekly/pdf/prf1857.pdf with the latest table, also on page 14, at http://www.swpc.noaa.gov/weekly/pdf/prf1861.pdf and only August through October 2011 have changed, each being one point lower. Each of these smoothed values represents an average of a year's worth of data, either known numbers, or predicted. For May 2011, about half of the value is based on predicted numbers. November 2010 is probably the latest date that shows a number based on all known values, as are all previous months.

Bob Scaife, G7PAF offers an interesting propagation tool, the ability to monitor 20 meter PSK activity from his station in England. Go to his web page at http://homepage.ntlworld.com/bob.g7paf and click on the live screen on the left, which takes you to http://g7paf.no-ip.org:89/main.

Not sure how well this works if multiple bulletin readers try to hook up at the same time, but Bob says one possible utility is to send a PSK signal and monitor it from his QTH.

During ten minutes of casual monitoring I copied SQ3LMY, UA9WRG, OH2FDO, RJ6JK, RA3WBZ, OE5KEO, EA1GCD, YU7NW, F5AXG, IZ5RFR, IZ7SIA, CT2FPY, EA3AJY, EA3AHH, YU1LC, CT4RC and I6MBK. Many of those stations have photos of their radios and antenna systems on QRZ.COM, and some even have links from their QRZ.COM page to monitor their station or view them on a web cam as they operate.

Ted Turk, WB8ADA of Euclid, Ohio calls our attention to an item in the current June 2011 issue of Sky & Telescope, titled "Why the Sun Had No Spots." Read it at http://www.nxtbook.com/nxtbooks/newtrack/st_201106/#/16.

Jon Jones, N0JK reminds us that sporadic-E season is upon us, and there was widespread 6 meter E-skip on April 27-28. On 6 meters on April 28 from Lawrence, Kansas using an FT-897 and an attic dipole he worked VE3FZ and VE3KU around 0245z with strong SSB signals. Sporadic-E activity on 6 and 10 meters should be increasing through the month of May.

Larry Jones, K5ZRK of Sandersville, Mississippi is very active on 60 meters, and is wondering if his favorite band might be affected by heavy rain and stormy weather, causing a scattering effect. He writes, "The night all the tornadoes hit the Southeast (he is in south Mississippi, 90 miles from the Gulf of Mexico) which was April 27 (April 28 UTC), I ran a sked with a station on 60 meters for a new grid square. WB0HBJ was mobile in his 18 wheeler and I was QRP (about 3.8 watts out) and in the middle of the rain front that extended from South Mississippi to New York and over to the Atlantic. WB0HBJ was 800 miles away in EM09 and his signal would peak above S9 and then drop off rapidly. He was in flat prairie land so he was not picket fencing due to his terrain. I have noticed this phenomenon on 60 meters before. I was in the big band of rain and WB0HBJ was not. I have noticed that when a station at a distance is transmitting into the rain his signal has short strong peaks and then drops out. I use low noise receive antennas on 60 meters that are directional, along with a preamp. My transmit antenna was a 60 meter vertical with 120 ground radials and with the vertical I could NOT hear him."

If you would like to make a comment or have a tip for our readers, email the author at, k7ra@arrl.net.

For more information concerning radio propagation, see the ARRL Technical Information Service web page at http://arrl.org/propagation-of-rf-signals. For an explanation of the numbers used in this bulletin, see http://arrl.org/the-sun-the-earth-the-ionosphere. An archive of past propagation bulletins is at http://arrl.org/w1aw-bulletins-archive-propagation. Find more good information and tutorials on propagation at http://mysite.ncnetwork.net/k9la/index.html.

Monthly propagation charts between four USA regions and twelve overseas locations are at http://arrl.org/propagation.

Instructions for starting or ending email distribution of ARRL bulletins are at http://arrl.org/bulletins.

Sunspot numbers for April 28 through May 4 were 71, 70, 76, 57, 51, 77, and 72, with a mean of 67.7. 10.7 cm flux was 110.4, 109.6,

109.5, 106.1, 109.8, 107, and 108.5, with a mean of 108.5. Estimated planetary A indices were 3, 12, 24, 19, 20, 13, and 6, with a mean of 13.9. Estimated mid-latitude A indices were 1, 8, 17, 13, 14, 8, and 3, with a mean of 9.1.

>
> Nope,

Yep - I proved it. The section establishes who *is* a citizen at birth
when the birth is abroad. As Hussein's mother didn't meet the residency
requirements, Hussein would not have been a citizen if born abroad - QED.

>>> The above applied only to married parents.
>>
>> That's false, of course, but moot: Stanley Ann Dunham was indubitably
>> married to Barack Hussein Obama, Sr.
>
> So bigamy has become legal?

You have no proof, of course, that Barack Hussein Obama Sr. was married to someone else while married to Stanley Ann Dunham.

Of course, the section above applies even to unmarried parents, as I showed in Sec. 309(a):

CHILDREN BORN OUT OF WEDLOCK:

Sec. 309. (a) The provisions of paragraphs (3), (4), (5) and (7) of section 301 (a), and of paragraph (2) of section 308, of this title shall apply as of the date of birth to a child born out of wedlock on or after the effective date of this Act, if the paternity of such child is established while such child is under the age of twenty-one years by legitimation.

http://library.uwb.edu/guides/USimmigration/66%20stat%20163.pdf

So, if born in Kenya to a bigamist father and his citizen mother, Barry Jr. would have been a citizen *ONLY* if Obama Sr. had legitimated Barry Jr. before his 21st birthday

>> Once again, you lose and have shit
>> on your face.
>
> I win

You lose. Had Hussein been born in Kenya, he would not have been a citizen: his citizen mother didn't meet the US residency requirement in effect at the time.

It is called, "Clue."

The classic detective game! In Clue, players move from room to room in a mansion to solve the mystery of: who done it, with what, and where?

We have to wait for "the final answer." The game, at this point, is still in play, don't let the banter between players throw you off!

Frankly, I am leaning towards Col. Mustard, in the library, with the lead pipe.

It is bizarre, on a high level, to say the least.

Remember all the claimed "allies" when we "went to war" with iraqi,
because of "the big bad terrorists?"

None of them would want to view the actual corpse? None would request a
piece of the body for DNA and an absolute independent verification?

VERY STRANGE me thinks!

Well, when I learned about the cam, I started closing the curtain, just
to drive them nuts and focus their attention on the curtain.

Then, I would quickly stick my dolphin out of a crack in the curtains!

I wish I could have seen the look on hill-bill-a-ries face! :-)

The headlines I read were mostly saying, "THREE TERRORISTS WATERBOARDED
-- MILLIONS OF AMERICANS SODOMIZED!" (A few used the word "SHAFTED!")

> Retail price $4.26

I certainly can see you are not familiar with cost/tax/profit analysis
... the costs of taxes associated with transportation and all the
intervening workers -- between the ground and the pump, are missing ...

Not to mention a LOT of other fees, fines, licenses, etc. ... such a
detailed study would take time and a "few" bucks ... the excise tax
collected on the tires used on the semis to transport, ships licensing,
tariffs ... carbon taxes in some states ...

When my son was about eight, he would have put together something like
that ... ROFLOL!

That is about the quality of obamas forged birth certificate!!!

ROFLOL

http://knowledgeproblem.com/2011/04/29/mark-perry-gasoline-taxes-vs-exxon-profit-per-gallo
n/

The above page makes the same error as your own guess ... it ignores any
hidden taxes ... all the workers pay an income tax, that figures is NOT
in those figures ... there are license fees on drilling rigs, ships,
trucks, etc. -- those fees are NOT in those figures ...

etc., etc., etc.

If you worked for me, you would be fired if I asked you for a credible
tax/profit/cost analysis and you gave me such CHIT!

You'd better kiss the arse which is paying you wages or salary!

Regards,
JS

Actually, you might mean me. And, it is my belief that government DOES
get over half of all the profit on a gallon of gas! Through multiple
taxes on multiple facets of the oil industry, shipping, storing,
selling, etc.

Yes, there is nothing special about a gallon of gas. The government probably gets more than half the profit off the sale of a slurpie.

All the employees/workers along the way, making the flavored syrup, manufacturing the syrup, the cup, the advertising, etc. and their income taxes are hidden in cost. Transportation on the syrup and cup and the associated fuel costs taxes are buried in there ...

All money, and very quickly, ends back up in government hands. My wages are taxed at about 37% income tax, so, even before I get "my money" 0.37 cents of every dollar goes back to the government -- BEFORE I EVEN GET IT. Then I buy something in a store, in California, and it is taxed 9% on the dollars. They the guy spends the money he made from me, and is taxed 9%. Then the guy he bought something from is taxed 9% on dollar ... it goes through very few hands and the government has the whole dollar back!

Nice gig, if you can get it!

ROFLOL

But, damn fools can't sweat small stuff like that ...

One plane load of diesel fuel could not have been enough to get all
the verticle support columns to give away simultaneously through out
the buildi to create a verticl collapse in the buildings footprints!

The explosives were built into all the towers during their
construction!

Logic and reason stand on their own, they only need a voice/media of
expression:

http://www.ustruthmovement.com/index.php?option=com_content&view=article&id=299:national-institute-of-standards-and-technology-john-gross-911-lead-investigator-shyam-sunder-wtc-7-collapse-nist-finally-admits-freefall&catid=1:latest-news&Itemid=50

In the above example, even the deniers come around, eventually!

Minor correction. jet aircraft do NOT use diesel fuel. They don't even
use gasoline or avgas. What do they use? Humble old kerosene.
Admittedly, it's power kerosene but it's still kerosene.

Source record: 228816

Liberty Net: April 30, 2011

http://3950.net/2011/05/liberty-net-april-30-2011/

by Kevin Strom, WB4AIO

THE LIBERTY NET has many purposes: comradeship, bypassing the billionairesï¿½ media and sharing information directly, personal inspiration, amateur-to-amateur help and advice, and much more. It may take a little courage to say the emperor has no clothes for the first time ï¿½ but courage is contagious. So get a ham ticket if you donï¿½t already have one, and check in to the next session of amateur radioï¿½s longest-running discussion net. Listen: Liberty Net 4/30

Here are just a few of the topics discussed and debated this week:

ï¿½ When Medicare refuses to pay and engages in endless delaying tactics ï¿½ as more and more Americans are experiencing lately ï¿½ is it appropriate for a citizen to employ a collection agency? (35 minutes)

ï¿½ Thereï¿½s a grassroots movement to get millions of Americans to buy an ounce or more of silver and take physical delivery. This, it is hoped, will make it difficult for J.P. Morgan Chase to cover their illegal naked short selling of the metal ï¿½ and might even force them to stop the practice, which regulators refuse to investigate. (55 minutes)

ï¿½ There is a principle of sound economics which tells us that ï¿½what canï¿½t be paid, wonï¿½t be paid.ï¿½ And unless there is a radical ï¿½ extremely radical ï¿½ gutting of all the Washington regimeï¿½s programs, we face financial Armageddon. Therefore we must end all our aggressive wars, cut down to a military perhaps one tenth the size of what we have now; put an end to all entitlement programs for the underclass; terminate all corporate welfare and bailouts; and permanently cease all foreign aid and foreign intervention. (1 hour 2 minutes)

ï¿½ Auctions of treasury bonds are now announced very quietly because of the embarrassing dearth of buyers. Practically all the bonds are being purchased by the Federal Reserve, which itself may fail spectacularly ï¿½ even though it is claimed to be failure-proof. (1 hour 7 minutes)

ï¿½ There is something supremely bizarre in watching the increasingly degraded and increasingly impoverished American population going all ga-ga over the ï¿½royal weddingï¿½ of degenerate British aristocrats, utterly owned themselves by the same money-men who misrule the

United States. Some are calling the nuptials a celebration of the union of the House of Windsor with the House of Rothschild. (1 hour 25 minutes)

ï¿½ A new book is set to be published on the topic of Obamaï¿½s fraudulently-obtained social security number, which, oddly enough, was issued in Connecticut, where Obama never lived. (2 hours 40 minutes)

ï¿½ Barack Obama Seniorï¿½s disgusting rape-a-thon of White college girls in the 1960s was a symptom of a deep societal decay in America, a decay that has reached its symbolic culmination in the elevation of the product of that sexual abuse to the White House. (2 hours 44 minutes)

ï¿½ The current regime that rules America from Washington and New York combines the very worst elements of capitalism and socialism ï¿½ the heartless ï¿½Iï¿½ve got mine, Jackï¿½ insecurity of capitalism along with the ï¿½you must submitï¿½ bureaucratic dictatorship of socialism ï¿½ the ï¿½national securityï¿½ state of the Right along with the the total lack of freedom of association and financial privacy of the Left. (2 hours 55 minutes)

You can find ï¿½ and check in to ï¿½ the Liberty Net every Saturday night starting at 10PM Eastern Time (in recent weeks, DRM intereference has caused the net to meet somewhere between 3960 and 3993 kHz quite often). You can also listen live on the Internet via N2SAG (who also includes a lively chat room during Net hours) or N2IRJ , or listen at your leisure via the mp3 files posted here at http://3950.net every week.

Remember that the complete net recording is posted at the very top of the right column (under ï¿½Liberty Net Audioï¿½) here on http://3950.net ï¿½ usually on the Sunday immediately following the net, so look for it there if youï¿½d like to listen. These articles and summaries (found in the center column) show up a few days to a week later.

Once again, thanks to W1WCR and all participants for making this extraordinary net possible.

For all intents and purposes: kerosene = No. 1 Diesel = Jet Fuel

There are minor differences, as an example:
http://www.combinedoil.com/pdf/MAP_No.1%20Diesel%20fuel%20is%20not%20Kerosene.pdf

My grandfather used to use No. 1 Diesel in kerosene lamps and kerosene heaters for barns and smudge pots to keep plants in the fields from freezing ... in the home he only used kerosene, said it was because it was "deodorized No. 1 Diesel."

Now-a-days? Who knows ...

My bad.
But I did include "etc.", so that he could use his rather fasinating
imagination.

I really don't want to say this, my many shortwave friends, but
I find that I am giving up far to much of my increasingly valuable
time here on RRS trying to educate the faux, the debutantes, and
those who tote..

Therefore, I've simply decided to give up RRS.

Goodbye, I sincerely hope that you all find your niche in the
world of SW.

THANKS FOR ADMITTING YOU'RE EVADING THE ANSWER THEN, fuckwit!!

I was talking about Iraq and YOU keep diverting to Afghanistan, you fuckin' blatant liar. YOU keep trying to answer my question about Iraq by talking about Afghanistan and NOW YOU ADMIT being an evasive liar.

Try to grow a brain; I know that's difficult for a sheeple rightard to do, but the claim was about Obama withdrawing from IRAQ. Obama NEVER promised a quick withdrawal from Afghanistan and ALWAYS said as a candidate that Afghanistan was the right place to be, not Iraq. Your dishonesty is duly NOTED, shit-for-brains.

Probably better than most people think. Could be just gray line
propagation, but sounded like a local. He was just calling CQ so I
figured I would call without the amplifier. Came back with a 55
report. He also said he was beaming over the north pole, so that is a
shorter path for me and probably accounts for the good signal strength
into Michigan.

Correct. You're a snarky boy, wrong about everything. You're a boy -
not in doubt.

917. external Grundig YB400PE antenna recommendations?

Newsgroup: rec.radio.shortwave
Date: 2011-05-07 21:58:05 UTC
From: Mike S <mscir@yahoo.com>
Message-ID: <iq4f9g$lq5$1@dont-email.me>
Source record: 228844

I was just given a Grundig YB400PE without the external antenna, and the shortwave reception inside my mobile home (metal box) without an external antenna is non-existent. After reading several of the antenna discussions here I was wondering if I could get recommendations about the best way to build an outdoor antenna. I can put up a large diameter loop outside, say up to 6 feet diameter, mounted above the roof, or I could run a straight wire about 40' running roughly East-West above the roof, or a combination of the two if that would help.

When I was a kid my dad bought a Hallicrafters shortwave, I think it as an SX-99, and he used the heavy dog run wire mounted about 10' above the ground, running from the house to a tree in the back yard oriented roughly North-South with no ground (neither of us knew anything about electronics then), and I got stations from all over the world, it was really interesting hearing the programming from other political slants as a kid. So I'm wondering how much I can pull in with this cheap little model.

TIA,
Mike

The REAL scoop ...

A new WikiLeaks message indicates that the watercraft from which Osama was ditched was equipped with a sub-surface dragnet that snared the body, which is now at an undisclosed laboratory in the U.S.

The end consumer pays all of the taxes as they are reflected in the price at the pump.

Elsewise, where does the money come from except from the end consumer as it flows up the chain?

ROFLOL

Too bad that morons like you have to have it pointed out that the military and building demolition experts can't use building materials to create explosions!

That statement of yours is one of the most moronic I have yet heard, to date!

Super nano-thermite, as found in the dust of the WTC demolitions is only found in a laboratory, which then sells it to military and other licensed, and controlled, users!

Military grade thermite is not created in buildings falling ... it a left over residue of controlled demolitions.

Fooling morons to believe anything else is certainly not productive ... well, unless you are attempting the title of, "Leader of the Moron Pack."

ROFLOL You are priceless ...

Why, are you completely stupid???

Who do you think pays those taxes??? AGAIN???

I pass the taxes I pay onto to others in the price of goods I sell, or the services I provide! Even my cost of living is those goods and services! I am not in business to pay taxes, I am in business to make money to pay my living expenses, create my savings/retirement accounts, fund my vacations, purchase my boat, buy my second home, the wifes gold jewelery, etc., etc. Now I couldn't do that if I was paying taxes, could I? Trust me, FINAL CONSUMERS PAY THE TAXES!!! Or, in other words, business takes your money to pay its' taxes! Think about it!

You had better get a firm grip on reality there. That price of gas carries every tax picked up along the way, it is the FINAL CONSUMER who pays those ... I'll give you a clue: "ASK YOUR ACCOUNTANTS!"

All the elements which the human body is built of exists in the dirt.
That does not mean you should expect to find humans living underground,
in the dirt, nor that those elements will suddenly interact and create a
human body.

Themite/thermate is created in labs ...

Doesn't a lot of farm equipment actually run on No. 1 diesel? It is exempt from fuel taxes, or used to be?

I think in past times truckers used to be caught with tanks full of No. 1 Diesel, to avoid the fuel taxes. If I remember correctly, the fines were so steep a trucker could lose his rig in fines and court costs!

But, things may have changed by now ...

It is insane attempting to pass off a bad fraud of a birth certificate. Any damn fool should know better. I pity the poor fools who can't check that out for themselves!

It is insane to use a modified controlled demolition on the WTC and expect everyone to be stupid enough to not notice. I mean, what were they thinking? The only explanation is that morons expect everyone else to be a moron and can't see the differences!

Physicists, scientists, engineers and architects are going to see something suspicious when looked at closely, and they did -- which is exactly why you can't find any credible, credentialed, respected and honest ones who will NOT ask for an investigation, even the lead person on the phony investigation admits another comprehensive investigation dealing with the points ignored should be conducted ... the morons who did that false flag are insane alright!

Problem is, the real criminals are the public servants who influence the criminal courts ... and that is taking awhile to work out ...

DUH!

Regards,
JS

Post all that credible evidence again, you seem to have forgotten to
include it in all your other posts ...

Funny, but all I can find are posts of yours with inane and moronic
remarks composing the entire posts! Surely, we have all missed your
great words of wisdom, top notch research, concrete facts, proofs and
lab results proving your text. As, I am afraid without, your posts
build up like a bums trash in an alley ...

Well just think they were put in the buildings in 1963 it a wonder
they all followed sequence the gavanic corrosion could have made dudes
out on them!

Well, now THAT would be a good trick, since groundbreaking took place in
Aug, 1966, with completion of the first tower in December, 1972 and the
second in July of 1973.

It's actually quite sensitive, as portables go. An external antenna will do quite nicely.

Being quite general, here...as a quick starter, a wire, 10-20 feet long is all that's necessary. More than that and you may be subject to overload of the front end, which will create artifacts up and down the dial.

A decent ground may or may not benefit you. Your receiver input isn't like the input on your SX-99. Working against a ground isn't necessary with some solid state designs. YB400PE is one of them.

That is, unless you transform the input. Then you'll work the antenna against an earth ground on the antenna side of the transformer, and the receiver on the other. This will reduce some noise, mostly electrical.

More elaborate installations are possible, and some may work quite nicely, like trapped dipoles, for instance. And of course, always experiment. There are programs that can even model you an antenna to suit your specifics. And Kevin, here, has done that in the past for another member. But to get you started...a wire is all that's necessary to bring your SW bands to life.

Still, some method would be necessary to take excessive profits away
from business and introduce it back in the economy to keep all members
of the society in an acceptable standard of living.

Ever played Monopoly? Without the controls, mentioned above, all the
money (gold, oil, land, food, medicine, etc.) would end up in a few
hands and the remainder of the people would starve, and die in various
ways because of insufficient money to afford supplies, housing, medical,
etc.

Taxing the rich is, so far, the only means of preventing the doomsday
scenario mentioned ...

No. His mother was the only citizen parent. Whether she was married or not, she didn't meet the residency requirement.

If you think you can cite something showing that an unmarried 18-year-old American citizen giving birth abroad in 1961 would have begat an American citizen, then cite it. Otherwise, boy, shut the fuck up.

Title III, Ch. 1, Sec. 301(a), paragraph 7 of the Immigration and Naturalization Act of 1952, aka the McCarran-Walter Act, specifies which children born abroad to parents of whom only one is an American citizen is himself an American citizen:

The following shall be citizens and nationals of the United State at birth:

(7) a person born outside the geographical limits of the
United States
and its outlying possessions of parents one of whom is an
alien,
and the other a citizen of the United States who, prior to
the birth
of such person, was physically present in the United States
or its
outlying possessions for a period or periods totaling not
less than
ten years, at least five of which were after attaining the age
of fourteen years

The snarky boy, "iaranrod", pretends that this only applies to to children born to married couples, only one of whom is an American citizen. The snarky boy then assumes that if the couple were not legally married, then a child born to them would be a citizen. That's *WRONG*. Section 309 actually places *greater* restrictions, not fewer, on establishing the American citizenship of the child if the parents were not married:

CHILDREN BORN OUT OF WEDLOCK:

Sec. 309. (a) The provisions of paragraphs (3), (4), (5) and (7) of section 301 (a), and of paragraph (2) of section 308, of this title shall apply as of the date of birth to a child born out of wedlock on or after the effective date of this Act, if the paternity of such child is established while such child is under the age of twenty-one years by legitimation.

http://library.uwb.edu/guides/USimmigration/66%20stat%20163.pdf

So, regardless of whether or not Hussein's parents were married, he would not have been born a citizen had he been born outside the geographical limits of the United States and its outlying possessions: regardless of his mother's marital status, she didn't meet the necessary requirements for giving birth abroad to an American citizen under the

law effective in 1961: QED.

In 1961, a child born abroad to one alien parent and one American citizen parent aged 18 or under would not be an American citizen. This is not in rational dispute.

If Hussein Obama, the putative president of the US, were born abroad, he would not be a citizen and therefore would be ineligible for election to the presidency.

So tell me, how exactly did they manage to get several tons of thermite into the building, expose the necessary girders, set the devices, and manage to control them all with absolutely no one noticing or spilling the beans later? Further, how exactly do you manage to cause the visible point of failure to be exactly the aircraft impact site, and how exactly do you manage to protect the devices from all that damage and fire while still providing 100% reliability?

Sorry, but seems to me that explanation leaves a lot to be desired and based more on conjecture and supposition than actual fact.

Sprayed on Asbestos was used to protect them from the elements.

The girders are roof members of little consiquence.

They were not worried about being noticed setting the charges,as it
was common practice to do this back then so the buildings could be
removed easily in a tight area,so as not to do excessible damage to
the surronding structures!

Actually there was no Plane hit nor Fire it was all a smoke
screen.Somebody used smudge pots to create the illusion of fires and
pushed dummys out of the windows to create the illusion of jumpers!

How many tons of thermate would you estimate it took to burn a slot
into the vertical support columns on every other floor,knowing
kerosene wouldn't do it?

Sorry, but that doesn't prevent physical damage nor does it prevent heat
damage given a hot enough fire and/or enough time.

So once again, I ask how can you protect them against the impact of an
airliner, subsequent fires and of course be utterly inconspicuous.

> The girders are roof members of little consiquence.

I see, so your idea of how to collapse a skyscraper is to collapse the
roof.....and you think the official story doesn't consider reality....

Oh, and FYI, doesn't explain why in at least one case the visible point of
failure is clearly the sight of the impact from the airliner.

> They were not worried about being noticed setting the charges

Really?

People running around the building going into private spaces, ripping down
the drywall, scrapping off the fireproofing, hooking massive objects to the
girders, and no one is going to notice, remember and comment about it later?

ROTFLMAO.

>,as it
> was common practice to do this back then

Right, way back in then Bush knew that several decades later he would be
President and would need an excuse to go to war.

Sheese, and you call the 9/11 commission delusionary.

> so the buildings could be
> removed easily in a tight area,so as not to do excessible damage to
> the surronding structures!

Sorry, but it is NOT common practice, then or now to put demolition charges
in a building unless you are actually in the process of demolishing the
building.

> Actually there was no Plane hit nor Fire it was all a smoke
> screen.

Right, that explains the eyewitness accounts and video footage of an airliner running into the building....

Then clearly the building plans, contract documents, inspectors, and so on
would know ALL about them, right?

Interesting that absolutely NO ONE recalls such devices, no plans exist of
their inclusion in the building, nor the fact that no other building build
during this time has been shown to include such devices in their
construction.

Really, you need to talk to someone, your mental health is seriously in doubt.

Hi D. Peter Maus,

Will any guage work?

Also, if I run the wire East-West I'm guessing that it would have very low sensitivity to half of the signals arriving at the antenna, does that sound right? So to remedy that would an L shape help, with 10' oriented North-South and another 10' is oriented East-West, one end open, the other end attached to the radio antenna jack. How does that sound?

Thanks,
Mike

-First they came for the communists,
-and I didn't speak out because I wasn't a communist.
-
-Then they came for the trade unionists,
-and I didn't speak out because I wasn't a trade unionist.
-
-Then they came for the Jews,
-and I didn't speak out because I wasn't a Jew.
-
-Then they came for me
-and there was no one left to speak out for me.

Revised for 21st Century O-Bam-A-Merica ! :

First the Liberal-Fascist came for the Tea-Party'ers
and I didn't speak out because I wasn't a Conservative.

Then the Liberal-Fascist came for the Political Opposition,
and I didn't speak out because I wasn't a Republican.

Next the Liberal-Fascist came for the Born-Again Christians,
and I didn't speak out because I wasn't a One-of-Them.

Finally the Liberal-Fascist came for Ordinary Folks {Me}
and there was no one left to speak out for Us {Me}.

got to stay current with the 21st century
liberal-fascist 'game plan' ~ RHF

1 1/4 pound in each tower, hidden in a VERY special super sekrit place.

Then, 30 years later, tell the pilots to hit "just above" those specific
floors, or the cause is kaput!

Pretty much. It just has to support its own weight.
>
> Also, if I run the wire East-West I'm guessing that it would have
> very low sensitivity to half of the signals arriving at the antenna,
> does that sound right?

Not really. Depending on frequency, location, and surrounding
obstructions, a random wire has wildly varying patterns of
reception. For the most part, the lobes are not sharp peaks and
valleys, and you may, consider a random wire to be more or less
omnidirectional. This is less true the longer the wire is in
relation to the frequency being received. Another reason to keep the
wire below 20 feet in length.

Remember, this is a random wire. It will be more sensitive at
some frequencies, and less at others. But your receiver has more
than enough sensitivity to compensate for deficiencies.

A really great resource is the ARRL Antenna Book, if you're
looking for theory.

> So to remedy that would an L shape help, with
> 10' oriented North-South and another 10' is oriented East-West, one

Nah, that "explanation" is 100% based on...kooktardery.

Fourth time I've asked you, kooktard, and *still* no answer: If, as you claim, Obama spent MILLIONS to "hide his past", but yet all he can afford is "a bad fraud of a birth certificate". Duh!

And while we are on the subject, you *still* haven't told us why the Wall Street Journal believes the birth certificate is real nor have you yet told us why a kooktard like you thinks he knows more than the WSJ investigative reporters.

> Any damn fool should know better. I pity the poor fools who can't check

I'd try to use the whole mobile home as an antenna. Use a capacitor to connect the frame to you antenna input. Cheap experiment, sometimes works. NOTE: a clip lead and a piece of PVC tape for DC blocking = a capacitor.

The snarky boy, who bizarrely likes to pretend he's a 60+ year old woman, gets everything wrong. In particular, he is wrong about whether or not Hussein Jr. would have been born a citizen had he been born abroad.

Given the citizenship of Hussein Jr.'s father and the age of his mother, Hussein would not have been born a citizen had he been born abroad in 1961. The Immigration and Naturalization Act of 1952 (INA) specifies who is born a citizen (including birth in the United States.) If birth is abroad to parents of whom only one is a citizen, there is a US residency requirement for the citizen parent. Hussein Jr.'s mother did not meet that requirement in 1961, *irrespective* of her marital status. If Stanley Ann Dunham Obama was not legally married to Hussein Sr., as the snarky boy fatuously maintains without a shred of proof, that has no bearing on whether or not she met the residency requirement. If she was not legally married to Hussein Sr. but had met the residency requirement, then that would make it *harder*, not easier, for Hussein Jr. to have been born a citizen.

But the inability of the Maoist mother, Stanley Ann Dunham, to meet the residency requirement, is all you need to know: had Hussein Jr. been born abroad, he would not have been born a citizen.

Not an answer.

IF he had been born abroad, Hussein Jr. would not have been born a citizen, under the INA.

You really are retarded if you think that shit holds any kind of reality.
So uh, who's been charged for this "crime", you retard?
I mean if it's "proof", then why isn't anybody being charged, you retard?

Proves nothing, attempts to claim that security could have been totally
bypassed without notice, record or recollection simply because some relative
was a "principle" of the security firm.

This is what you consider PROOF?

No wonder you're laughed at.

>
> http://911review.com/articles/ryan/demolition_access_DonPaul.html

And what boils down to a book reviews of people pandering to the conspiracy
kooks.

Yea, I certainly see a whole lot of 'proof' being shown there.

NOT.

> The question isn't if it was possible; The question is not whether there
> is evidence, but only who did it.

Sorry, but still working on the question of if it's possible, which you've
not really shown, much less any real evidence to support your claims. We can
get to who after you've proven it was reasonably possible and that you have
conclusive evidence to support it. Something no one has yet established or
done.

Really?

Well, it is simple, prove what you say.

A list of video evidence, a list of experts, a list of scientists,
scholars, engineers, architects, demolition experts, etc. to back up
your simple opinion would change your statements from just so much wacko
opinions and rants into something resembling sanity.

Don't worry, we will wait here for you ...

No you claimed the roof members brought down the builds when you said
girder. I said roof members were of little consiquence as it has to be
the verticle support columns thyat has to be cut for weakoning a
structure for collapse!

>
> Oh, and FYI, doesn't explain why in at least one case the visible point of
> failure is clearly the sight of the impact from the airliner.

It was an explosion from the inside and a smoke screen to conciel any
damage,which there was none!

This was a farce there were preset exposives along that area of said
impact with a line of piping to create the smoke scene.

NO PLANES WERE USED!

>
> > They were not worried about being noticed setting the charges
>
> Really?

NO Loffley was told it was common practice when he asked why they were
beeing set during the construction.

It was compare to the las Vegas Casinos that were apt to be moved at a
moments notice!
>
> People running around the building going into private spaces, ripping down
> the drywall, scrapping off the fireproofing, hooking massive objects to the
> girders, and no one is going to notice, remember and comment about it later?

The only racket they made was during the stripping of the buildings of
their contents.Copper plumbing ,wiring,intermidiate supports,office
equiptment ,comodes.urinals,ect things that could be reused or
projectiles.

>
> ROTFLMAO.

This is an obvious emotion for the brain washed,if only you could

A closer look at your videos will show you it was a hologrammed image
of a plane people can see those you know.

They will be used to make people think the rature has come when they
put on the Nasa Blue beam project!

You seem to use the word trippin as if you know what your saying.So
you just threw that in there at random.Well then we must try and find
out what has your thought process limited!

The Illuminati deliberately dumbs down its sheeple using a variety of
tactics.Drugs was number one on their list,Politics is number
two,Religion is number three and schooling is another,where a desired
path is taught to be the best results for them.

If you dont believe you have a soul then this is a good thing,leaveing
politics and schooling.If you were not home schooled then this is most
like the culprit as politicians do as the illuminat says do.

That's true. But there is no freedom of association any more under
the Washington regime.

The freedom to associate does not exist if you cannot freely choose
with whom you will associate and with whom you _will not_
associate. In housing, in employment, and in innumerable other ways
that freedom has been taken away from us.

With all good wishes,

Kevin Alfred Strom.

Actually, that is exactly the proof of why the document is fake!

The typewriter IS CONSISTENT! And, as you admit, that is impossible --
if not a fraud.

THIS:
". Remember, those "B"s were supposed to be made with a manual
typewriter. The fact that two letters match up right to the pixel is ***
absolutely impossible*** for a legit copy of a typewritten document,
especially one from that era."

FROM HERE:

Schools only teach people a specific path to follow and that path is
directed by the CIA/illuminati.Schools teach its pupils to have
grammer hang-ups and instead of understanding what is being said they
are programed to look for edicate.This type of programming has been
successful for the controling elite for ages.

1031. Charlie Chan and the Mystery of the Mansion Hideout

Newsgroup: rec.radio.shortwave
Date: 2011-05-08 18:34:54 UTC
From: "Chas.Chan" <tianmeiguo@gmail.com>
Message-ID: <2a2c9836-8678-4407-9f4f-26f6e4bc08e8@f2g2000yqf.googlegroups.com>
Source record: 228958
Cross-posted to: rec.radio.shortwave,alt.news-media,alt.fan.rush-limbaugh,alt.politics.economics,alt.politics.liberalism

As the story of the death of Osama bin Laden grows more curious by the day, it's time we call in that legendary Honolulu police detective of yesteryear, Charlie Chan, to visit the scene.

With his Number One Son, Jimmy, Chan arrives at the former hideout of the deceased mass murderer, where a small crowd of on-lookers still lingers. This conversation ensues:

Jimmy: Gee, Pop, this doesn't look like a mansion. It looks more like a three-story police headquarters in a provincial capital in Guatemala.

Chan: True, but look around, Jimmy. Few houses are nearby, and none is bigger. Nor is there another house surrounded by a tall wall topped with barbed wire. But you are right, Number One Son. It does look like a jail, but given its secluded location and size, to some here it might appear to be the home of a rich man.

Jimmy: If bin Laden was hiding here from the Pakistani authorities, as well as from the Americans, isn't this a high profile place to hide?

Chan: Yes, Jimmy. And within your question lives another: Was he hiding from the Pakistani authorities?

Jimmy: They said they were hunting him.

Chan: Look around. What do you see?

Jimmy: Mostly open fields, with only a few houses nearby.

Chan: Look further.

Jimmy: Well, we did pass a big military base nearby where tens of thousands of Pakistani soldiers live. And there are many homes of retired Pakistani military. Plus, there's that national military academy we passed about a mile back. Gee, it's like we're at the center of the Pakistani armed forces.

Chan: Yes, and so we are, Jimmy.

Jimmy: Pop, wouldn't you think that someone in the Pakistani intelligence service would have noticed this place and inquired as to who lived here? It sticks out like a sore thumb.

Chan: Pakistani authorities report they visited here in 2003 to make such inquiries. An official says the compound "was raided when under construction" back then.

Jimmy: So who was living here then, Pop?

Chan: Here's an aerial photo of the compound from 2004. Who do you think was?

Jimmy: It was an empty field! So how did they visit a compound on an empty field?

Chan: It must have required great imagination, Number One Son.

Jimmy: I see evidence of the shootout here, Pop. The newspapers say it lasted 40 minutes. We are so close to a lot of armed soldiers. What did they do when they rushed here to investigate?

Chan: Another good question, Jimmy. An official of Pakistan's main intelligence organization, the ISS, says, "We were totally caught by surprise. They were in and out before we could react." He also says, "the compound was not on our radar; it is an embarrassment for the ISI. We're good, but we're not God...This one failure should not make us look totally incompetent."

Jimmy: Well, at least they admit their mistakes.

Chan: Perhaps. But an ancient honorable ancestor once said that sometimes a clever man will claim to be stupid to hide his cleverness.

Jimmy: You mean they knew bin Laden was here all the time, sort of in protective custody, under house arrest?

Chan: The President of Pakistan, Asif Ali Zardari, said that bin Laden "was not anywhere we had anticipated he would be." But White House counter-terrorism adviser John Brennan says bin Laden could have been living here five or six years. Is it not interesting that in 2005, al-Libi, who also lived here in Abbottabad, was captured and taken to Guantanamo?

Jimmy: All this doesn't add up, Pop. How long have we known that bin Laden was likely hiding here?

Chan: Number One Son has a good head for mathematics. The government admits knowing since mid-February.

Jimmy: Wait. Wasn't that around the time when Raymond Davis, an American contractor collecting information for the C.I.A. in Pakistan, was arrested for killing two men who, he said, were trying to rob him at a crowded traffic stop?

Chan: Another honorable ancient ancestor once said, "Two dogs may bark at the same time, but not necessarily for the same reason. On the other hand, one cat in a neighborhood of dogs can set all to barking."

Jimmy: This Davis story is a curious coincidence.

Chan: Much about all of this is curious, Jimmy. Details of what happened inside the compound when bin Laden was terminated with extreme prejudice are confusing. A man unable to relate a relatively

simple story without changing it with each retelling is often more interested in concealing, than revealing, information.

Jimmy: You mean the government might not be telling us the truth, the whole truth, and nothing but the truth, Pop?

Chan: Number One Son, do not be alarmed with what I am about to tell you: No government does such things.

Jimmy: I'm wondering about the timing of all this. I read that there were many National Security Council meetings over the last 6 weeks about how and when to enter the Mansion. I know these things take time, but I don't sense the fierce urgency of now to get a man who we've been hunting for 10 years.

Chan: Yes, the timing is interesting, Jimmy. Sometimes one must look for the reasons for when something happens within the eventual impact it brings.

Jimmy: And this comes from another honorable ancient ancestor?

Chan: No, from the Los Angeles Times.

Intense, closed-door meetings continued until after midnight. David Plouffe, a senior White House advisor who ran Obama's 2008 campaign, met with the president's press team and afterward, ambled past the Oval Office in blue jeans, shirttail out, looking tired but happy. A single Secret Service agent stood guard outside the Oval Office, where the light was still on. For a White House that has seen its poll numbers drop amid a sour economy and setbacks overseas, Sunday was a welcome reprieve.

Jimmy: Surely you're not suggesting that the timing was designed to enhance the President's standing in the polls?

Chan: Have you ever seen the ocean, Number One Son?

Jimmy: You know I have, Pop. We live in Honolulu.

Chan: Indeed. And what have you seen?

Jimmy: Same as you -- the surface of the ocean.

Chan: Of course. But we see just part of the ocean's surface, and not see the ocean itself.

Jimmy: One more thing, Pop. We're concerned that the Chinese -- the ones who live in China -- might get access to sensitive technology contained in the tail of the helicopter that was destroyed in the raid. What do the Chinese have to do with all of this?

Chan: We passed a Chinese restaurant on the way here. Let's have lunch, Jimmy.

Just a flavor of, "Attack the messenger, NOT the message when you have nothing of value to dispute the truth!"

Yeah, real brilliance, a true demonstration of the IQ of the individual reduced to such desperation ...

You don't need to keep repeating the above, it was insane enough the
first time.

Yes, as openly a mystery as to why someone would create a fraudulent
birth certificate which looks as if it were crafted by a particularly
dense elementary school student!

However, both plans, the fraudulent osama story and the obama birth
certificate, show such similarities as to look crafted by the same
elementary school student!

Certainly one must suspect some great form of logic and reasoning is
being done which is so complex in nature, so genius, that its' true
purpose escapes even the minds of rational men! ROFLOL

Yep, and when asked to prove even a single specific point that you consider your best evidence you can't do so and then run away when pushed over your inability to provide the conclusive proof that you claim.

Not even ONE point can you prove shows what you claim.

Hate to tell you this but girders exist in places other than the roof.

Further, it's going to be quite difficult if not impossible to use thermite
to cut a column since thermite tends to cut only in a downwards direction.
As such, your reaction compounds would simply drip off a column as soon as

you started the reaction and next to nothing would be accomplished.

> impact with a line of piping to create the smoke scene.
>
> NO PLANES WERE USED!

Right, so where did all the aircraft wreckage come from?

Sorry, but you're a loon and simply not worth the time to talk to.

Thanks to everyone who posted. I added a wire that avoids metal and runs
up a wood pole about 15' , the signal strength with the wire is much
higher than without, so I look forward to doing some scans tonight.

Yes, and that freedom to associate, or disassociate, doesn't only apply to unions.

If freedom of association does not include the following, it has been abrogated by tyrants and has ceased to exist in any meaningful way:

1. The right to place any covenants whatsoever on rental or sale of one's home, including racial covenants.

2. The right as an employee or employer or founder of any group to choose to associate -- or not associate -- on any basis whatsoever, including race.

With every good wish,

Kevin Alfred Strom.

Mike S.,
The Whip Antenna is about 3 Feet Long {1-Metre] a
simple Insulated Stranded Wire starting about "4X"
the Length of Whip Antenna ~12 Feet up to about
7X~8X will usually give better results without over
loading the Radio.

Collapse the Whip Antenna into the 'portable' Radio.
Then Clip the Antenna Wire on to the Tip of the Whip.

These Roll-Up {Reel} SW Antennas are Ready-Made
for 'portable' Radios :
Sangean ANT-60 'portable' Roll-Up Shortwave Antenna
http://www.universal-radio.com/catalog/sw_ant/3184.html
* Chips onto the Tip of the Radio's Whip Antenna {Collapsed}
http://www.zombiehunters.org/forum/viewtopic.php?f=42&t=22222
* -or- Plugs into the Radio's External Antenna Jack
http://cgi.ebay.com/170537256133

hope this helps - iane ~ RHF

Libertarians don't believe in pre-emptive war. We are way less likely to
be swept up in some media frenzied orgasm of patriotism and revenge. We
know that nothing changes until I the individual change.

If anything was put in anywhere for Bush..

It was during the period when cousin Marvin Bush was director of
security for the WTC - just months before its collapse.

All the airplanes wreckage came from the scrapyard most like because
none of it was identified as anypart of the said airliners mentioned!
The engine found managed to miss the roof and the awning it was found
under and it was from an early model jet used in the Vietnam War,not
large enough for a 757 nor 727.

In the construction world a girder is a solid support the roof or
sheet panels not the vertical columns,thus cant be of any significance
since the buildings collasped in their own foot prints. if the girts
were melted it would have caused the building to sway and fall over
like a tree instead of down like controlled demolition!

It was your Government that was guilty and they seem to have
diplomatic immunity from the Supreme Law of the Land.This is why noone
has been charged. They are in control of all three branches of
government the Excecutive,Legistlative and Judicial system. You can't
get a judge to try a case against their government,that would be
considered treason.Anything that gets excepted as a case gets
dismissed.Bush got his cousin to throw the case against him out.The
lady knew she was meant to be killed at the Pentagon and also knew no
plane hit the Pentagon. This is the smoking gun "the missile attack at
the Pentagon" and the shills are full force keeping that from the
public!

Right, and as director he could naturally violate the terms of the
contractual security without anyone noticing, or even employees coming
forward later saying "Hey my boss ordered me to look the other way while all
these guys with pallets of explosives came into the building".

Sorry, but that's not going to hold water.

Not an assertion that needs an answer. He contradicted himself, as you
usually do as well.

> IF he had been born abroad, Hussein Jr. would not have been born a
> citizen, under the INA.

Incorrect. Depends on whether the mother's marriage to Obama Sr. was
valid.

Ain't over? Kook, it never even STARTED. It was over when Hawaii
proved three years ago that Obama was born in the US, unlike McCain.

Case was closed. It is not even legally possible to challenge it.
Never was. Obama ate your lunch. He's the only president to PROVE he
is a natural born citizen.

Poor poor Blimpie. Never seen a woman's vagina since his mommy
squirted his sorry ass out on the floor and left him. No wonder he's
so "gender confused!" <chuckle>

You didn't give an answer. You gave a snarky young male fuckwit retort
- worthless.

>> IF he had been born abroad, Hussein Jr. would not have been born a
>> citizen, under the INA.
>
> Incorrect.

No, correct.

The INA specifies exhaustively who is a citizen if born abroad. Hussein
did not qualify under any provision. If he had been born abroad in
1961, he would not have been a citizen. If he had been born abroad
after the 1986 amendments to the INA, he would have been.

You have nothing - no citations, no references, nothing. I have cited
the law, chapter and verse. I am right, you are wrong. You are nothing

- nothing but a snarky fuckwitted punk boy who for some bizarre reason finds it amusing to pretend to be a 60+ year old woman. You are not a woman. You are womanish, but you are not a woman. Maybe you ought to undergo a sex change operation and become an ersatz woman.

It's some kind of psychological abnormality. I don't know if it's treatable or not. What I know - what everyone knows - is that it's a charade, a pose. He's a young snarky male, without any doubt.

THIS:
"It was analyzed by Ivan Zatkovich of Tampa-based eComp Consultants, which consults on intellectual property for telecommunications, web publishing and ecommerce and has provided services for corporations such as McGraw-Hill, Houghton-Mifflin, Citicorp and Amazon.com. Zatkovich has 28 years experience in computer science and document management and for more than 10 years has been an expert witness providing testimony in federal court in both criminal and civil litigation.

He confirmed that the multiple layers of the PDF document are anomalous.

"When a paper document is scanned on a scanner and saved as a PDF file it normally contains only a single layer of graphical information. The PDF that appears on the White House website however, contains multiple layers of graphic information. Multiple layers usually appear in a document like this when it is being edited or modified in some fashion.

"It is possible to take a single layer PDF and inadvertently create multiple layers, without changing the image in any fashion. But that does not appear to be the case here. The multiple layers in the PDF document are a result of changes made to the image," his report said.

Among the various items that were separated into different layers include the main text, the mother's occupation, the dates accepted, the stamp and signature of the state registrar and the time stamp of the state registrar:"

The INA of 1952 describes who is a citizen if born abroad (it has been amended since its original enactment.) The law in effect in 1961 is clear: a child born abroad to parents of whom only one was a US citizen would not be a citizen at birth unless the citizen-parent had lived five years in the USA after the age of 14, *regardless* of the citizen-parent's marital status. As the Maoist Stanley Ann Dunham, Hussein's America-hating mother and his one citizen-parent, was only 18 at the time of Hussein's birth, Hussein could not possibly have been born a US citizen had he been born abroad - which he well might have been.

The INA of 1952 describes who *is* a citizen at birth. If not in one of the listed categories, a person is not a citizen at birth - end of story.

<http://www.nytimes.com/2011/05/08/world/asia/08binladen.html?_r=2&partner=rss&emc=rss>

"It is not known if he had a radio in the house, but his son Omar, who lived with him in Afghanistan until 1999, described his father as constantly listening to the BBC."

I have looked at some of the photo's to see if he had a radio there and to see what he might have used.

I imagine him to have been a toter.

Once again, they attempt obfuscation to attempt to make fools of users here:

"US Law very clearly stipulates: ".If only one parent was a U.S. citizen at the time of your birth, that parent must have resided in the United States for at least ten years, at least five of which had to be after the age of 16." Barack Obama's father was not a U.S. citizen and Obama's mother was only 18 when Obama was born, which means though she had been a U.S. citizen for 10 years, (or citizen perhaps because of Hawai'i being a territory) the mother fails the test for being so for at least 5 years **prior to** Barack Obama's birth, but *after* age 16. It doesn't matter *after*. "

Be careful of their posts, they are half-truths, it is the lie which is buried within that will make you a moron for believing them!

At some point along here, you are going to have to grow up and quit falling for their chit! DUMMY!

Regards,
JS

Even more important, obamas claimed father was already married and never
divorced, his marriage to obamas mother was illegal ...

There isn't one thing wrong with the boy, there are dozens!!!

You can't even finish discussing the last lame point about him, and you are already into the next!

Only thing which is "All American" about obama is his resemblance to inner city negro children and/or 3rd world nation children!!!

It only gets worse and downhill for there ... :-(

Well, I wouldn't focus on that so much, every had someone hand you a form to sign, you are unsure of the date, and the person says, "That is OK, I will fill that in for you?"

While you are absolutely correct, and it is NOT absolutely legal ... you just know it happens ...

You are exactly correct, and your statement states only the obvious,
which lies in plain sight!

The government can't keep a secret, the truth lies in plain sight, the
free fall speeds (admitted to), the molten iron (admitted to), the
thermite proven in lab analysis, etc.

I mean, what is not to believe???

ROFLOL

Phillip Berg is a former gubernatorial and senatorial candidate, former
chair of the Democratic Party in Montgomery (PA) County, former member

of the Democratic State Committee, and former Deputy Attorney General of Pennsylvania.

No. I think I will go with the attorney -- but if you wish to submit your qualifications as reason we should dismiss his, we will review them, but CAUTION! No false birth certificates, PLEASE!

LOL

You just can't make up chit like this -- AND IT ONLY GETS BETTER!

Regards,
JS

What, the going got tough, so they called out the goon which sleeps with
the dogs in the back?

As I said, it sounds like all you can do is a bunch of obfuscating BS
and attacks on people with high qualifications, and MANY of them, to
make sure your personal opinion, theories, wants, desires and
suppositions are heard ...

Quite interesting, but still moronic behavior ... <yawn>

... plonk ... come back when you have something real ...

I just don't know about laden. If the suckers had kept him, they could have questioned him and those about him, if he was such a really BIG BOGEYMAN just think of the intelligence they could have waterboarded out of 'em!

Instead, they give us a lame excuse and then dump the body like so much garbage in the ocean (if there was a body at that time, even.) Besides, I think there has been one too many stories and laden has died one too many times, at least!

Heck, they could have got him at tora bora, and all this is an act, even with a frozen body which they thawed out ... I will never know for certain, now.

They claim there is a good reason that they had to hide the body ... I claim that is stupid ... others can decide for themselves ...

A Facebook gateway is now available for the rec.radio.info Usenet newsgroup.

On your Facebook account, the gateway provides links on your Facebook news feed to rec.radio.info articles that are available on Google Groups. There are also links on this page to the other two radio-related newsgroups that have similar Facebook pages, ba.broadcast.moderated and rec.radio.broadcasting.

Search for the following Facebook page:

rec.radio.info (Usenet Newsgroup)

All you have to do is "Like" this page to receive updates on Facebook. You can also suggest the page to your friends through the usual Facebook methods.

It should be noted that what appears on the Facebook page is links to Google Groups. You will still have to go to Google Groups (or to your regular newsreader) to see the actual articles. This is a notification feed only. Due to occasional delays with article Message-ID index updates on Google Groups, the links to Google Groups may not be immediately available. Still, it might be a useful way to introduce the newsgroups to those not familiar to Usenet by using technology that might be more familiar to them (Facebook). Instead of doing the sometimes hard work of convincing folks to sign up for news access, or to check Google Groups, all you have to do is invite them to the Facebook page.

Please direct any comments, questions, or criticisms to rec-radio-info-request@panix.com, which is the default Followup-To address for this article.

Andrew Breitbart and JT are talking about the mainstream news media, and the mnm doesn't tell us half the things we ought to know, and talking about Acorn.Andrew said the New York news reporters claim to be objective, but they are not, and how the media covers up for their lies.Andrew Breitbart has a new Book, Righteous Indignation.
Andrew Breitbart is a Brett Favre fan too.

What do they call them, Siamese Cats? I once read somewhere those cats are Crazy!

My sister usually comes over here on Sundays to mainly see if I am still alive and kicking.Yesterday I gave her three concrete blocks (for her flower garden/whatever) I had stored in my trailer.When I opened the trailer doors, there were three little bitty kitty cats in there.

I was joking about the Good Doggy.People do need to have their snail mail delivered to them.

The Himalayan is a hybrid, Persian mother, Siamese father, looks Siamese with the face of a Persian. Wife paid a mint for the cat when she seen them.

It is a nice cat though ... it follows us around like a dog, is very, very vocal. Complains if the cat box does not suit her, food does not suit her, something is laid in her bed, wants to be petted, etc., etc.

Kinda reminds me of the wife!

Regards,
JS

Hard to tell if it will be this severe right away, but certainly the
extremes - both high and low - will obviously ramp up noticeably. The
West is getting one of it's heaviest, longest-lasting winters ever,
after two years of considerable dought and a very heavy, long-lasting
winter three years back - preceded by a decade of drought. Feast or
famine - get used to it.

1) He has falsely represented himself as qualified for the public servant office of president.

2) He has forged multiple fraudulent documents to misrepresent himself and hide his crimes.

3) He has lied, and on multiple occasions on circumstances surrounding his birth certificate.

4) He has executed executive orders from the office of president to lock up all his records and attempted to make it possible to prove a crime(s) has/have been committed.

5) He promised "transparency" and has, instead, delivered lies/fraud/deception and hidden the truth.

6) He has ordered the body of osama trashed so that the truth, of his claims, cannot and never will be determined.

7) He promised an end to the wars, which he has EXPANDED!

8) He promised a return of jobs and low unemployment, and, by any reasonable estimate, unemployment is 20% or higher.

9) He has continued to supply the criminal banksters and wall street with our tax payer dollars and IOUs written on our childrens and their childrens', children ...

10) He has said, ï¿½The only people who donï¿½t want to disclose the truth are people with something to hide.ï¿½ -- barack obama AKA barry soetoro, from his August 21, 2010, weekly address to the nation. And thus, has rubbed our faces in his criminal messes!

11) Etc., etc., etc.

The guy is a lying bozo crook who needs the gallows for the unmitigated, blatant and purposeful crimes of high treason against the people he serves.

Only fools would support him, not to say there are not fools who won't,
mind you ... you might just see one or two, if you look. ROFLOL!!!

> "natural born". That is the issue.

1) He has falsely represented himself as qualified for the public servant office of president.

2) He has forged multiple fraudulent documents to misrepresent himself and hide his crimes.

3) He has lied, and on multiple occasions on circumstances surrounding his birth certificate.

4) He has executed executive orders from the office of president to lock up all his records and attempted to make it impossible to prove he has committed these crimes.

5) He promised "transparency" and has, instead, delivered lies/fraud/deception and has hidden the truth.

6) He has ordered the body of osama trashed so that the truth, of his claims, cannot, and never will, be determined.

7) He promised an end to the wars, which he has EXPANDED!

8) He promised a return of jobs and low unemployment, and, by any reasonable estimate, unemployment is 20% or higher.

9) He has continued to supply the criminal banksters and wall street with our tax payer dollars and IOUs written on our childrens and their childrens', children ...

10) He has said, ï¿½The only people who donï¿½t want to disclose the truth are people with something to hide.ï¿½ -- barack obama AKA barry soetoro, from his August 21, 2010, weekly address to the nation. And thus, has rubbed our faces in his criminal messes!

11) He promised to close Gitmo ...

12) Etc., etc., etc.

The guy is a lying bozo crook who needs the gallows for the unmitigated, blatant and purposeful crimes of high treason against the people he serves.

Only fools would support him, not to say there are not fools who won't,
mind you ... you might just see one or two, if you look. ROFLOL!!!

THE MONEY IS THE TAXPAYERS OF TEXAS ... and they damn well don't want it used to give SSI to illegal aliens and immigrants ... they need it now!

> My father considered retiring to a cheap place to live outside of the

Isn't SSI a federal program? Why would anyone ask such a moronic question in the first place ... but have him move to the interior of mexico (yes, there are safe areas) where it is much, much cheaper and attempt to get that SSI check there!

> My wife objects to illegals receiving the benefits of social security

> have to disagree with her.
>

If your parents have paid into the system, and you have paid into the system -- no problem! If your parents didn't pay into the system and you are an anchor baby drawing SSI here -- BIG PROBLEM!

And, there must be a half a dozen unacceptable examples of how it is given away to people which are undeserving ... I'd imagine your fathers' SSI check would be larger, if the money hasn't been given away -- do you remember when they gave it to the "Boat People" from Vietnam in th 70's?

I'll bet there is sizable population of them still collecting! They gave 'em a brand new car too, either a Pontiac Firebird or a Dodge Van ... I used to drive through the neighborhood where they placed them, houses all the same, cars all the same, people all the same ... and soon, one of the worst ghettos I had ever seen!

Wrong, again ...

A criminal system of public servants and courts is blocking having to
hear the case, they know it is cut and dried -- our president is a
criminal ... sometimes things which look like a crime really are crimes!

Wrong, again!

Simply noting the qualifications vs. YOURS.

YOURS = Lives in moms' basement, obese from eating cheetos candy bars,
pizza, etc. Completed one year of high school (but failed.) Hits
usenet though an open router the illegal aliens, living next door, have
not secured.

OK, so you guys have heard of Family Radio, no doubt. Their studios are just 10 miles from where I live and their main transmitter on HF is in Okeedokee, er Okeechbee, Florida. Harold Camping, the founder and genius behind Family Radio, has predicted with stunning accuracy and without overt prophecy from the Almighty, that the rapture will occur on May 21, 2011, although we cannot yet tell if it will be before or after lunch.

Anyway, so I'm groovin' along down the street after having gotten a sandwich (vegetarian, of course - God loves animals and does not enjoy seeing them harmed needlessly) and soft drink, and what do I spy but a Family Radio minivan with two very friendly chaps setting up a sign that sayeth, "Judgment Day May 21, 2011." I stop and smile knowingly at this, and one of them energetically hands me several "End Times" brochures and a handful of spanking new full-color business cards with glossy overcoat that also declare as much.

Well - What can I say? What can I do? I am dumbfounded and amused as I, an ordinary shortwave radio enthusiast and occasional listener to the Family Radio interval signal (as it covers up the desired signals from Pakistan or Bhutan), am CHOSEN by Harold Camping's hand-selected assistants to receive the Word and also to pass out the Word on fancy little business cards! It must be a sign, a revelation, a not-so-subtle message from the great beyond that, for the next 12 days, it is my predestiny to proseletyze profoundly on this preposterously proven prostitution, er, I mean, postulation.

So there you have it, the story of my improbable conversion to TBOTET (True Believer of the End Times) and chosen cherub of chicanery. I will have photos up of the business cards later so that you, too, can become a convert. (These cards will also be nice souvenirs of interesting times when we reach May 22, 2011 without substantial transsubstantiation ;-)

Somebody's humble servant (we won't say whose ;-),
Bruce Jensen (CA - USA)

Most in congress are as criminal as him, sex-drugs-money problems seems to haunt most. Only honest man I know of is Ron Paul, with a track record to prove it.

Nope, obama is a crook with a forged birth certificate ... that is all he is ... a damn negro with false ID and guilty of identity theft ... gee, I wonder if when we put the negro in the whitehouse anyone suspected that?

I seem to remember a lot of people telling me that, and frankly, I though them racist!

Now, I just think them correct!

I recall my grandmother telling me of an event in Indiana where some (or was it just one?) charlatans scammed folks into selling their property and worldly goods to finally await the rapture on top of some barns on a particular day... needless to say, the folks waited patiently as the charlatan(s) made their escape.

Hey, I'm not joking - I am serious - so much so, that I make this
offer -

If any person (hopefully wealthy) gives me all his money and earthly
possessions, I promise to feed, clothe and shelter him/her in perfect
opulent comfort until the Rapture or Midnight, May 21, 2011, whichever
occurs first ;-)

I wonder if there is a correlation between the ones holding devouted
beliefs in the "anointed one" -- "barack obama AKA barry soetoro" the ,
"magic negro" made famous by rush limbaugh?

Looks like the same mental disorder -- and summed up by the old saying,
fools and their money are soon parted.

But then, welfare steps in and saves 'em, so you don't have to feel too
sorry for them ...

Regards,
JS

At the poles you could keep up with it on foot -- and still have
time for some lengthy SWL sessions and naps.

Really? I've got all sorts of metal slag spheres around our burning table,
and oddly enough not only do we not use thermite, there is not barrium used
in the cutting process. Just good old natural gas and oxygen.

So please support your claim that spheres automatically mean barrium and thermite.

Oh, that's right, you don't do proof for your assertions.

You felled to connect the dots spheres that are made from iron and
sulfer that do contain barrium is the tell tell sign that Thermate was
used!

You cutting torch would take mega time to cut through vertical columns
this is why natural gas and oxygen torches are not used for controlled
demolition.

During a controlled demolition the columns are fitted with a yoke that
contains the thermite and holds it on the targeted column on about a
45 degree angle. This angle cut allows the top part to slip off its
base and drop straight down. You can see clear pictures of these
angled cuts on the columns. You would never use your torch to cut an
angled cut on a beam unless it was for a specific outcome. Scot your
just going to have to wake up and realize you have been dupped by your
National Socialist Government!

The fbi released a five frame video that shows a missile in
flight.That missile has a rocket plume behind it.It all so shows the
left behing explosion of the first rocket hit and another one
inflight.So that release has three traces of rockets fired at the
pentagram and funnything it could not display an airplane at all.

Then there is another FOIA relesed by them of a helicopter video that
shows the impact of a rocket but there also was no evidence of any
airplane visible not even a fly over!

There also is a video that shows the missing footaget of the missile
attack! I'll fecth them for you.BRB

>

Isn't SSI a federal program? Why would anyone ask such a moronic
question in the first place ... but have him move to the interior of
mexico (yes, there are safe areas) where it is much, much cheaper and
attempt to get that SSI check there!

It's done all the time. People retire all over the world, and expats get
their SS/SSI/military retirement pay/etc. sent to them in many a foreign
country (popular ones are Korea, Thailand, Costa Rica and Belize)

>I'd imagine your fathers'
SSI check would be larger, if the money hasn't been given away -- do you
remember when they gave it to the "Boat People" from Vietnam in th 70's?
I'll bet there is sizable population of them still collecting! They
gave 'em a brand new car too, either a Pontiac Firebird or a Dodge Van
... I used to drive through the neighborhood where they placed them,
houses all the same, cars all the same, people all the same ... and
soon, one of the worst ghettos I had ever seen!

I can't speak for your town, but in my town (Portland, OR), the Vietnamese
and Cambodian folks that moved in IMPROVED the neighborhoods, and were hard
workers and very industrious (we got a big boom of Vietnamese restaurants,
especially)

Unfortunately, under criminal governments, oppressive times, tyrannical public servants, dictators, etc., those who are serving as the peasant class start looking forward to dying, at least the weak amongst them -- if not soon enough, those profiting from the theft of resources, land, food, etc., from those peasants, usually help them along ...

I would stand with those who would grab up sickle, scythe, shovel and pitchfork and show up at the doors of those public servants, banksters and wall street with an intense desire to have a little chat ...

We have seen communism be a failed government system which fed upon a segment of the population for its' existence, we have watched the same happen to socialism, and now we watch the same happen to capitalism ... the one factor these all share is failure when corrupt criminals are allowed to become in charge.

It is time to do a housecleaning and remove these criminals. When enough tire of it, when enough have suffered long enough, we will have that housecleaning party!

No dispute, in certain countries, if you meet qualifications. In
mexico, the corrupt post office employees, somehow, end up getting the
checks, cashing them and you have a dickens of a time getting
replacement monies. You simply can't get a check down there, if you
don't want to do electronic transfer of funds, you can forget it ...

If you wish to find a country to escape to:

The gangs still knife, shoot, steal, supply drugs, etc. here. A large percentage still appear on section 8 (because of the housings location) and some type of public assistance. Many of the youngsters have seem to have left the area these days ... many, many have returned to Vietnam.

I can make thermate in my backyard!

I can't make nano-thermite/thermate in my backyard!

It is the uniformly sized particles of nano size which increase the explosive and energetic properties of the materials (more finely distributed though each other and bonded together tightly which provides its desirability for destruction and also serves as the "man-made signature" which makes it so identifiable.

We got our (mostly wannabe) gangs up from CA. Mostly F-13. Tom McCall begged
back in 1969: "Don't Californicate Oregon"... but they got in anyway. First
came the developers to ruin the coastal communities, then the Yuppies, then
the gangsters..

Well, they would not be working with trace amounts if they had a body,
or ever had a body. The time to "amplify" the DNA for a cig butt,
coffee cup, etc. isn't necessary -- they have a virtually unlimited supply.

But, they are claiming they threw away the evidence which vindicates
their story! So, naturally, the NON-gullible, like myself, suspect
further crimes, cover ups, scams, etc.

In California, we need to guard our borders from the illegal aliens.

You in Oregon need to guard your borders from the illegal aliens too,
plus Californians and "Nevadaians!" ROFLOL

The safe, sane and respectable people in California end up in Hawaii,
Bermuda, etc. it leaves a condensation of evil here. The wife won't
leave because of family ... but, someday, I favor Arizona or New Mexico
:-) A LOT of business here is now foreign owned ... the writing is on
the wall ... most all of my remaining family is in the Midwest, Florida,
Hawaii and a few younger ones in So. America seeking fame and fortune ...

I keep buying property and moving us farther and farther out of the
inner city -- problem is, wife and I are getting older and need close
hospital access, makes ya' feel safe in your older age ... I hate
ambulances ...

I forgot to tell you, just wait until the mexican gangs start crossing
your borders! THAT WILL TAKE YOUR MINDS OFF THE OTHER GANGS, FOR SURE!

Indeed, they tend to exterminate other gangs to make more room! ROFLOL

And, not to mention the nice graffiti! You'll just love in on the
buildings, the cars, the sidewalks, your house, train cars, diesel rigs,
the trees, etc.

Will cause much new business in your area -- graffiti removal! Oh, the
new experiences coming your way.

You know what they say here, no one likes change but a baby! And, that
was when they still thought obamas "CHANGE" meant a change for the better!

Regards,
JS

He was, of course, natural born. Not in dispute. Unlike McCain, Obama
was born on US soil. This makes it unquestionable.

> That is the issue.

The issue is why, with Obamacare now the law, you have not yet sought
out mental health treatment.

I believe that people who are willing to ignore the Constitution,
consider some "technical" item of it to be of little consequence are
those causing the problems!

If they suggest I then follow them on their "genius plans" ... well, you
can see how I am forced to decline ...

Those beams at Ground Zero were cut with torches AFTER the collapse by
workers cleaning up the debris, kooker. There are PHOTOS and VIDEOS of
them doing this. You are STUPID BEYOND BELIEF.

Well, the Constitution still covers illegal search and seizures, doesn't it? I mean, yes, they are doing it, but it is still illegal ... or, is there a new definition of when, "Stealing isn't stealing?"

I mean, the crooks are constantly updating that meaning!

> ...
> That doesn't answer the question. How do we get from here to there?
> This is a political process. You know that 99.99% of the people who
> will lose out by eliminating social security will vote against any
> politicians who propose eliminating it.
> ...

Probably done the same way it has always been done in similar situations, for example: obama/congress passes a medical bill which will provide ALL Americans health care. Naturally, medical/medicare is discontinued and replaced. However, somewhere along the line, the new obama health care is determined to be unconstitutional and/or illegal, and discontinued. And, now ALL the people are left without the medical care they are still paying for ... really sweet deal for the crooks, especially since the morons never catch on!

> We can bitch all we want, but bitching doesn't solve anything. Show

> We have to survive between the time when we eliminate social security
> and when your utopia arrives.
>

Instead of designing institutions, laws, benefits, etc. and then forcing people into conformance ... we build society around the citizens and everyone benefits and is relatively happy ... I think it would work, but hasn't been done in many, many decades, so it will appear like a "new invention" to many ...

Blame it on Bush.

Doggy took me out in the front yard a short while ago.That woman next door was standing on the sidewalk in her front yard.She asked me if I had seen anybody in her back yard today.I told her like it is, I haven't seen anybody over there.She said she left her back door unlocked and somebody stold her computer.She also asked me if I have seen Sam.Sam is a dude who was shacking up with her, about two something years.He got her pregnant, her baby girl is almost a year old.Apparently, last January Sam decided to make like a tree and leave.I thought they had decided to split up and go their seperate ways.I don't keep up with those people around here, I don't even know their names.

Why would they cut them at an angle just to take longer.were they
getting paid overtime.

What material is used in the cutter charges of controlled demolition?

Limp rod you need to do the same operation that Cher's daughter
Chasity had done it will give you leverage!

You could pick up the pretty chicks then

Well, yeah ...

All of our "problems" seem to be related to inside jobs involving the CIA, on some scale ...

Past bogymen we have created, past dictators we have placed in office, past "aid" given to countries, drugs for guns deals, etc., etc.

I think we can improve our personal situation a LOT by simply getting rid of the CIA, like Kennedy and his brother had planned ...

The whole system of public servants have seem to have gone paranoid/schizophrenic and started believing in the bogymen they create to manipulate the population!

Well, a good house cleaning could put that all behind, for awhile, again ...

Are you on drugs, nutbag? This thread is about the birther kooks.

But since youa sked, no, Clinton did not lie. He was not asked if
Monica gave him blow jobs and he truthfully answered no.

> Funny how you
> would tar and feather someone like Clarence Thomas who allegedly made a

No, it doesn't at all. Stop making a fool of yourself and bone up on
the facts, kook. Blow jobs was left off the list of stuff he was asked
about. Ain't Clinton's fault Paula Jones' lawyers screwed up. It's not
his job to correct them.

OMG, this is your proof?

Some asswipe that doesn't even understand that video is taken in a series of FRAMES (ie individual pictures) and that the apparent motion is only a result of looking at individual pictures in quick succession? That high speed movement of an object will cause it to appear to leap from place to place as you look at each individual picture in succession? That when you slow a video WAY down, what you are doing is simply looking at one individual picture for awhile and then switching to the next picture which you look at for awhile and then you look at the next picture for awhile. That what you see as slow motion in movies and so on is actually shoot at a considerably higher number of frames per second and then played back at the number rate making the motion appear slower.

With this as an example of your "proof" I'm not even going to waste my time looking at the other link, or even bother looking at any of your claims of 'proof' because you don't even have enough intelligence to recognize the flaws in the assertions made by these people you rely upon for your proof.

The only person who could possibly buy this sort of crap as 'proof' is someone who is a fucking stupid moron incapable of any sort of independent evaluation of their own, but simply buy the claims of other fucking stupid morons as "proof".

Yeah, I think many toxins are hidden within the "toxic cigarette smoke"
verbiage ... now it will have to make room for the radiation coming from
Japan which we are still breathing and which will still be being created
for sometime to come as the nuclear plant continues releasing tremendous
quantities of deadly toxins to drift over here, to the USA.

EVERYTHING. Doesn't have the FIRST clue of how video works and that a video
is actually just a serious of individual pictures and WOW when you slow down
a video enough.....all you see is an individual picture showing NO movement
until suddenly the next picture loads and the object leads across the frame.

Dude, buy a fucking clue, you're just butt ass stupid and ignorant.

Actually, they are. A LOT. In fact in most controlled demolition they are
used.

Even in explosive controlled demolition much of the prep work is done via
these exact sort of cutting torches.

I really suggest you need to STFU and quit simply embarrassing yourself with
your stupidity and ignorance.

Yep, all but impossible to cut a column with thermite. It will simply drip
off and do little or nothing to the column itself.

>> You cutting torch would take mega time to cut through vertical columns
>> this is why natural gas and oxygen torches are not used for controlled

Yea, and cutting torches actually are used in controlled demolition.

Cut with torches? You mean like in being used in controlled demolition?

Say it's not so.

Best thing about that video, it was BEFORE the cleanup crew comes in to
clean up!

Those are first responder firemen on the scene in that one! NOT
demolition employees ...

The loony logic goes something like this:
"Kenya didn't exist until 1963 and OCR didn't even exist then so
Obama's a Muslim!"

Very good observation . However , I'm not convinced about the bum in
the latest video . It is another person . How about the story of
getting cured (kidney illness) by eating watermelons ?

My grandfather used to tell my kid sister, "If you swallow a seed, it will grow in your belly." And, then he would point at some pregnant woman as "proof."

My sister admitted one time, the first time he told her that, she actually believed him! She still gets a kick out of it and admitted she once pulled it on her daughter ...

Frankly, this new story involving a watermelon is good for a laugh also ...

I know for a fact an Ironworker wont cut a column on an angle rather
than straight through because of the time it would take.Who would want
to spend soo much time in all that heat and asbestos dust,when they
could cut the shortest and quicker path and move on to the next cut,a
junkyard man has better since that that!

Ever fall a tree with a chainsaw?

Same angled cut is used to control the direction of fall, else the
worker cutting a long beam is likely to be endangered having to scramble
out of its' way.

No, people cutting beams with a torch would be just as likely to make
angled cuts as demolition workers, and for the same reasons, to control
the direction of movement. With the demolition expert, he is attempting
to shift the building in a predetermined direction, in the case of the
torch/cutter, he is attempting a fall in a predetermined direction ...
neither adds nor subtracts from existing evidence and proof.

But, like I said, those are first responders on the scene, those beams
are cut at angles, and the cleanup crew hasn't gotten there yet ...

Regards,
JS

Thermite was not used for its ability to cause an explosion or to blow
the building apart it was used strickly because of its instantanious
cutting ability in incentarary devices and very quite no loud
explosions.

This is what NIST tried to pull off,to explain away the level of noise
needed to blow a building up. It only had to be loud enough to burn
the columns into! The sheeple swallowed the loud explosion part and
this fed their fancy.

If you quietly cut all the vertical support columns then a minor
explosion creating a jolt would set off the collapse!

Yeah, I see that has nothing to do with the angle of the cuts I was explaining ... and, we need an independent investigation, not your opinions.

No, that's not the issue. The mental health of birthers is the real
issue. Obama was born in Hawaii, case closed.

Who would you get to except a truy investigation. Your National
Socialist Government is in control of what cases goes to court! Trying
to get this idea of yours to declare justice against your Government
is a federal offense and you would be convicted of treason!

Hows that for an opinion?

1268. SO? What would you ask wannabe' debunkers?

Hire 'em. There is a whole slew of them on the 9/11 truth site, as well as many more who have already been investigating, on their own. How about making one of 'em Niels Harrit?

Even toss in some people from NIST ... it'll all work out. As long as it is done with open public scrutiny and all aspects are investigated and everything is widely open to the world.

You could have Stephen Hawkings review all the data, in the end!

Unless you are completely stupid, you will know a true and complete investigation ...

> Hows that for an opinion?

That one? Well, that one is particularly stupid ...

Regards,
JS

This brings us to the B-thing buch (Israely Art Students)they stayed
in there for a year and a half rent free gutting the building or do
you think they(Bushes Security Employees) took out as much support as
they could while doing their mantinance.There was very little office
equiptment plumbing,wiring,carpet,cell phones,ect in the debree pile!

Scott my audience needs to know these things,you cant do them justise
your just a simple steel worker with no knowledge of controlled
demolition except that which NIST taught you!

How loud does a linear cutting charge have to be to cut through a box
column!

Torches are used in prep work occasionally but not for cutting the support columns and they certainly dont use nap gas.

You mean, the actual criminals step forward and say, "Alright, I did it."

Or, "Yeah, I aided and assisted them."

Or, "Yeah, I knew about it and kept my mouth shut, even though I knew
better."

Or, "Yeah, I did-it/remained-silent for the money."

Or, "Yeah, I did-it/remained-silent for the perks/job-offer."

Or, "They threatened my family, I had to, but now I want my family dead."

Etc.

Gee, I can't even think of a single reason! ROFLOL

A lawyer oath demans him be hung for going against his Governmens
Constitution! Bushes cousin threw the case againt Chenney and Rumsfeld
out of court still claiming there was a plane strike at the Pentagram!

Its all cut and dried,its National Socialism brought here by our 41st
President straight from Nazi Germany."Curious George" Sherriff Jr that
name given to him by Tesla, started the CIA.

There has been too many years in the planning to bring about One World
Government,to let a true investigation be presented to the sheeple!

Which brings us full circle, yes, the problem is the criminals in
government -- everything else is simply a symptom of the problem.

- Do you have any sightings of the Sasquatch in California lately?

NO ! : Al Gore has not been 'in' California for a while
-but- The Good-Year Blimp has been floating around
a lot . . .
Yeah I know it is easy to get the two confused : Both
are Filled with Hot Air and Big Bags of Gas ;;-}}

FWIW : Sasquatch [Big Foot] Sightings Map
http://www.bfro.net/gdb/
The California Number of 'Sightings' 425 is believed
to be Corrupted by Illegal Drug and Alcohol Users.
Factoring Out Those who admitted to using either
or both in the 4~8 Hour Period leading up to Their
Claimed 'Sighting' it's more like 128.

tv weather reporting it's . . .
so easy a sasquatch could do it ~ RHF
.

You can't "think" at all, Johnny KQQK.

According to you, everyone in the world is threatening everyone else
except you and the other dozen truthers still left in the world to
keep this secret from you. BWHAAHAAHAHAHAAAHAHAHAA!

Hint: Your claims are proven to be physically impossible. End of story.

Huh?

Why would the FBI release something so carelessly? Why would they release something that would prove they were lying? Why would they shoot themselves in the foot?

You are saying on the one hand that they are smart enough to realize the film needs doctoring, but on the other hand, they weren't smart enough to remove what they realized needed doctoring.

Thanks for proving once again that the two most common things in the universe are hydrogen and stupidity...and I'll give you a clue: we ain't talkin' hydrogen. :-(

They didn't. A piece of tape was found by building security which held
the bolting mechanism of the door lock in the room that was burgled, and
the astute building guard triggered the whole investigation.

This same thing has happened in 9/11. Astute scientists, engineers and architects have found the "smoking gun" (just as the guard in watergate) but criminal public servants and courts have, so far, effectively blocked the ensuing, REAL, investigation from ensuing and apprehending the REAL criminals involved.

Seems the criminals did enough homework on watergate to know how to block the crime from progressing to the courts on 9/11 ...

"What happened at Watergate?

Watergate is a complex of apartment and office buildings in Washington,
D.C. In July 1972, five men were caught breaking into the Democratic

Party's national headquarters at the Watergate. Among them was James McCord Jr. (1918ï¿½), the security coordinator of the Committee for the Re-election of the President (CRP), an organization working to get Republican President Richard Nixon (1913ï¿½1994) elected to a second term in office.

All five men who were caught in the break-in were indicted (required to stand trial) on charges of burglary and wire-tapping, as were CRP aide G. Gordon Liddy (1930ï¿½) and White House consultant E. Howard Hunt Jr. (1918ï¿½). They pleaded guilty to the charges; McCord and Liddy were tried and found guilty. However, when the election was held in November, Nixon won in a landslide victory over Democratic candidate George McGovern (1922ï¿½)."

Obama wasn't born in Hawaii. Yes he was entitled to America
citizenship through his mother. But he was NOT a natural born citizen.
He was not eligible to be president.

I wonder if my guess is correct, and he thought that made it all OK?

I wonder if I am correct, and that he still disrespected them and
considered them idiots for believing him?

I wonder, also, if I am correct and he thought himself particularly
"noble" or "kind, etc. in the fact that such as great man as himself
(puke) had done such an act to those so far below him?

The man was worthless, that worthlessness began at the base of his feet
and reached feet above him -- the height and stature he considered
himself to be!

It will be soooo interesting to see how Kooktard Kamping will back peddle / remove the egg from his face when the world is still here on May 22.

This is BS. This "scientist" does not even have the balls to use his
real name to stand behind his bogus assertion.

Certainly was stupid ... and that supported by "their" own claims!

If waterboarding, torture, gitmo, etc. are so effective, then the application of the same to bin laden would have been nothing short of a miraculous gold mine.

You just don't have to prove "them" false, when they go on doing such a superb job of it themselves ...

It just keeps getting better ... just when you think their imagination and deceptions have, certainly, reached the limits of what is humanly possible, they break another record!

Regards,
JS

The title of the thread asks is "OBL Dead?"

If you believe the President of the United States, the Wall Street Journal and Al-Qaeda, the answer is 'Yes'.

If you believe Johnny "Kook" Smith, the answer is 'No'.

So, who ya gonna believe? Your pick...

He'll either claim that his calcs were wrong or that God granted a
reprieve. Either way, he's right and it's not your place to question
God's authority ;-)

Well, at least it was only their money and property. It could have been worse -- like when Applewhite and his fellow kooks committed mass suicide because of the UFO hidden behind a comet.

To once again paraphrase H. L. Mencken, "You'll never go broke under-estimating the gullibility of the American public".

Feast or Famine.You better start planting that Victory Garden.When I was a kid back in the 1940s in Carthage,Missy Sippy, we had a big Garden and some Chickens and a Cow/Milk Cow.I remember working in our Garden and working that Butter Churn.When we moved to Jackson in 1949 my dad planted a Garden in the back yard.Gardens are Good.

Has anyone but me noticed the irony of a Christian radio network,
broadcasting to a Christian radio audience the countdown to the End
of Days when neither will be there to either broadcast, nor receive
the broadcast?

He's apparently not read the passage in the Bible that states
that no man may know the day or the time of the Rapture.
